

## **Introduction of agenda item 3 (b)**

Proposals on possible support by the Nairobi work programme (NWP) to the implementation of the work of the AC

**Presentation by Annett Möhner, UNFCCC secretariat**

**Fourth meeting of the Adaptation Committee**

**5-7 September 2013**

**Nadi, Fiji**

# I: Background and context

---

- **SBSTA 38 mandate: SBSTA invited the AC to provide recommendations in its next report on how the NWP provide support to the AC**
- **Paper identifies 3 types of possible support:**
  - **Joint activities to enhance synergy and coherence**
  - **Catalysing further actions with relation to the provision of information and knowledge products from partner organizations**
  - **Supporting engagement of adaptation stakeholders through existing modalities under the NWP**

## II: Proposed next steps

---

The AC may wish to agree on:

- Joined activities, such as:
  - Workshop on best practices and needs of local and indigenous communities & scoping paper
  - Information paper on national adaptation planning
- NWP contributions to information and knowledge products as identified by, e.g. activities 6 (list of regional centers), 15 (IPCC meeting), 18 (meeting on livelihoods and ED), 21 (reports) of the AC's work plan
- NWP contributions to stakeholder engagement in the context of, example the AC's communication and outreach strategy

## III: Topics for further guidance

---

- **Short term:** What activities, including joint activities, could the NWP carry out to support the work of the AC for the period up to COP 20 (timing, modalities etc.)?
- **Medium and long-term:** Pending further reconsideration by the SBSTA, how could the NWP function as a technical wing of the Adaptation Committee in facilitating the generation, dissemination and application of data, information and knowledge on adaptation?
