

Inputs received from the SCF members on the potential topic of the 2019 SCF Forum

v. 9 September 2018 at 18:00

Ms. Sonja Djukic

- Matters related to Article 2.1(c) of the Paris Agreement – e.g. reorientation of finance flows consistent with pathway towards low greenhouse gas emissions and climate-resilient development;
- This topic is associated with the bridge-building approach for the Forum i.e. to offer a space to bring together Convention and non-Convention stakeholders to deliberate on climate finance issues;
- This is also an opportunity to reach out to a wide range of stakeholders and move forward some of the outcomes of the 2018 Forum.

Ms. Gemma O'Reilly

- Climate finance and capacity; building: domestic human and institutional resource for effective climate action;
- Perhaps the PCCB could assist in that Forum.

Mr. Pieter Terpstra

- Gender and climate finance;
 - One of the reasons to organize the Forum around this theme is to fulfil the request from the COP to organize a gender dialogue in 2019 (Priority area D.1 of the Gender Action Plan adopted at COP 23).
-
