Breakout Workshops

All 4 thematic workshops will run in parallel. Participants will join one of the four breakout rooms. Participants will stay in the room through the day. After each round of workshops, facilitators and experts will rotate to a new room.

Over the course of the day, all participants will be able to attend each workshop.

Each Workshop Round will run for approximately 75 minutes with a short break in between to allow facilitators and experts to switch between breakout rooms. Facilitators will keep time and inform about the program.

Guiding questions to breakout group workshops.

- *What are opportunities, best practices and actionable solutions for just energy transition to urgently scale up mitigation ambition and implementation in this critical decade in each of the respective sub-topics (renewable energy, grid and energy storage, energy efficiency, CCU and CCS)?*
- *What are effective policies and measures implemented from global perspective and country-specific experience for each of the respective sub-topic?*
- *How are financial, technological and capacity-building needs addressed for each of the respective sub-topics?*
- *How are the issues of international cooperation, including with non-Party stakeholders, and provision of support to developing countries addressed?*
- *How is sustainable development promoted and what are the socioeconomic effects under each of the respective sub-topics?*
