

Our objective :

CliMates has the objective to overcome the challenges of climate change by :

- Developing and promoting *innovative actions and tools* :

1, 2, 3 Zéro Déchets' game board

HeatWave game board

- *Training young people* to become actors of change
- *Influencing the decisions makers*

Local Conference Of Youth 2022

- *The first LCOY* organized *in France*, it gathered **15 volunteers** and **350 participants** during a weekend.
- Our thematic was **"Ecology for everyone"** and we covered a lot of different subjects such as ecofeminism, disability, climate displacement, popular education,...

- We believe it is important to provide diverse ways to sensitize the public, that's why we made sure to include a wide variety of topics and different media (16 workshops, screening-debate on a documentary, comic-stand,...)

Local Conference Of Youth 2022

- Rewarding experience :
 - The organizing team acquired tons of competences
 - It allowed us to create connections with other associations working on different topic or with different approaches
 - Many young people decided to join an association and get involved in a cause important for them

Meeting the French Minister of Ecological Transition

- On June, we were invited to meet the Minister, but we had only one week to prepare our speech : it was a real challenge but also a great opportunity to speak to decision makers about our claims as young people
- We had to build our advocacy really quickly: write our position paper, coordinate with other NGOs, prepare the speech,...
- This experience allowed us to improve our advocacy skills, and it also gave rise to some vocations
