

COMPLIANCE COMMITTEE

CC/ERT/ASR/2018/13 19 August 2018

Status report of the annual inventory of Latvia

Note by the secretariat

The status report of the annual inventory of Latvia was published on 4 June 2018. For purposes of rule 10, paragraph 2, of the Rules of procedure of the Compliance Committee (annex to decision 4/CMP.2, as amended by decisions 4/CMP.4 and 8/CMP.9), the report is considered received by the secretariat on the same date. This report, FCCC/ASR/2018/LVA, contained in the annex to this note, is being forwarded to the Compliance Committee in accordance with section VI, paragraph 3, of the annex to decision 27/CMP.1 and paragraph 49 of the annex to decision 22/CMP.1.

Framework Convention on Climate Change

Distr.: General 4 June 2018

English only

Status report on the annual inventory of Latvia

- 1. This status report was prepared by the secretariat pursuant to the annex to decision 22/CMP.1 in conjunction with decision 4/CMP.11, as part of the initial check of Latvia's 2018 annual inventory, submitted in accordance with decisions 24/CP.19 and 15/CMP.1 in conjunction with decisions 3/CMP.11 and 2/CMP.8. It reflects the content of the 2018 annual inventory as submitted by the Party (dates of submission are provided in the tables on pages 2 and 3).
- 2. In this report, the following acronyms are used:

CRF: common reporting format

GHG: greenhouse gas

HWP: harvested wood products

IPPU: industrial processes and product use KP-LULUCF: land use, land-use change and forestry activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol

LULUCF: land use, land-use change and

forestry

NIR: national inventory report

SBDT: sectoral background data tables

SEF: standard electronic format

Gases

CO₂: carbon dioxide CH₄: methane N₂O: nitrous oxide HFCs: hydrofluorocarbons PFCs: perfluorocarbons

MIX: unspecified mix of HFCs and PFCs

SF₆: sulfur hexafluoride NF₃: nitrogen trifluoride NOx: nitrogen oxides CO: carbon monoxide

NMVOCs: non-methane volatile organic

compounds SO₂: sulfur dioxide

Kyoto Protocol units

AAU: assigned amount unit CER: certified emission reduction ERU: emission reduction unit ICER: long-term certified emission

reduction

RMU: removal unit

tCER: temporary certified emission

reduction

Notation keys

C: confidential IE: included elsewhere NA: not applicable NE: not estimated NO: not occurring

^a Parties are required to include in their annual submission information on anthropogenic GHG emissions by sources and removals by sinks from LULUCF activities under Article 3, paragraph 3, of the Kyoto Protocol, and, if any, elected activities under Article 3, paragraph 4, in accordance with decision 2/CMP.8, annex II, paragraphs 1–5.

^b Parties are required to report anthropogenic GHG emissions by sources and removals by sinks from LULUCF activities under Article 3, paragraph 3, of the Kyoto Protocol, forest management and, if any, elected activities under Article 3, paragraph 4. Parties may also elect to report these tables for the base year or 1990.

^c Parties are required to include in their annual submission information on ERUs, CERs, tCERs, lCERs, AAUs and RMUs, in accordance with decision 15/CMP.1, annex, chapter I.E, in conjunction with annex II to decision 3/CMP.11,.

^d As required by annex II to decision 3/CMP.11.

^e The requirements for Parties to report on changes in the national system in accordance with Article 5, paragraph 1, of the Kyoto Protocol, changes in the national registry, and the minimization of adverse impacts in accordance with Article 3, paragraph 14, of the Kyoto Protocol, are set out in decision 15/CMP.1, annex, chapters I.F, I.G and I.H respectively, in conjunction with annex II to decision 3/CMP.11.

under decision	Informa account	ation on carbon pools (above-ground/below-ground biomass, litter, dead wood and soil organic carbon) that are not ged for.	√					
irements	When a Party applies the provisions for natural disturbances, information demonstrating that these emissions in any single year exceed the background level(s), including a margin, where needed. For this purpose, the Party shall include information showing:							
Reporting requirements		That all lands subject to exclusion due to natural disturbances are identified	√	The Party does not apply the provision for natural disturbances				
Repo	1	How annual emissions resulting from natural disturbances and the subsequent removals are estimated and excluded from the accounting	√	The Party does not apply the provision for natural disturbances				
	1	That no land-use change has occurred on lands for which the provisions in decision 2/CMP.7, annex, paragraph 33, are applied	√	The Party does not apply the provision for natural disturbances				
		That events and circumstances were beyond the control of the Party	✓	The Party does not apply the provision for natural disturbances				

PART IV Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol (continued)					
	The efforts taken to rehabilitate the land for which the provisions contained in decision 2/CMP.7, annex, paragraph 33, are applied	√	The Party does not apply the provision for natural disturbances		
	That emissions associated with salvage logging were not excluded from the accounting	√	The Party does not apply the provision for natural disturbances		
	ecounted for by instantaneous oxidation, information on GHG emissions/removals resulting from changes in the HWP pool ed for in accordance with decision 2/CMP.7, including:				
	Activity data for the HWP categories used for estimating the pool removed from domestic forests, for domestic consumption and for export	√			
	Half-lives used in estimating emissions/removals for the HWP categories used	✓			
	Whether emissions from HWP originating from forests prior to the start of the second commitment period have been included in the accounting, if the forest management reference level is based on a projection	√			
	How emissions from the HWP pool accounted for in the first commitment period on the basis of instantaneous oxidation have been excluded from the accounting for the second commitment period	√			
	How HWP resulting from deforestation has been accounted on the basis of instantaneous oxidation	✓			
	How CO2 emissions from HWP in solid waste disposal sites and from wood harvested for energy purposes have been accounted on the basis of instantaneous oxidation	√			
	How emissions/removals from changes in the HWP pool accounted for do not include imported HWP	✓			
	Information on anthropogenic GHG emissions from LULUCF activities under Article 3, paragraph 3, and Article 3, paragraph 4, factoring out removals from:				
	Elevated CO ₂ concentrations above pre-industrial levels	✓			
	Indirect nitrogen deposition	✓			
	The dynamic effects of age structure resulting from activities prior to 1 January 1990	✓			
Specific	Specific information to be reported for activities under Article 3, paragraph. 3:				
	Activities that began on or after 1 January 1990 and before 31 December of the last year of the commitment period, and are directly human-induced		Information required in paragraph 4(a) of annex II to decision 2/CMP.8 could not be identified in the submission		

PART IV					
	Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol (continued)				
		Provided	Observation		
	How harvesting or forest disturbance that is followed by the re-establishment of forest is distinguished from deforestation	✓			
Specific	information to be reported for activities under Article 3, paragraph 4:				
	Activities that have occurred since 1 January 1990 and are human induced	✓			
	Cropland management, grazing land management, revegetation, wetland drainage and rewetting: emissions/removals reported for each year of the commitment period and for the base year for each of the elected activities on the geographical locations reported	√	The Party do not elect cropland management, grazing land management, revegetation or wetland drainage and rewetting		
	Emissions/removals from activities under Article 3, paragraph 4, are not accounted for under activities under Article 3, paragraph 3	√			
	Information on how emissions arising from the conversion of natural forests to planted forests are accounted for	✓			
	Methodological consistency between the reference level and reporting for forest management	✓			
	Technical corrections made pursuant to decision 2/CMP.7, annex, paragraph 14	✓			
	Forest management: if emissions/removals from the harvest and conversion of forest plantations to non-forest land were included, information on how requirements set out in decision 2/CMP.7, annex, paragraphs 37–39 were met, including:				
	The identification of all lands and associated carbon pools subject to decision 2/CMP.7, annex, paragraph 37, including the georeferenced location and year of conversion	√	In chapter 11.1.4 of the NIR the Party reports they do not apply the provision of carbon equivalent forest conversion		
	A demonstration that the forest plantation was first established through direct human-induced planting and/or seeding of non-forest land before 1 January 1990, and, if the forest plantation was re-established, that this last occurred on forest land through direct human-induced planting and/or seeding after 1 January 1960	√	In chapter 11.1.4 of the NIR the Party reports they do not apply the provision of carbon equivalent forest conversion		
	A demonstration that a new forest of at least equivalent area to the harvested forest plantation is established through direct human-induced planting and/or seeding of non-forested land that did not contain forest on 31 December 1989	✓	In chapter 11.1.4 of the NIR the Party reports they do not apply the provision of carbon equivalent forest conversion		
	A demonstration that this newly established forest will reach at least the equivalent carbon stock that was contained in the harvested forest plantation at the time of harvest, within the normal harvesting cycle of the harvested forest plantation, and, if not, a debit would be generated under Article 3, paragraph 4	✓	In chapter 11.1.4 of the NIR the Party reports they do not apply the provision of carbon equivalent forest conversion
