

1. It is difficult to define success – unless it is possible to identify concrete outcome at ground level. Mere holding of deliberations is not success. It is only awareness campaign. Hence for next five years field level goal achievements in under-developed areas and countries need to be targeted and that need to be measured.
2. Their main task could be to get agriculture prioritized in IND of countries which have not mentioned that in their INDs. They need to meet country level – visit countries which have acute distress.

With best wishes,

Dr. KIRIT N SHELAT, IAS (RTD)

Executive Chairman

National Council for Climate Change Sustainable Development and Public Leadership (NCCSD)
