

DEAR YOUTH LEADERS...

ARE YOU BEING REPRESENTED?

Designing pathways that **shape youth leaders** in climate action through **education and skill development** to confidently engage in climate policy spaces.

THE ROLE OF YOUTH

The climate policies of today will impact young people for decades to come. While young people are recognized as climate leaders, 94% don't feel supported in making policy changes within multilateral forums.

Key Challenges

Absence of organized, informed, funded youth presence

Lack of systemic representation globally and locally

Misinformation and a lack of centralized databases

Key Solutions

Multilingual skills-building for engagement in climate policy-making

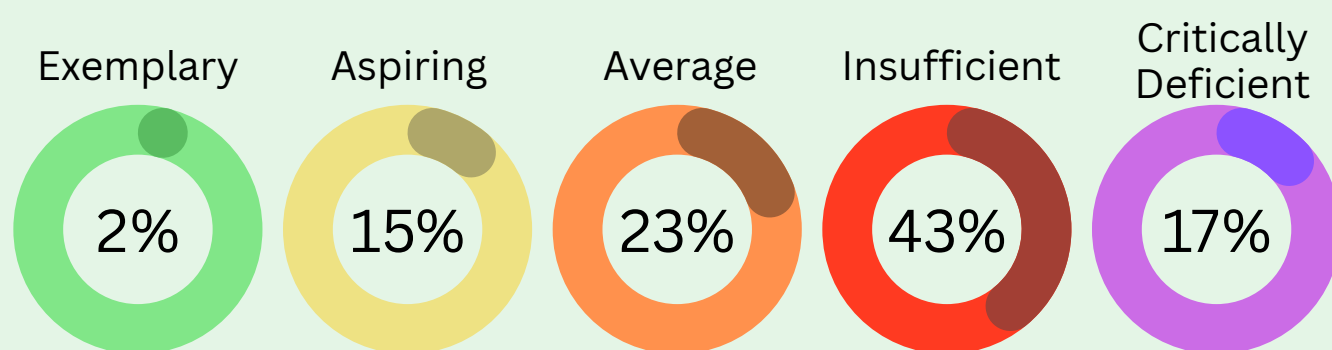

Intentional, funded, and coordinated inclusion of youth perspectives

Data on gender and intergenerational justice in climate action
