- Coastal Marine Resources
- Ecosystems, Biodiversity and forests

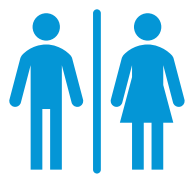

Means of Implementation

Action for Climate Empowerment

Cross-elements:
Gender
Youth
Role of Cities
Human rights
Just Transition

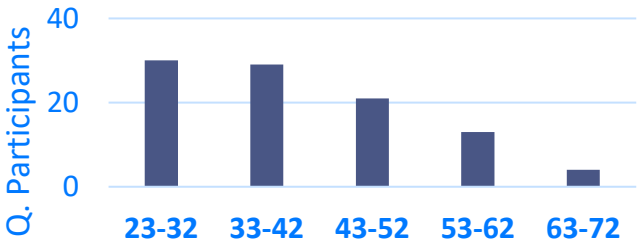

Governance

NDS/SDGs

39 % 61 %

Participants per age range

The consultation process on Action for Climate Empowerment established 23 goals, for the six elements of ACE, with a global goal for: “Developing and implementing an Action for Climate Empowerment National Strategy.”

OBJECTIVE

1

PROMOTE the development of **policies, plans and regulations** for the sectoral implementation of the NDC.

Food Safety

Climate-Smart livestock management is promoted in the Dominican Republic to mitigate climate change and restore degraded lands.

IMPLEMENTING GOALS

MINISTRY OF AGRICULTURE

- Program to increase the productivity of DR dairy herds (best grass options promotion and improvement) with climatically adaptable species.
- Arborization program, live fences and spontaneous regeneration with native species.

BID
PNUD
BID

Indicators:

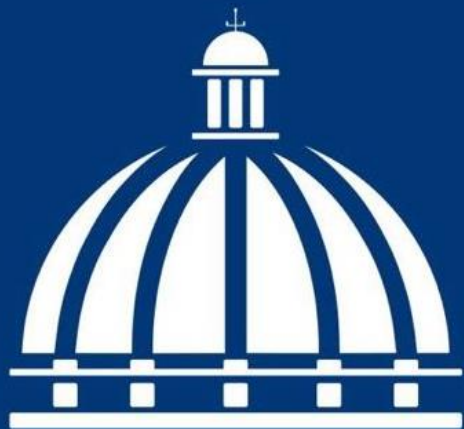

Percentage of extension, awareness and technical assistance program **with the incorporation of a gender responsive and inclusive approach** to milk and meat producers (MEGALECHE) achieved.

Number of hectares in properties **of men and women** intervened.

Number of beneficiary producers, **disaggregated by age and sex** in intervened farms

Number of heads of cattle adapted to changes in climate.
