

Means of Implementation

In total, the approximate cost of achieving Vanuatu's Revised and Enhanced NDC is USD 1,214,350,000

VANUATU'S NDC CLIMATE FINANCE NEEDS USD 1,214,350,000

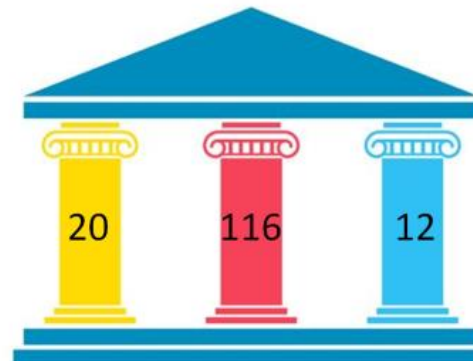

Loss and Damage
177,670,000

Mitigation
315,600,000

Adaptation
721,080,000

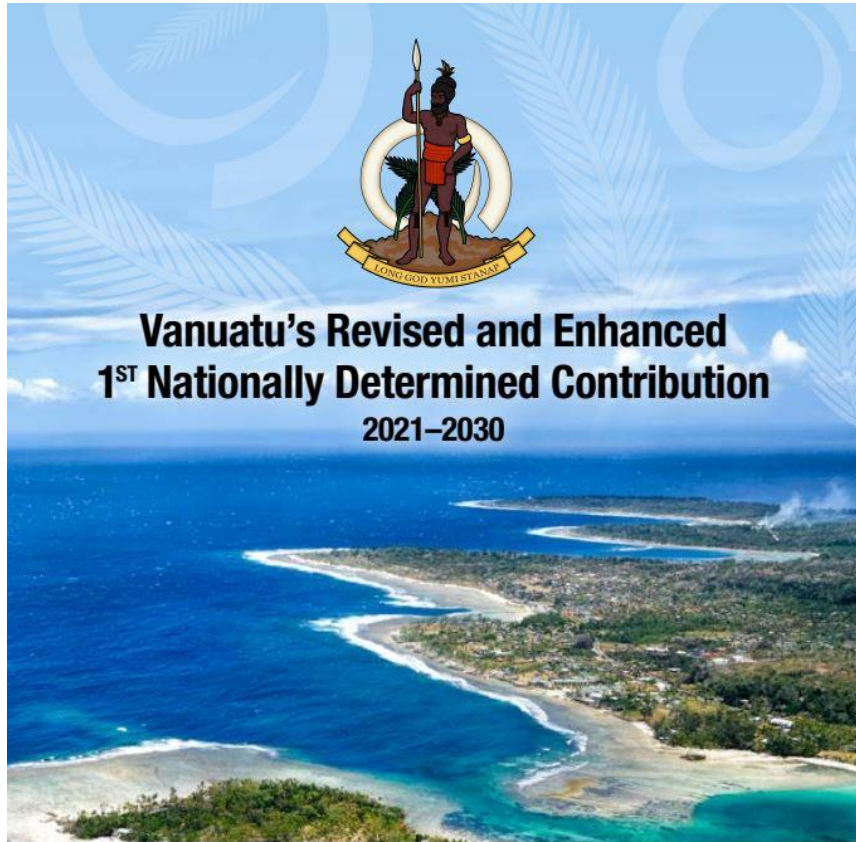

148 Sector Climate Targets

MITIGATION

ADAPTATION

LOSS & DAMAGE

Vanuatu's Revised and Enhanced 1ST Nationally Determined Contribution 2021-2030

ADAPTATION

	Commitment	Sector Policy	Policy Reference	NSDP Reference	SDG Goal Most Relevant	Conditionality (Expressed as %)	Finance Required USD
A85	Vanuatu commits that every child, regardless of climate and disaster circumstances, must be able to access the education system.	Child Protection Policy	V1	SOC 1.2	 4 QUALITY EDUCATION	90	18,000,000

MITIGATION

M6	By 2030, (a) 100% electricity access by households in off-grid areas; (b) 100% electricity access by public institutions (on- and off-grid); (c) 13% electricity sector end-use efficiency; (d) 14% improve biomass end use (improved cook stoves and drying) efficiency; (e) 65% renewable electricity use by rural tourism bungalows.	These three energy sub-sector targets collectively can reduce GHG emissions approximately 78.786 Gg CO ₂ e from energy sector compared to business as usual (BAU) scenario in 2030, which is around 40% reduction in comparison to energy sector's GHG emissions from the BAU scenario.	ENV 2.3		 7 AFFORDABLE AND CLEAN ENERGY	100	85,000,000
