

KCI Case Studies Submissions

KCI 11 Meeting, Accra, Ghana
11-13 September 2024

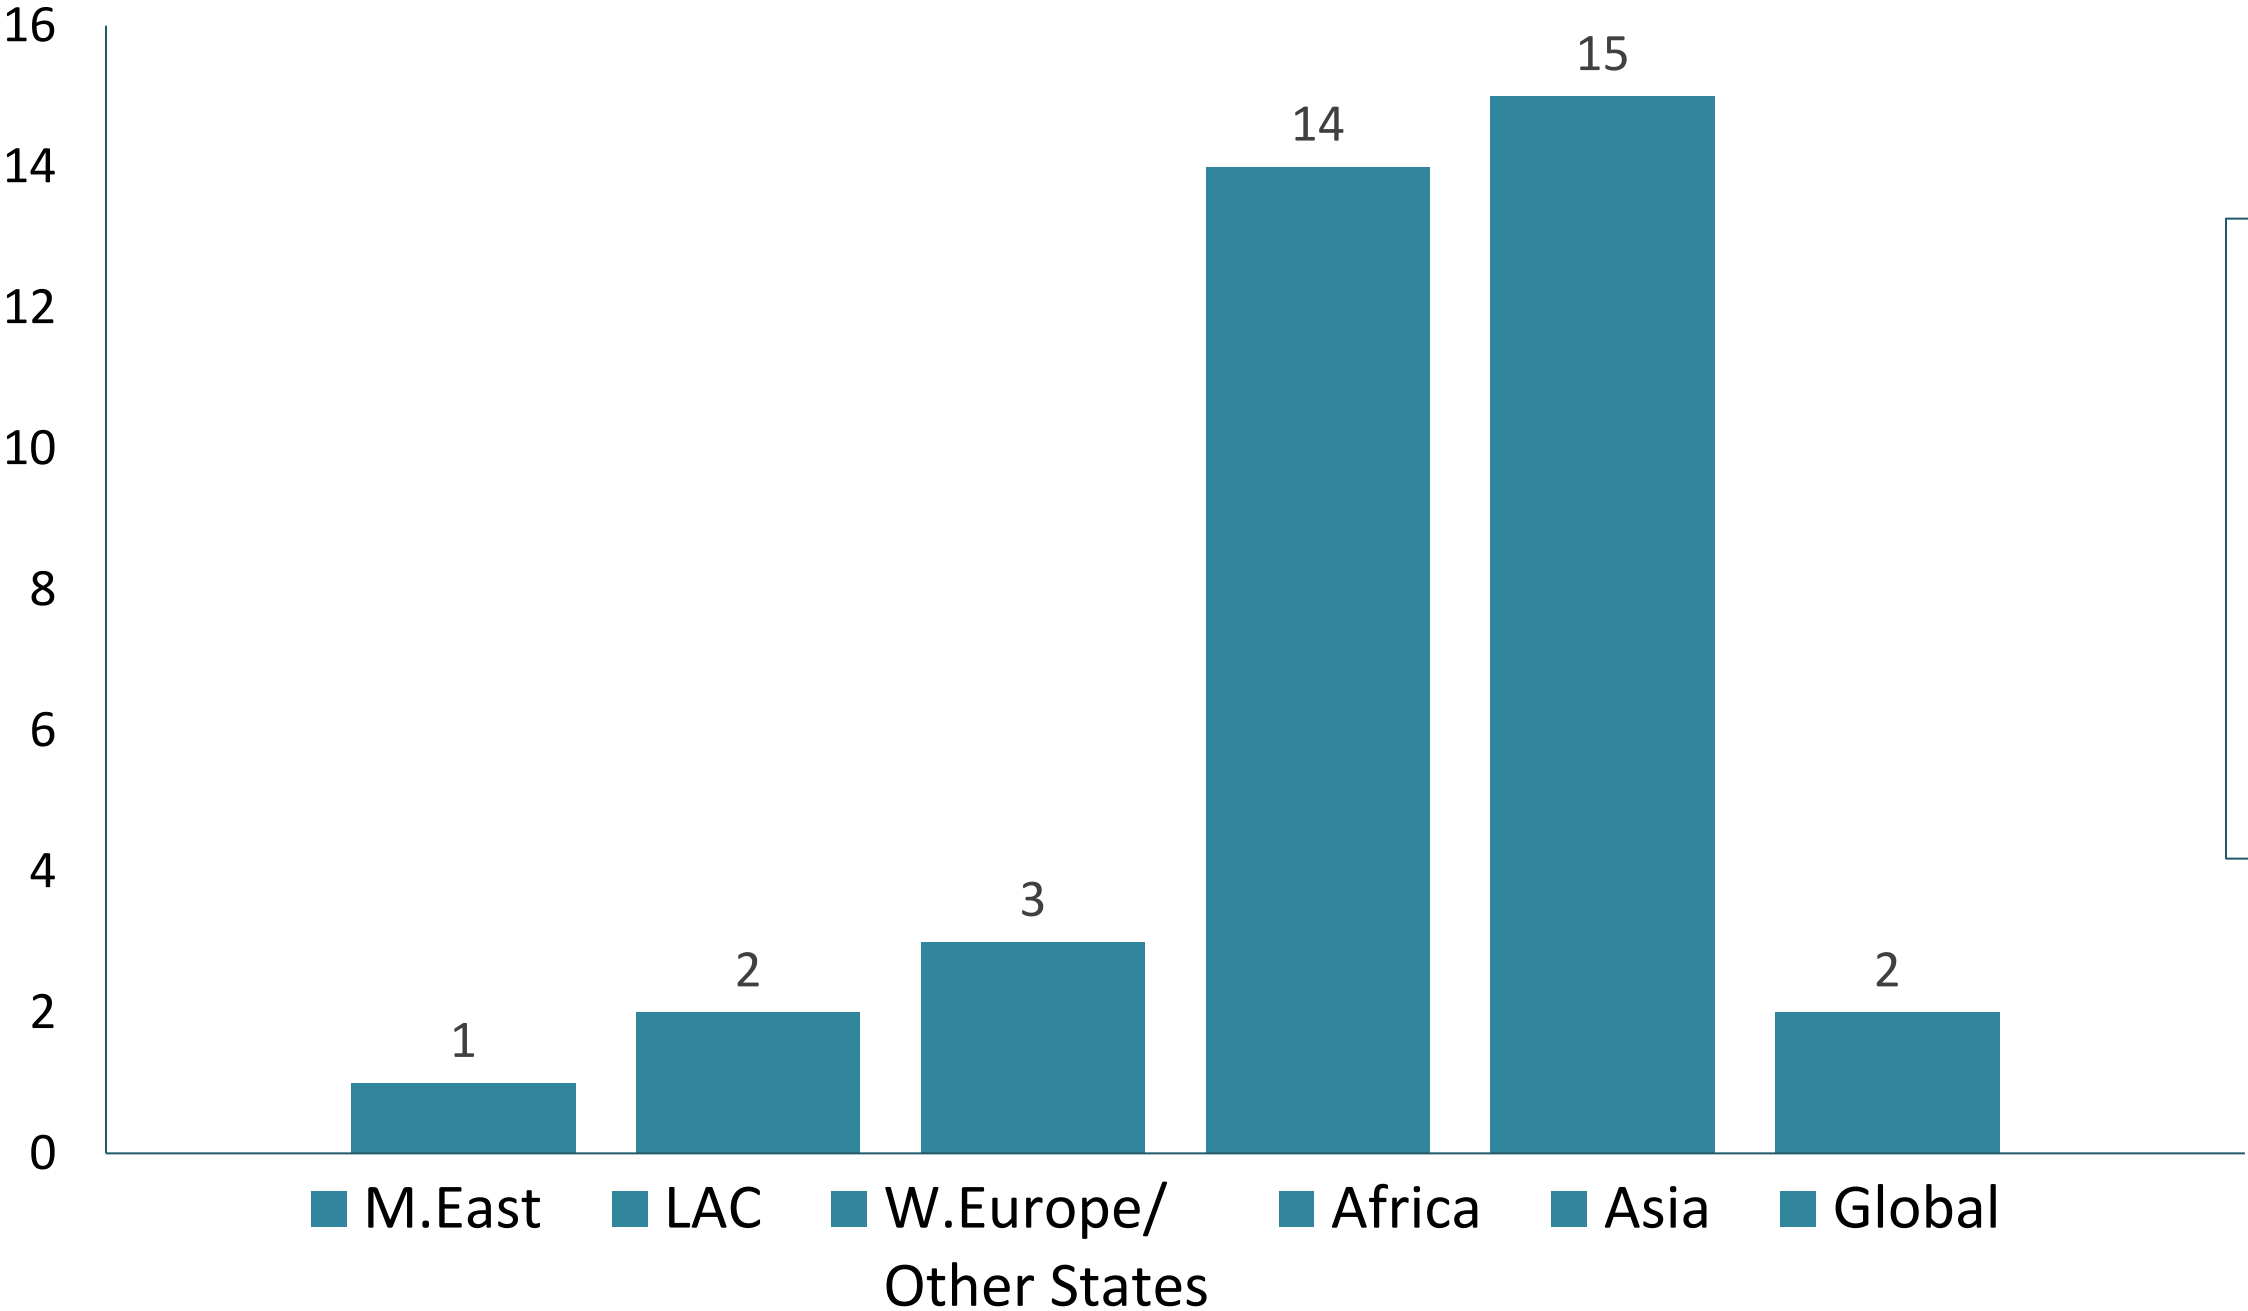

Development of a case study in each of the five United Nations regions in accordance with activity 7 of the workplan (activity 12)

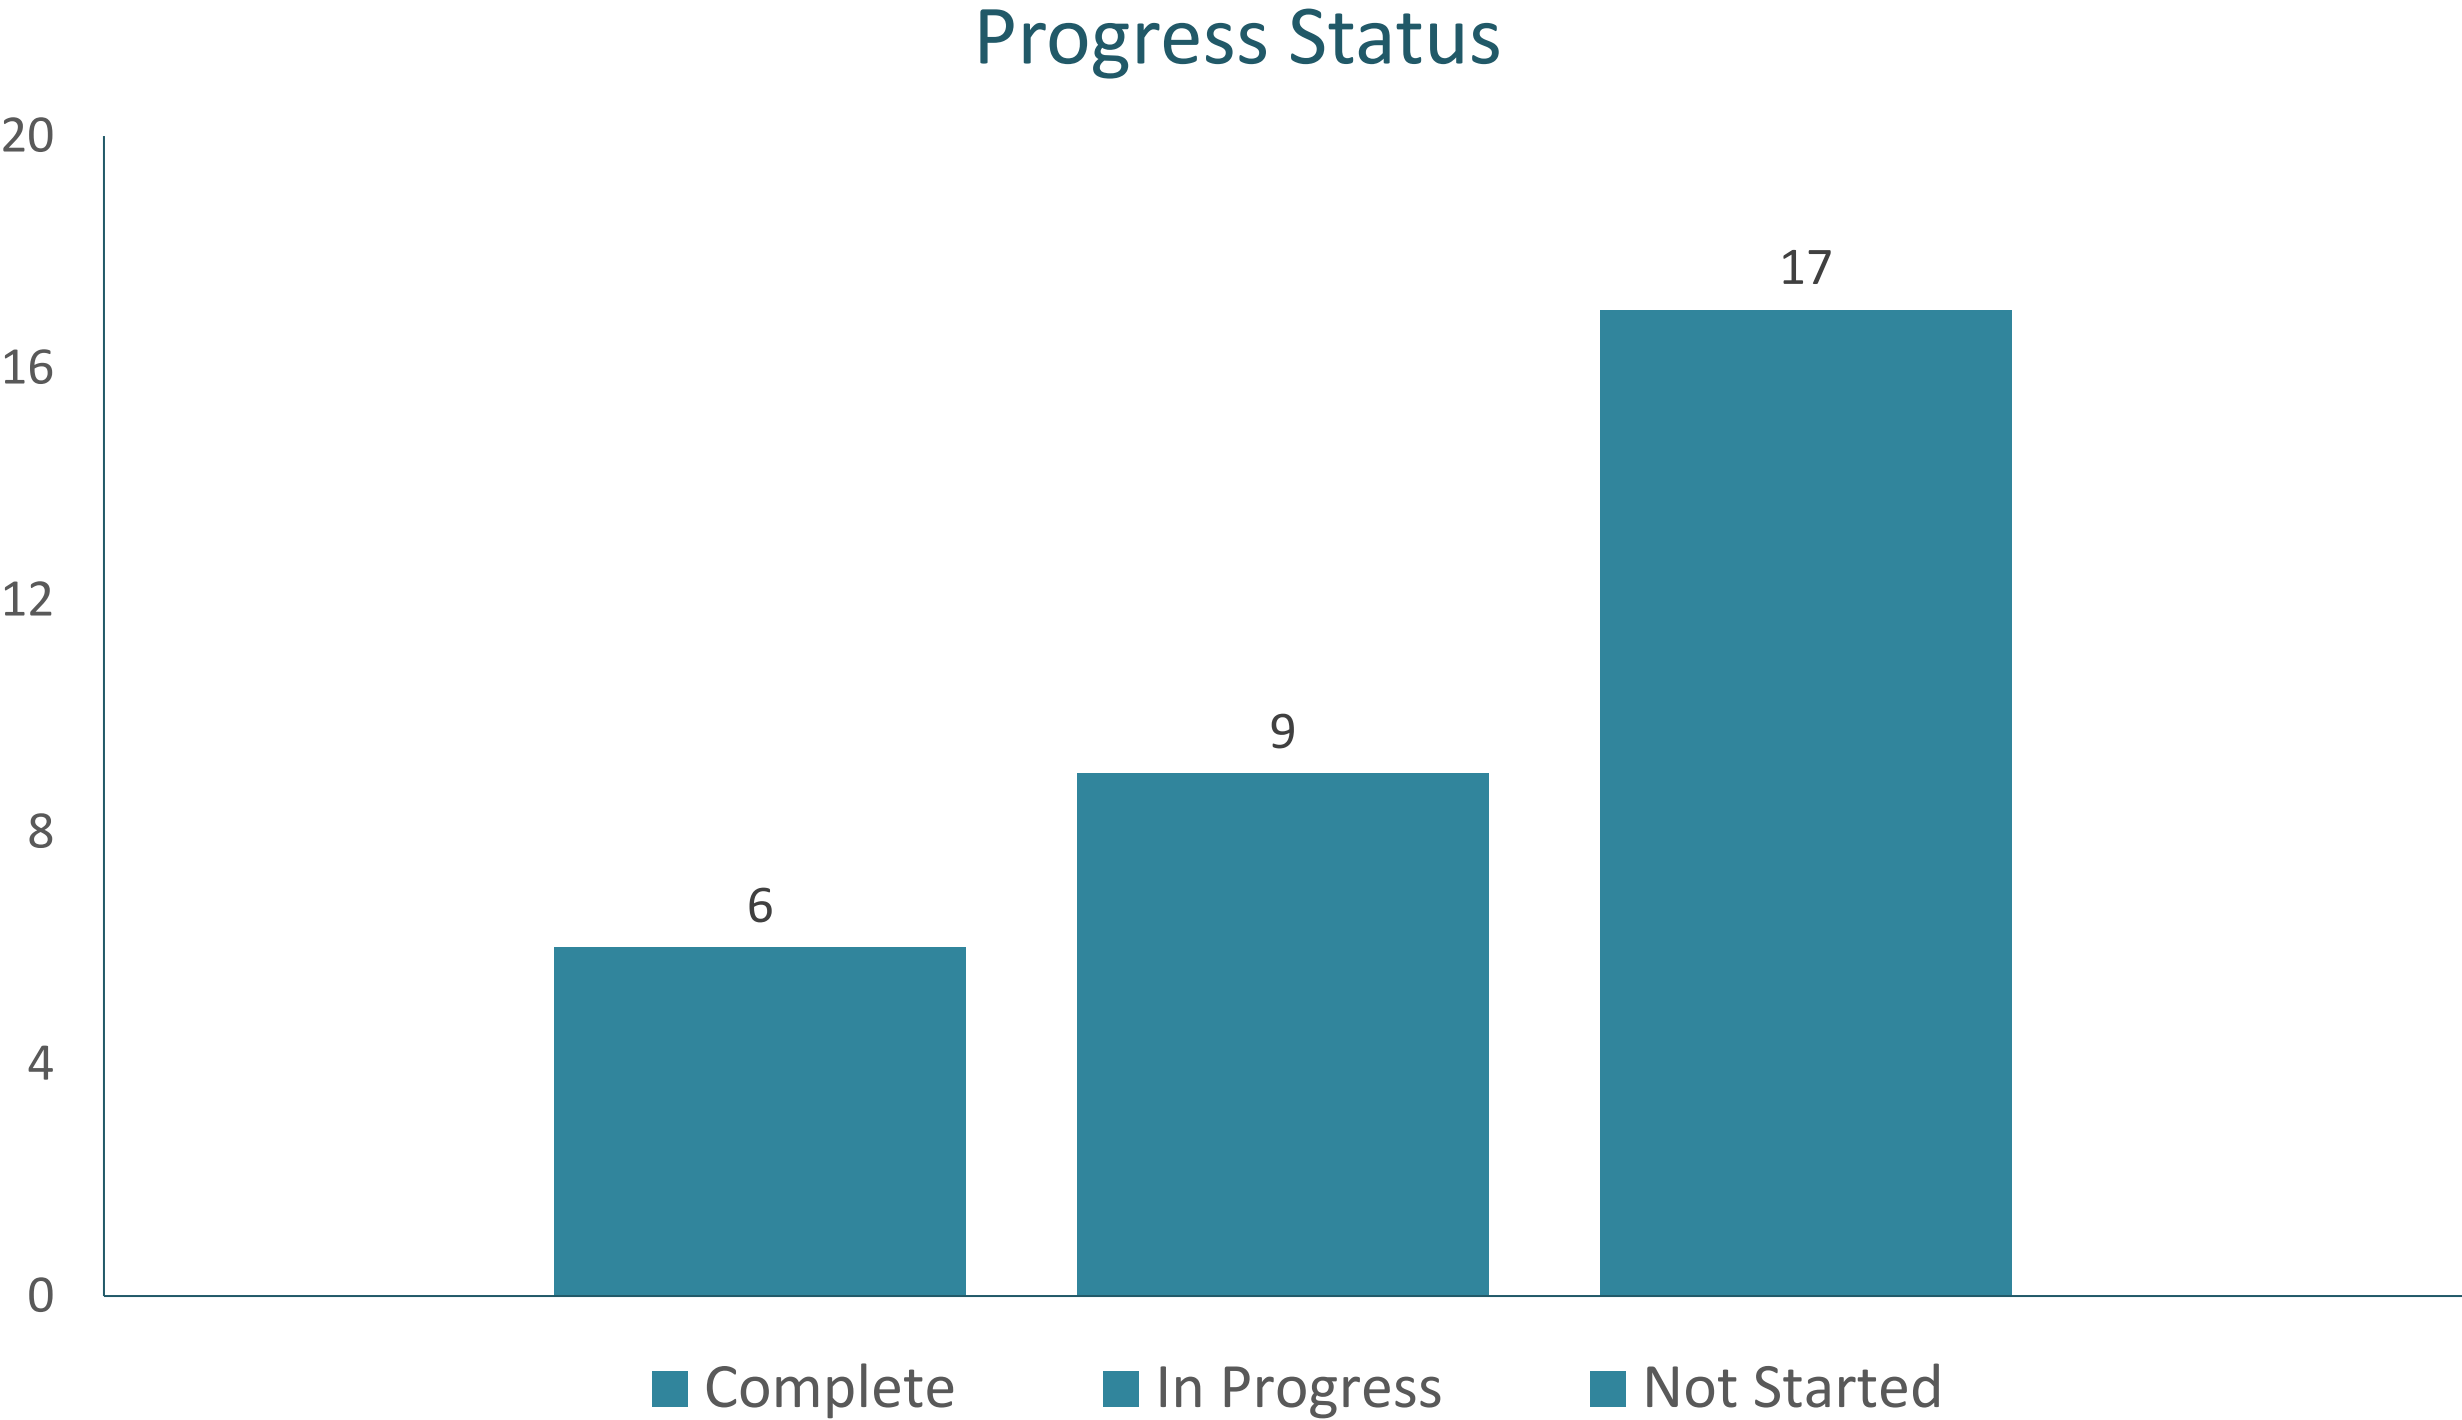

- Remarks**
- Impact assessment submissions are overrepresented
 - Undefined relates to the lack of clarity on the work area the submissions fall in

Regional Analysis

- Remarks**
- The bulk of the submissions cover Africa and Asia
 - Those marked as “Global” were not country-specific
 - Some proposals cover multiple regions

- Remarks
- Most of the submissions are yet to be started

Overview of Submissions

Case Studies Snapshot (I)

Abbreviations

NS: Not Started; **IP:** In Progress; **PC:** Partially Completed; **C:** Completed

	Organization	Title	Brief Description	Region (Country)	Progress	Willing to Financially Contribute
1	African Climate Policy Centre of UNECA	Understanding the implications of the energy transition on African economies: Economy and Jobs	The ACF-UNECA case study, considered the implication of the energy transition on a wide range of aspects which included the economy, trade, mitigation, finance and jobs.	Africa (Botswana, Eswatini, Equatorial Guinea, DRC, and Ghana)	IP or PC	No
2	European Roundtable on Climate Change and Sustainable Transition (ERCST)	The impacts and incentives inherent in destination-based carbon pricing: An Indian case study	The study will assess the impacts/incentives involved for a large complex developing economy (India) when faced with destination-based carbon pricing from key developed country markets, under four potential scenarios	Asia-Pacific (India)	NS	Yes
3	University of Hohenheim	Assessing the impacts of climate response measures for planning effective and just transition pathways: case studies for Ghana and Indonesia	A range of domestic response measures are outlined in the NDC documents, including scaling up renewable energy and improving energy efficiency. The impact of a selection of domestic response measures will be examined in this study.	Africa/Asia-Pacific (Ghana, Indonesia)	NS	No
4	European Commission	The impact of green transition policies in employment growth: Sharing information on European policies and respective impacts, including regional and global employment data and policies, sharing good practices, and providing possible policy recommendations.	The study will examine the positive employment impact of the climate policies implemented by the EU and the forecasted impact of the policies put forward to implement the European Climate Law	Europe	IP or PC	No
5	UNCTAD	A European Union Carbon Border Adjustment Mechanism: an update on the implications for Developing Countries	The study will assess the potential effects of the European Union CBAM on international trade, CO2 emissions, and	Global	C	No

Case Studies Snapshot (II)

	Organization	Title	Brief Description	Region (Country)	Progress	Willing to Financially Contribute
6	ITA Committee on Underground Spaces	Assessing the Impact of Climate Policy on Economic Diversification and Workforce Transition in Southeast Asia	The proposed case study aims to explore the multifaceted impacts of climate policy implementation on economic diversification and the just transition of the workforce in Southeast Asia	Asia-Pacific (Vietnam, Thailand, & Singapore)	IP or PC	No
7	ICAT (in collaboration with WRI and Federal Ministry of Labour and Employment of Nigeria)	"Tracking progress towards a Just and Gender Inclusive Transition (JGIT): developing a JGIT MRV Framework in Nigeria"	The study will examine the process of developing and validating the national Just and Gender Inclusive Transition (JGIT) Monitoring, Reporting and Verification (MRV) Framework in the context of the ICAT project in Nigeria	Africa (Nigeria)	IP or PC	Yes
8	ICAT (in collaboration with WRI and South Africa's Presidential Climate Commission)	"A monitoring, evaluation and learning framework to guide justice-oriented, socially owned transition tracking in South Africa"	The study will examine the process of developing the national Just Transition Monitoring, Evaluation, and Learning Framework in the context of the ICAT project in South Africa.	Africa (South Africa)	NS	Yes
9	C40 Cities	Just Transition in Waste Management: Empowering Informal Workers in Accra, Ghana	The study will explore how to plan and deliver a just transition for informal workers in the waste management sector based on the successful experience of Accra	Africa (Accra, Ghana)	C	Yes
10	Environment and Social Development Organization-ESDO	"Zero-Waste Lifestyle Practice in Rural Bangladesh Could Contribute to Methane Emission Reduction"	The case study will examines how adopting a zero-waste lifestyle in rural Bangladesh can significantly contribute to reducing methane emissions; investigates co-benefits of adopting zero-waste lifestyles	Asia-Pacific (Bangladesh)	NS	No

Case Studies Snapshot (III)

United Nations
Climate Change

	Organization	Title	Brief Description	Region (Country)	Progress	Willing to Financially Contribute
11	Climate Strategies	Financing green growth: Assessing the impacts of Brazil's largest financial mechanism (Plano Safra) on just transitions in the agricultural sector	<p>The study objectives are</p> <ul style="list-style-type: none"> (i) Conduct an impact assessment on the environmental, economic, social and employment impacts of Plano Safra. (ii) Conduct stakeholder engagements and interviews with key actors and policymakers to understand barriers to implementation, key successes, and intersections with Brazil's wider climate policy ecosystem. (iii) Collaborate with Climate Strategies' international network of researchers and policymakers to understand the linkages with broader South American climate pacts (e.g., Escazu Agreement). (iv) Summarise the lessons learned for international policymakers, considering replicability in other sectors, countries, and regions. 	Latin America & the Caribbean (Brazil)	NS	No
12	GIZ	Applying Climate Economy Models to Support Economic Diversification and Job-Rich Resilient Growth – A case study from Nigeria	<p>The CGE model will help in understanding the macroeconomic impacts of climate change and the benefits of various adaptation and mitigation strategies;</p> <p>The project in Nigeria also aims to identify new and resilient economic activities and identifying investment initiatives, especially in the blue economy, agriculture and infrastructure sectors while prioritizing socioeconomic factors such as job creation</p>	Africa (Nigeria)	IP or PC	Yes

Case Studies Snapshot (IV)

United Nations
Climate Change

	Organization	Title	Brief Description	Region (Country)	Progress	Willing to Financially Contribute
13	GIZ	Linking Education Policies and Nationally Determined Contributions: Successful Case Studies and Recommendations	The study will explore and evaluate how each country links education and skills development to its NDCs, the obstacles they have overcome in this process and the factors that facilitated the integration of these two fields; the study will assess how they have connected the skills demand arising from the NDCs to their education policies; Lastly, the study will evaluate to the extent possible, the impact of linking their climate agenda more closely with education policies	Africa (Kenya, Namibia) Latin America (Brazil) Asia-Pacific (Indonesia, Pakistan) Middle East (Jordan)	NS	Yes
14	GIZ (on behalf of BMZ)	'Measuring Just Transition Progress' – Guidelines including country good practice and observatory	the project will a) develop up to 3 concrete 'Measuring Just Transition Progress Frameworks' based on the Just Transition Strategies of selected pilot countries b) extend these country-specific 'Measuring Just Transition Progress Frameworks' c) include new measurement frameworks such as the E's Transitions Performance Index (TPI)	Global	IP or PC	Yes
15	International Organization for Migration	Human mobility and the biofuel sector: key socio-economic outcomes	The study will focus on the impacts of biofuel production on human mobility outcomes- impacts on land displacement (particularly for indigenous populations), socio-economic impacts for migrant workers, and impacts on health and livelihoods	Asia-Pacific (Thailand, Malaysia)	NS	No

Case Studies Snapshot (V)

	Organization	Title	Brief Description	Region (Country)	Progress	Willing to Financially Contribute
16	BAIF Development Research Foundation	Role of solar powered lift irrigation systems in augmenting livelihoods of small holders in eastern states of India	The proposed study aims to assess the transformational effects of clean energy powered de-centralized lift irrigation systems on the livelihoods of small farmers in the selected clusters of Bihar, Jharkhand and Odisha.	Asia-Pacific (India)	NS	No
17	Island Innovation	Solarization of Heads of Pacific Heads of State	The study would look into the benefit and impact of the Solarization of Heads of Pacific Heads of State project which successfully installed solar panels on public buildings across the region; the case study will focus on how the project was executed, the implementation challenges faced, lessons learned, and overall impact that it had on utilities, communities, and future plans for expansion of the project	Asia-Pacific (Pacific countries)	NS	No
18	Asabe Shehu Yarádua Foundation	Evaluating the Socio-Economic and Environmental Impacts of Climate Change in Northern East of Nigeria	Socio-economic impacts of climate change	Africa (Nigeria)	NS	No
19	Kinderenergy	Analyzing the use of standardized approaches to solving food security deficiencies at rural schools as a way of stimulating entrepreneurship, skill development, decent work and quality jobs for underrepresented youth.	Using the provision of baby chicks to improve food security and create jobs through entrepreneurship	Africa (Tanzania & Uganda)	IP or PC	No
20	Gaia éducation UN globale informations SDGS département Bruxelles	The (Carbur program innovation) urban planning approach in the urban émission innovent technologie green gaz éradication.	The use of nanotechnology methods for climate change resilience	African (African countries)	N/A	Yes
21	Prime Minister's Office, Executive Secretariat of the National Environment Council for Sustainable Development, UNFCCC National Focal Point	Evaluation du Plan d'Actions National des Energies Renouvelables [Evaluation of the National Energy Action Plan Renewable]	Potential contribution of the implementation of actions by PANER on GHG emissions	Africa (Niger)	C	No

Case Studies Snapshot (VI)

	Organization	Title	Brief Description	Region (Country)	Progress	Willing to Financially Contribute
22	Plant Resources Center (PRC)- Vietnam Academy of Agricultural Sciences (VAAS)	Develop sustainable Vietnam coastal eco-economy through nature-based solution and their digitalized value chain development	The study will investigate the benefits of [coastal areas in terms of divers in ecosystem, landscapes, nature, biological resources, culture, people and tourism, service products and the disadvantages of infrastructure, facility, human resources, mechanism, policy to develop Vietnam coastal socioeconomic and environmental ecosystems sustainability]	Asia-Pacific (Vietnam)	NS	No
23	Reseau africain pour l education au developement durable	Les phénomènes climatiques extrêmes et leurs conséquences [Consequences of extreme climatic phenomena]	Impacts of extreme weather events	Africa (Cameroon)	NS	No
24	Climate Solutions International	THE ROLE OF MASCULINITY AND FEMINITY CONSTRUCTS IN SHAPING PUBLIC DISCOURSE ON CLIMATE CHANGE DENIAL AND ACCEPTANCE	Study on the differences in the perception of climate change issues through a gender lens	Global	C	No
25	International Institute for Applied system analysis (IIASA)	Analysing the nexus between Agricultural knowledge management and climate change adaptation, the disproportional impact of climate change on rural women in the South and North	Impacts of climate change on women in rural Ethiopia and Austria	Africa (Ethiopia) Europe (Austria)	NS	No
26	Mastercube	Climate Change Mitigation Adaptation, L&D Support: SIDs, LDCs- Kiribati	[To make a Mid-term Review for speedy action of KJIP]	Asia-Pacific (Kiribati)	NS	No
27	BAIF Development Research Foundation	Integrated tree-based farming system for economic diversification & resilience building of small-holder farmers	The socio-economic and environmental impacts of "Wadi" - a tree-based integrated farming system (Agri-Horticulture-Forestry system), an innovative approach evolved and upscaled by BAIF Development Research Foundation in India	Asia-Pacific (India)	NS	No
28	BAIF Development Research Foundation	Replicable model for climate proofing and reducing vulnerabilities due to climate change in different agro-climatic zones of Maharashtra, India	This paper will highlight the effective climate interventions that were used to reduce vulnerabilities, along with the methodologies behind them <u>in order to</u> build resilience among different communities in Maharashtra; and replicability of climate interventions	Asia-Pacific (India)	C	No
