

# 2050 Pathways Platform in brief

## Key facts

- Government and multi-stakeholder initiative **launched at COP22** gathering countries with interest on long-term strategies and ambition
- Hosted by the **European Climate Foundation**
- Funded by **philanthropy and public funds**
- **36 member countries**, but working with many more non-member countries to support LTS
  - Members in the region include: Argentina, Brazil, Chile, Colombia, Costa Rica, Honduras, Jamaica, Mexico, Peru
- Bringing together a **network of donors, international and national think tanks, and climate policy experts** on long term planning
- **Granting** governments, local analytical organizations, local stakeholders, and global think-tanks

# Examples of our work in the region

# Areas of support

## CAPACITY BUILDING

The Platform provides pro bono advisory to countries on key dimensions of developing an LTS, including building capacity through targeted training sessions

## KNOWLEDGE & ADVISORY

The Platform serves as a collective problem-solving space, facilitating exchange of knowledge, experiences and best practice around LTS development

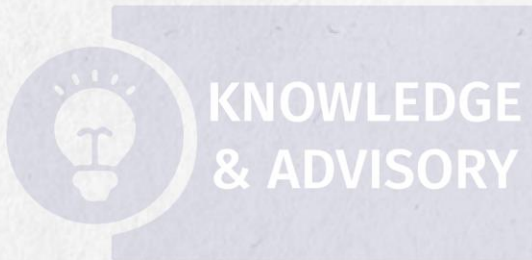

## FINANCIAL SUPPORT

The Platform can financially support through grants the elaboration of LTS, or facilitate connections between countries, development banks and bilateral donors

# Capacity building

- Conduct training and workshops with government officials and key stakeholders to increase understanding of the main elements and approaches to developing an LTS
- Commission global knowledge products to address needs and questions raised by countries in relation to their LTS
- Support technical teams in charge of LTS elaboration to share best practice and lessons from other countries

# Knowledge and advisory

- Organise annual meetings to bring together governments, donors and other others to discuss different elements of LTS
- Facilitate connections with international experts on long-term planning to address specific country needs
- Provide advice and assistance to governments developing their LTS, including for increasing the reach of their LTS to international audiences, particularly donors

# Financial support

- Bring together relevant donors to fund the successful development and operationalisation of LTS
- Provide when possible financial grants to governments for the development of LTS. The support can be targeted e.g., in-country coordinator and project management, stakeholder consultations, modelling, communications etc.
