

MiCRO is an InsurTec pioneer in Latin America, specialized in the design of **index-based micro-insurance** that enables protection against **natural disasters**

MiCRO puts technology at the service of the **underserved population**

Strengthen the resilience against natural disasters of the underserved population through insurance market solutions

- **Simple** index-based insurance for **relevant** perils (climate change)
- **Low-cost** products
- Ample insurable interest to cover **multi-activity** that characterizes our beneficiaries
- **Client AND channel centric** design of solutions
- Proprietary **calculation platform**
- Strong alliances with partners from the **private and public** sectors

Capacity building needed all the way!
