

# CLIMATE PROMISE

# The Climate Promise:

The world's largest offer of support to countries on NDCs

127

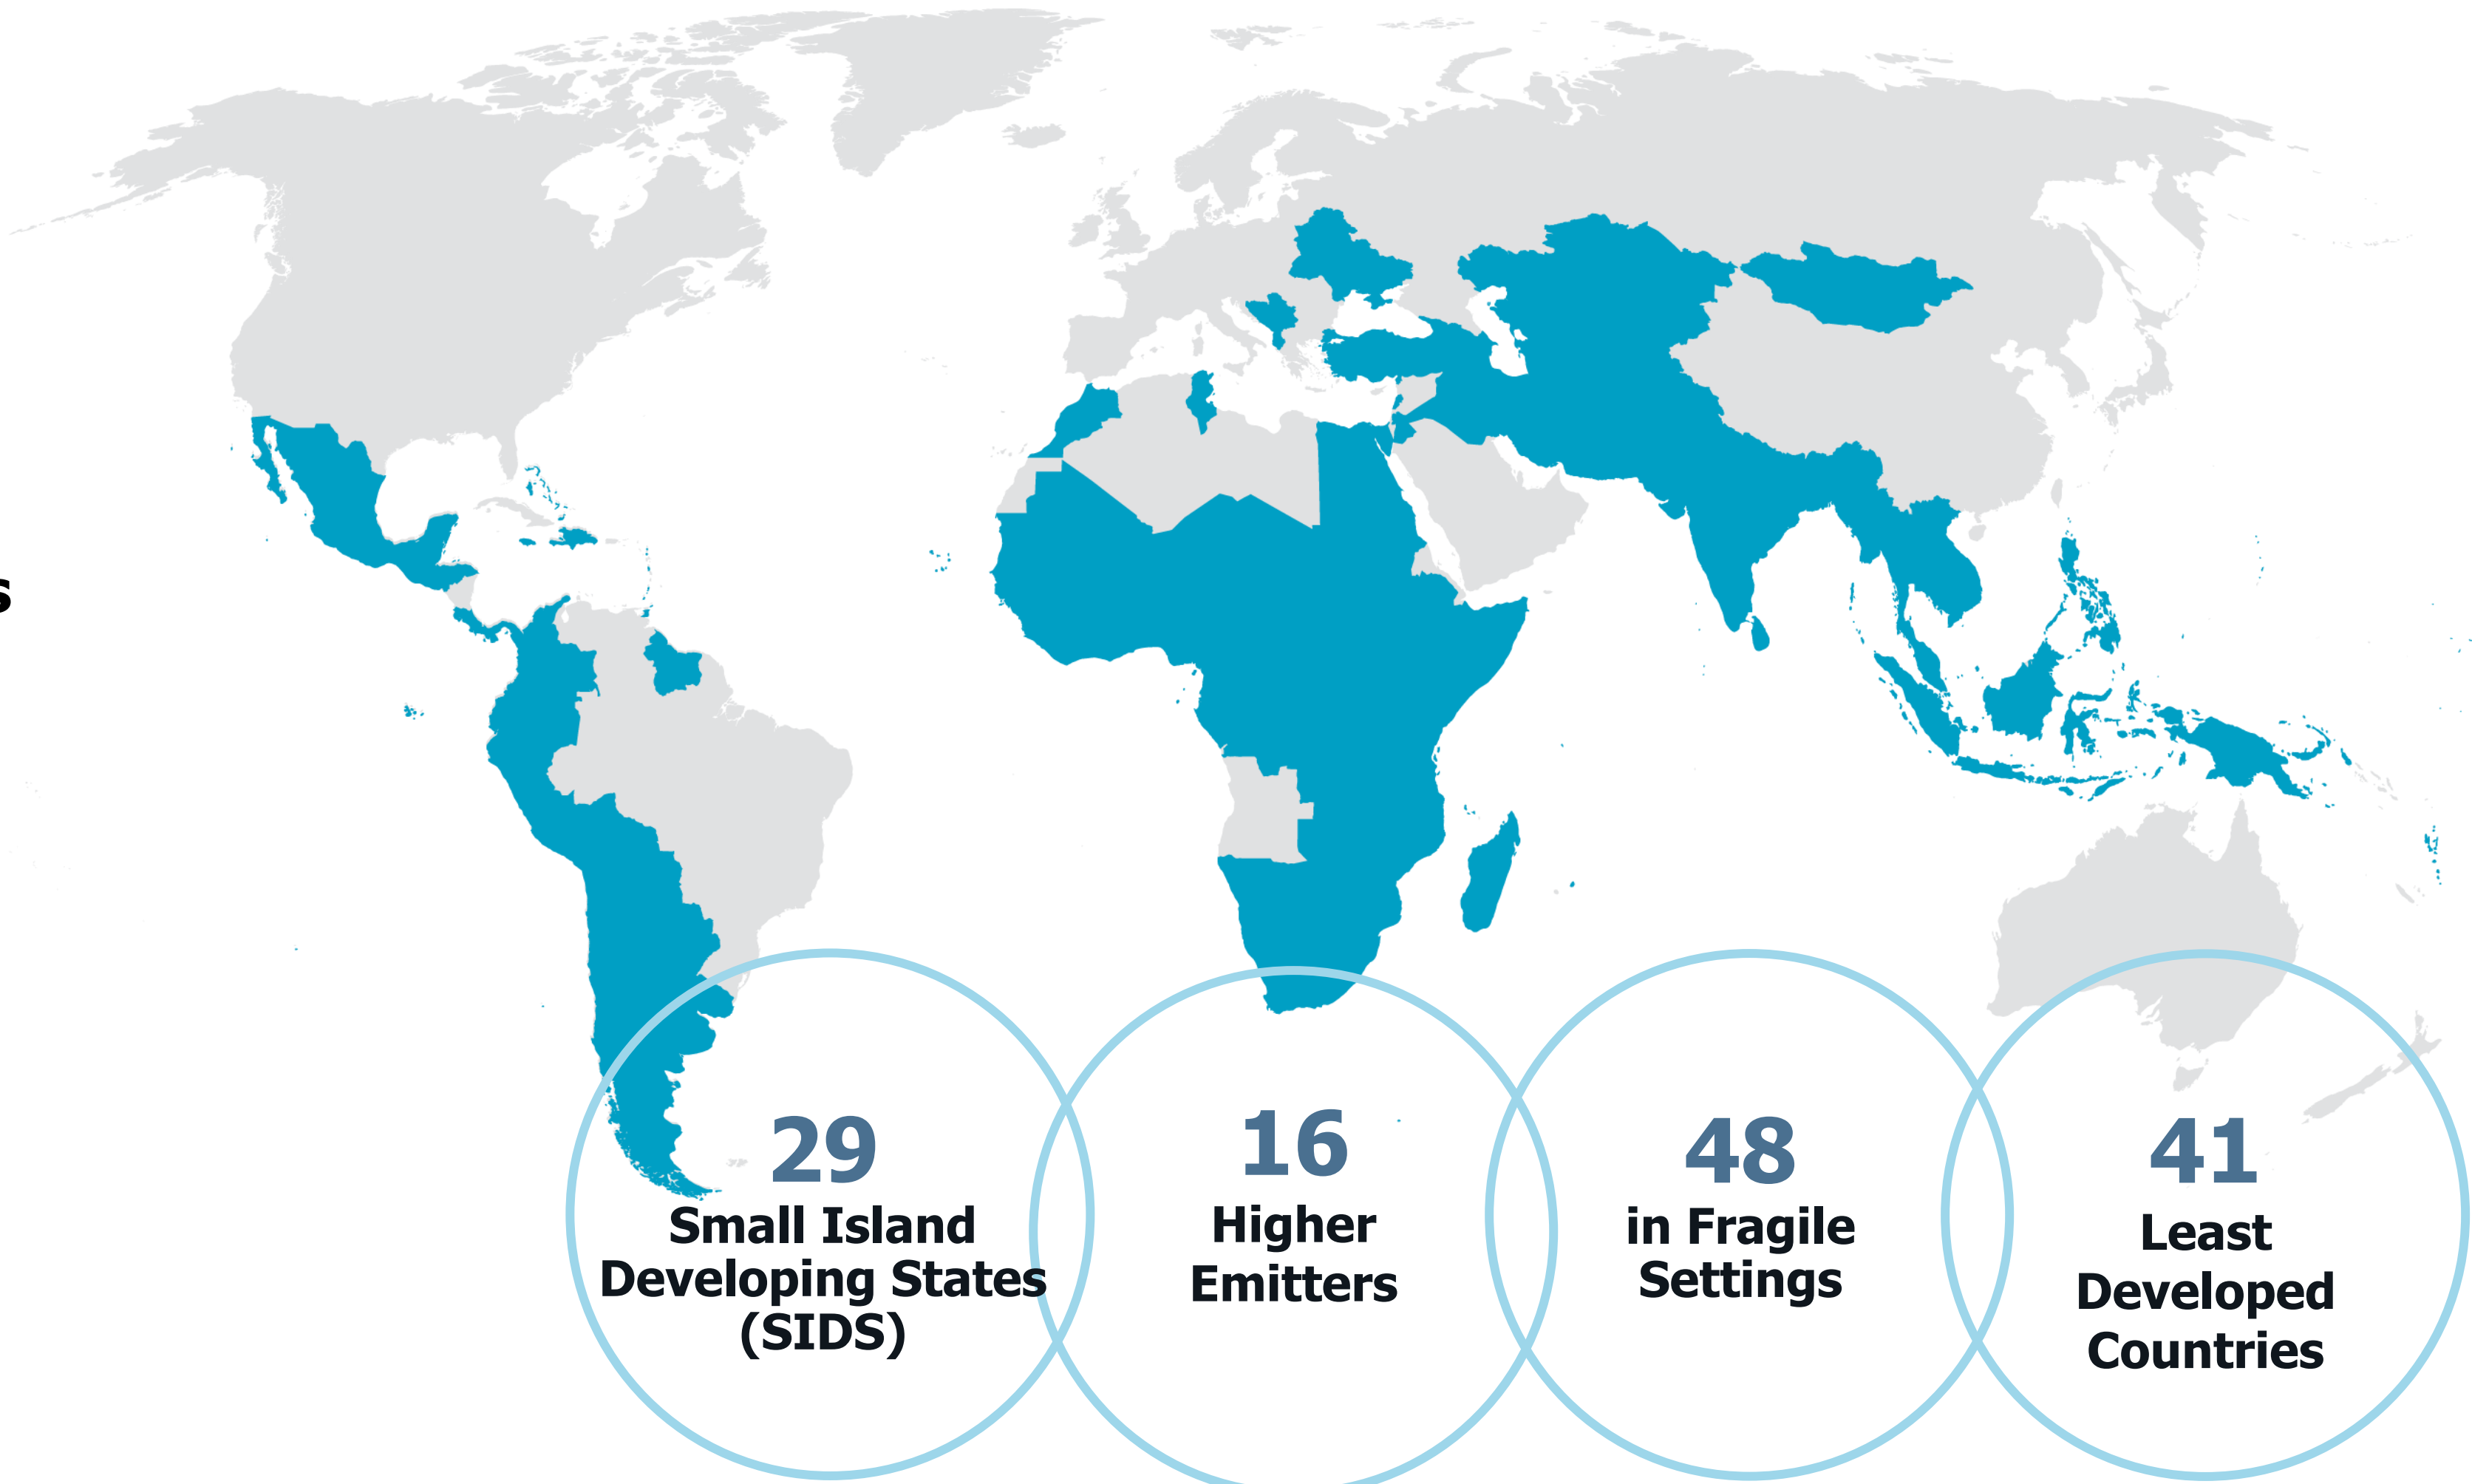

countries and territories  
received support to date

OVER  
85%

of all developing countries  
worldwide represented

67

countries received NDC  
Implementation Support

# Partners of Climate Promise

## Works in collaboration with more than 35 partners

# UNDP's Offer of Support for LT-LEDS and NDC Enhancement

- ❑ The support is aimed at increasing the number of Parties to the Paris Agreement having LT-LEDS and increasing alignment between LT-LEDS and NDC.
- ❑ The support is provided to countries that are members of NDC Partnership.
- ❑ The duration of ongoing support: Jan to Dec 2023.
- ❑ The support is equally applicable for both MENA and South Asia regions.
- ❑ Currently 23 countries from all over the world are receiving the support.

# Coverage of UNDP's Offer for LT-LEDS and NDC Enhancement

- ☐ The support is provided at national, sub-national and sectoral level as requested by the country governments
- ☐ All sectors of the economy and sectors outlined in the NDC are eligible for the support
- ☐ Adaptation and mitigation measures are equally eligible for the support

# The Streams of Support

UNDP's support is provided around three streams. A government can request for support under one or more streams

**Stream 1:** Providing countries preparatory support to design their LT-LEDS and NDC Processes.

- *Societal ownership and political will*
- *Assessment of LT-LEDS feasibility and alignment with NDC and other climate/development planning policies*

# The Streams of Support

## **Stream 2:** Supporting the submission of LT-LEDS and update/revision of NDC

- *Inclusive coordination and governance*
- *Stock-taking*
- *Data gathering, data generation and drafting of LT-LEDS and NDC*
- *Development of implementation plan*

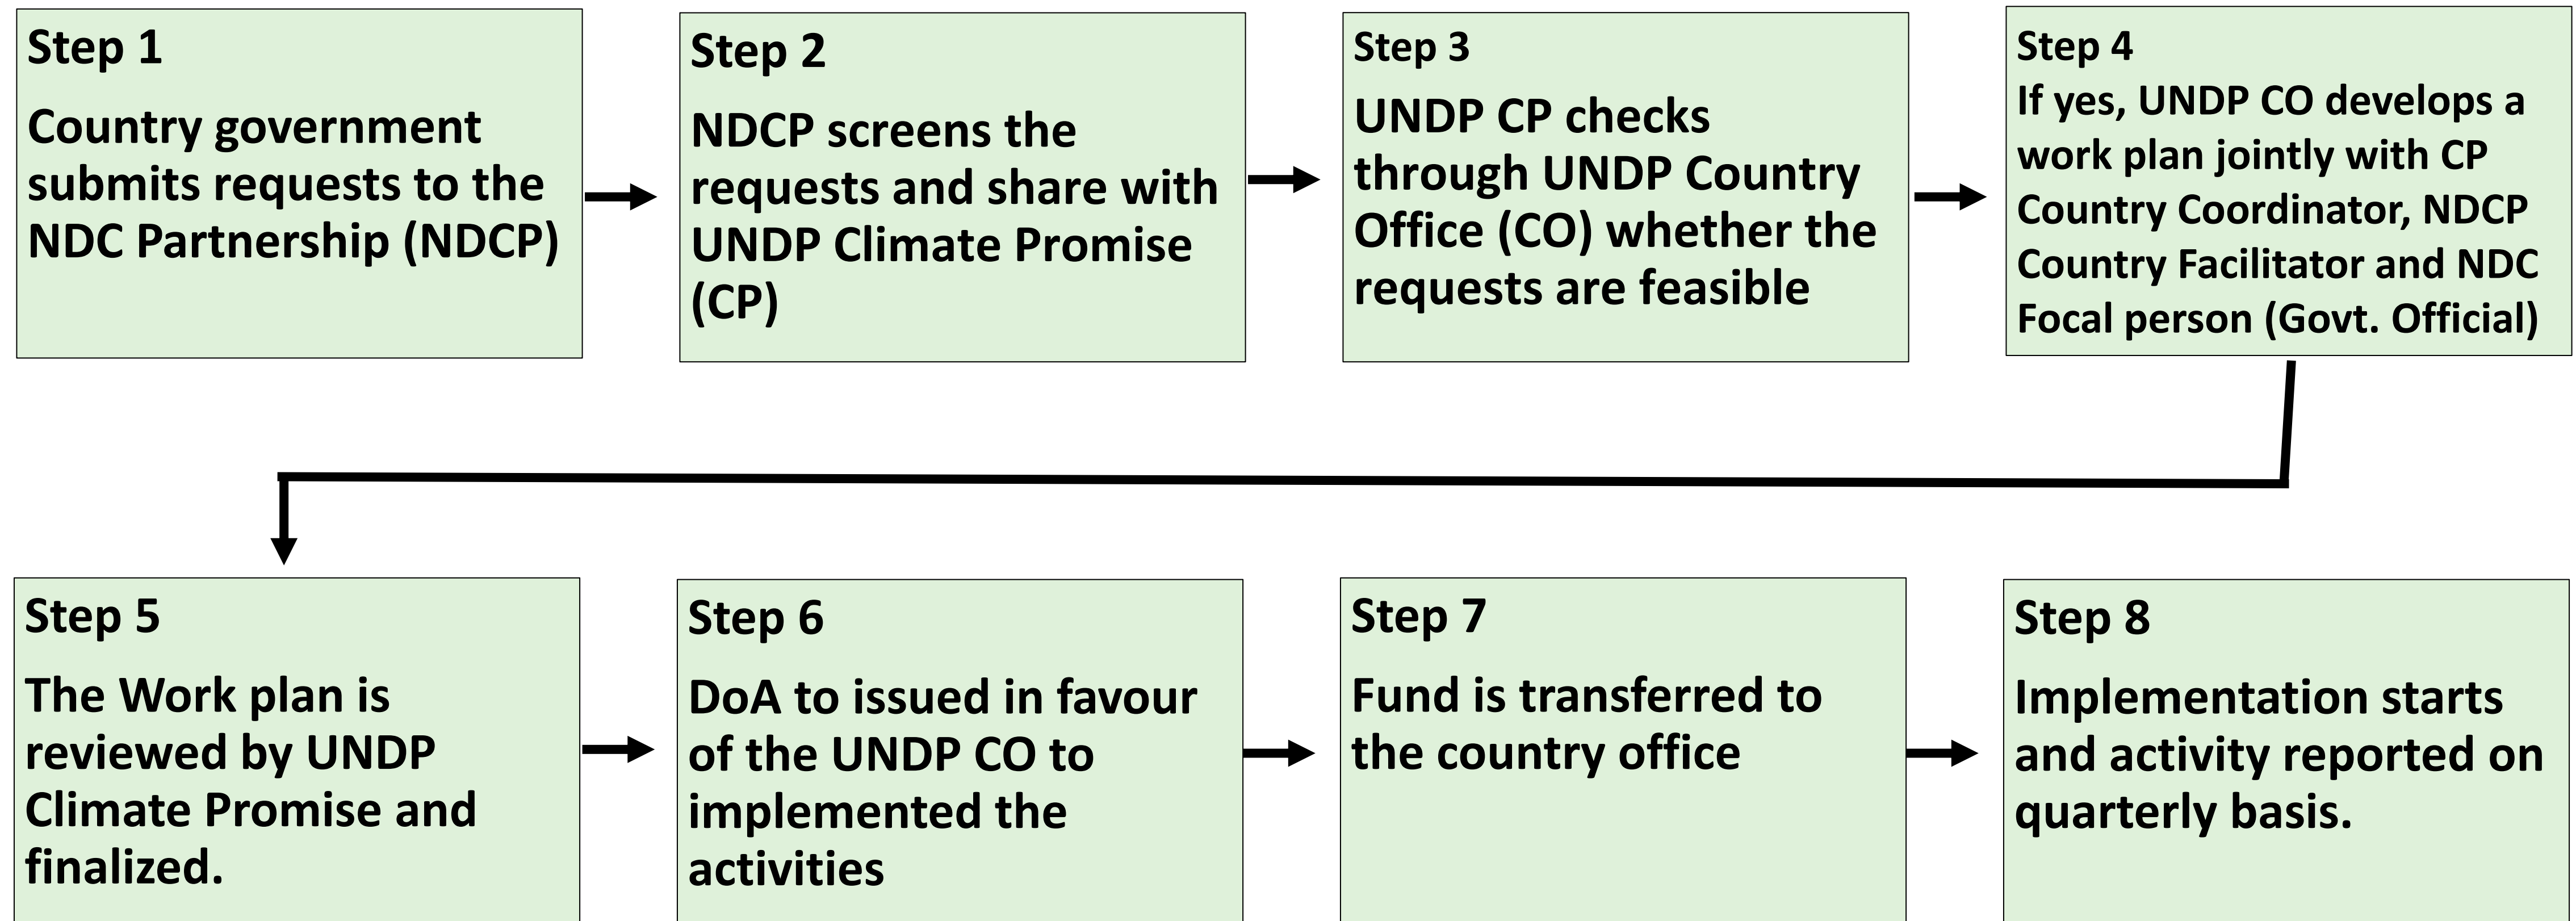

# The Streams of Support

**Stream 3:** Supporting policies and institutional frameworks to kick-start transformation, build resilience and enable country's just-transition to net zero emissions (only countries with an LT-LEDS are eligible)

- *Inclusive coordination and governance*
- *Enabling policies and regulatory frameworks*
- *Capacity building*
- *Resource mobilization*
- *Implementation tracking*

# How to Access the Support (Concised)

# **Tools and Resources Available with UNDP for Developing and Updating LT-LEDS and NDC**

- ✓ **Guideline for LT-LEDS process**
- ✓ **Roster of Experts**
- ✓ **ToRs**
- ✓ **Series of Webinars on LT-LEDS**
