Break-out group: Greece

Plenary feedback

2023 Joint Meeting of Lead Reviewers
10th BR/NC Lead Reviewers Meeting
13, 15-16 February 2023

United Nations
Climate Change Secretariat

Facilitates work of reviewers (esp. help to orient and guide new reviewers) e.g., checklist pulls together important references for work in one place, i.e., reporting requirements, RPG guidance, previous findings, template for drafting findings

Ensures consistency across reviews

Feedback on review approaches ("Ανατροφοδότηση")

Review approach
- Clarify that "ERT notes and questions" suggestions are not exhaustive but indicative of likely issues, ERT still needs to read report/tables
- Risk of prejudging outcomes
- Consider if sufficient for in-country reviews

Usability/Accessibility
- Evaluate and address VTR application security compatibility issues (issues editing online, but also with downloaded file)
- Checklist, some basic restructuring could facilitate usability, i.e., moving RPG content to its own column, and moving expert assessment to follow recommendation/encouragement text column
- Report/checklist templates
  - Simple: Option to link or bypass instructions for more experienced reviewers, consider link for instructions
  - *More advanced: Report editing dashboard to facilitate work across document*
- Encourage experts to discuss potential questions with rest of ERT and RO to compose/formulate appropriately

- PAMs – nice but not necessary, include comparison table of previously reported PAMs and those in current submission
