# NMA Platform

The NMA Platform is designed to record and exchange information on non-market approaches under Article 6, paragraph 8, of the [Paris Agreement](#). It is established in accordance with [decision 8/CMA.4](#) and enables participating Parties and non-Party stakeholders to identify, develop and implement non-market approaches. The platform includes information on finance, technology and capacity-building support available or provided for these initiatives.

Non-market approaches under Article 6.8 support Parties' climate efforts by promoting mitigation and adaptation ambition. They aim to enhance participation from the public and private sectors, as well as civil society organizations, in implementing [nationally determined contributions](#). They also create opportunities for coordination across different climate instruments and institutional frameworks.

Each non-market approach is identified voluntarily by participating Parties, involves more than one participating Party and does not involve the transfer of mitigation outcomes. Initiatives must support the achievement of host Parties' nationally determined contributions, align with the [eleventh preambular paragraph](#) of the Paris Agreement and minimize any potential negative environmental, economic or social impacts.

For any queries, contact [nma-platform@unfccc.int](mailto:nma-platform@unfccc.int). A user manual for Article 6.8 national focal points is available [here](#).

☐ Reciclo Orgánicos Chile: Accelerating Methane Emissions Reductions in the Waste Sector

📄 Submitting Party: Chile ([host](#))

📄 Participating Parties: Canada

📄 Focus area: Mitigation measures to address climate change and contribute to sustainable development

📄 Sector: Cities, settlements and infrastructure, Energy systems, Health and nutrition, Land, ocean, food and water, Society livelihoods and economies

📄 Support needed: Technology development and transfer, Finance, Capacity-building

📄 Support provided: Technology development and transfer, Finance, Capacity-building

Reciclo Orgánicos Chile was a five-year program dedicated to reducing the emission of short-lived climate pollutants from the solid waste sector, specifically those produced by organic matter in landfills, through the optimization of local waste management processes. It's a key example of the environmental cooperation efforts between the Governments of Canada and Chile. The project focused on three main pillars to support emissions reductions...

☐ Sustainable Business of Adaptation for Resilient Urban future (SUBARU) initiative

📄 Submitting Party: Japan

📄 Participating Parties: Cambodia ([host](#)), Nepal ([host](#)), Philippines ([host](#)), Viet Nam ([host](#))

📄 Focus area: Adaptation, resilience and sustainability

📄 Sector: Cities, settlements and infrastructure

📄 Support needed:

📄 Support provided: Technology development and transfer, Capacity-building

SUBARU initiative aims to promote development of climate resilient cities in the Asia-Pacific region through collaboration between Ministry of Economy, Trade and Industry (METI) Japan and UN-Habitat Regional Office for Asia and Pacific. This initiative will promote the contributions of Japanese private sector to solve adaptation issues in cities across 42 countries in the Asia-Pacific region through formulating public-private projects which (1) focus o...

## NMA Forum

The [NMA Platform](#) discussion forum is a dedicated space for stakeholders involved in implementing Article 6.8 of the Paris Agreement to collaborate and share knowledge. The forum is designed to facilitate discussions on non-market approaches to climate change, where participants can exchange information, experiences and lessons learned. While the content on the forum is publicly viewable, individuals must [register](#) to post. A [user guide](#) is available outlining how to register, create and respond to posts, and navigate discussion threads.

Please note that moderators do not review posts before they go live and are not responsible for the content posted by users. To keep this forum constructive and respectful, we ask all users to follow the [forum guidelines](#). If you see any posts that do not comply, please report them to the moderators. Moderators reserve the right to remove any content that violates the guidelines. For any questions related to the forum, please contact [nma-platform@unfccc.int](mailto:nma-platform@unfccc.int).

Thread	Posts	Last Post	Type
<b>Ask a question</b> Want to ask a question or share an idea but not sure where it fits? Post it here to start a conversation.	1	06/11/2025 Souparna Lahiri	
<b>Opportunities for collaboration</b> Looking to collaborate? Users interested in finding partners or exploring collaboration opportunities on non-market approaches can post details here.	0	-	
<b>Share your non-market approach</b> A space for users to share information about their non-market approaches, including lessons learned, experiences with implementation and any relevant resources.	1	06/11/2025 Souparna Lahiri	
<b>Welcome to the NMA Forum</b> A thread for users to introduce themselves and share their interest or involvement in non-market approaches.	5	29/08/2025 Barbara Ratusznik
