INTRODUCTION TO THE **NDC PARTNERSHIP**

AMANDA MCKEE, DIRECTOR OF KNOWLEDGE & LEARNING
ARTICLE 6.8 IN-SESSION WORKSHOP

A COUNTRY-DRIVEN MODEL

The NDC Partnership is the only coalition focused explicitly on NDCs.

Grounded in an unmatched understanding of countries' needs and priorities, the NDC Partnership effectively and efficiently mobilizes support for NDC-aligned climate and development action, serving as a hub for member engagement.

Governments identify their NDC priorities and support needed to translate them into actionable policies and programs.

Based on these requests, the membership offers a tailored package of technical assistance and funding

UNITING A BROAD AND DIVERSE MEMBERSHIP

The collective impact of the NDC Partnership surpasses what any member could achieve alone — and is far greater than what members can accomplish working in parallel.

Germany, 2025

A woman with glasses and a red blazer is speaking at a conference table. She is wearing a blue lanyard with an NDC logo. Other people are seated at the table, and a large screen is visible in the background. The scene is dimly lit with recessed ceiling lights.

DELIVERY MECHANISMS

The NDC Partnership operates through three complementary mechanisms that respond to country needs.

COUNTRY ENGAGEMENT

SUPPORTING COUNTRY-DRIVEN CLIMATE ACTION

Flexible, country-driven processes support coordinated planning, resource mobilization, implementation and progress tracking of climate actions prioritized by country members.

The NDC Partnership supports NDC development, enhancement and NDC implementation frameworks that facilitate coordinated implementation and support among countries and partners.

COUNTRY ENGAGEMENT

COUNTRY ENGAGEMENT AT-A-GLANCE

Mainstreaming Climate

Working with the whole-of-government to articulate climate priorities and integrate them into national development plans, budgets and policy frameworks

Fostering Engagement

Facilitating whole-of-society participation in NDC planning and implementation

Mobilizing Support

Coordinating, aligning and maximizing partner support in response to country needs

BUILDING BLOCKS FOR EFFECTIVE CLIMATE ACTION

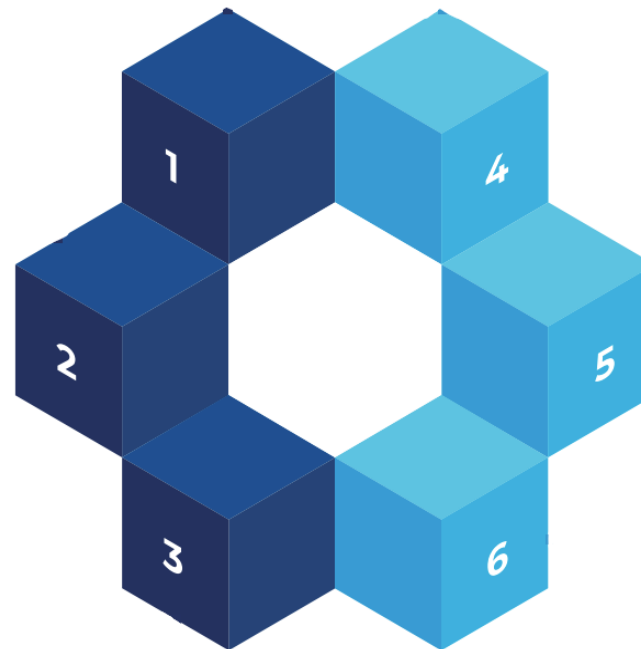

Countries

Partners

1. Ownership of the NDC process at the highest political level

2. Placing ambitious climate action at the center of the development agenda

3. Coordination, capacity, and transparency

4. High level political ownership

5. Commitment and allocation of dedicated capacity

6. Reliable, sustained technical assistance and finance

KNOWLEDGE AND LEARNING

KNOWLEDGE AND LEARNING TO SCALE ACTION

Knowledge and Learning activities facilitate the exchange of relevant trends, lessons learned and resources to support countries in building their capacity for NDC planning and implementation while enabling partners to align technical and financial support with country needs and priorities.

CLIMATE FINANCE

MOBILIZING FINANCE FOR IMPLEMENTATION

The NDC Partnership brings together members and partners with deep expertise in climate and development finance to support developing countries in improving their readiness to unlock and manage finance.

CLIMATE FINANCE

CLIMATE FINANCE AT-A-GLANCE

Planning and strategy development

Climate finance strategies, NDC investment plans and financial roadmaps

Integrating NDCs into national planning, budgets and revenue

Integrating climate finance into public budgets, climate finance tracking, sustainable public procurement and carbon pricing, taxes and trading

Project and program financing and resource mobilization

Blended finance mechanisms, financial mechanisms or vehicles and access to capital markets

Bankable projects and pipelines

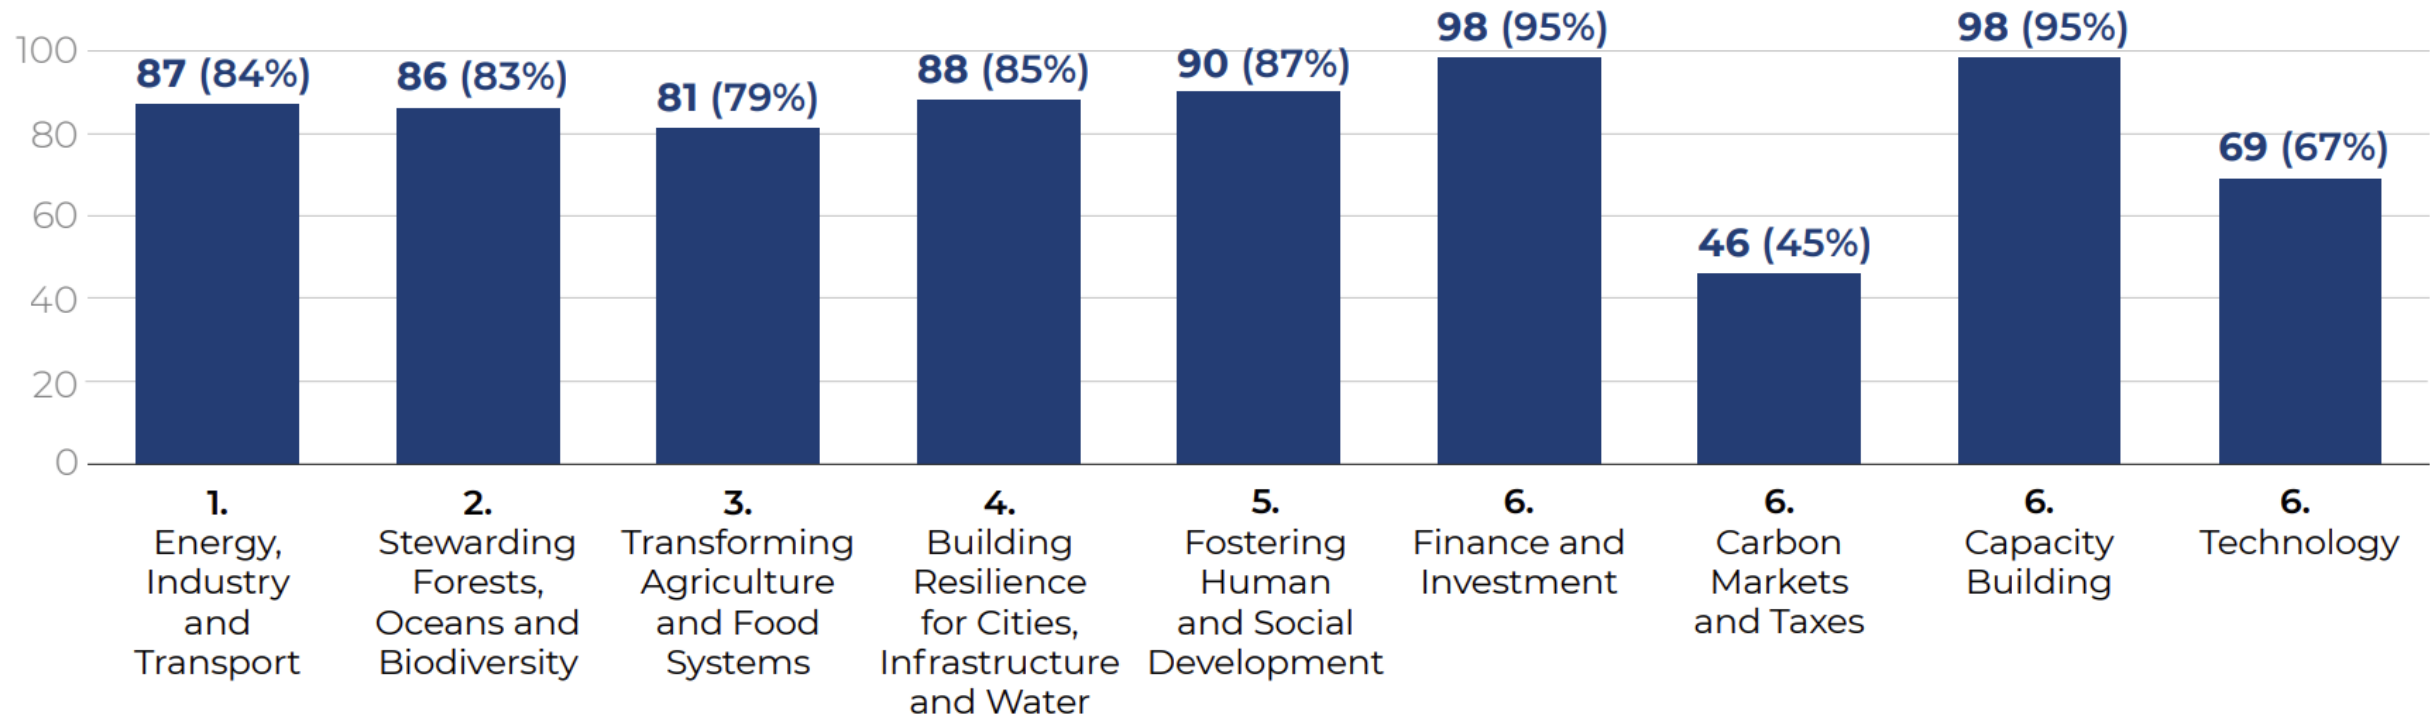

Project feasibility assessments, project financial structuring and project concept notes and proposals

Private sector engagement

Assessment of private sector needs, mapping of private sector partners and assessments of private capital markets

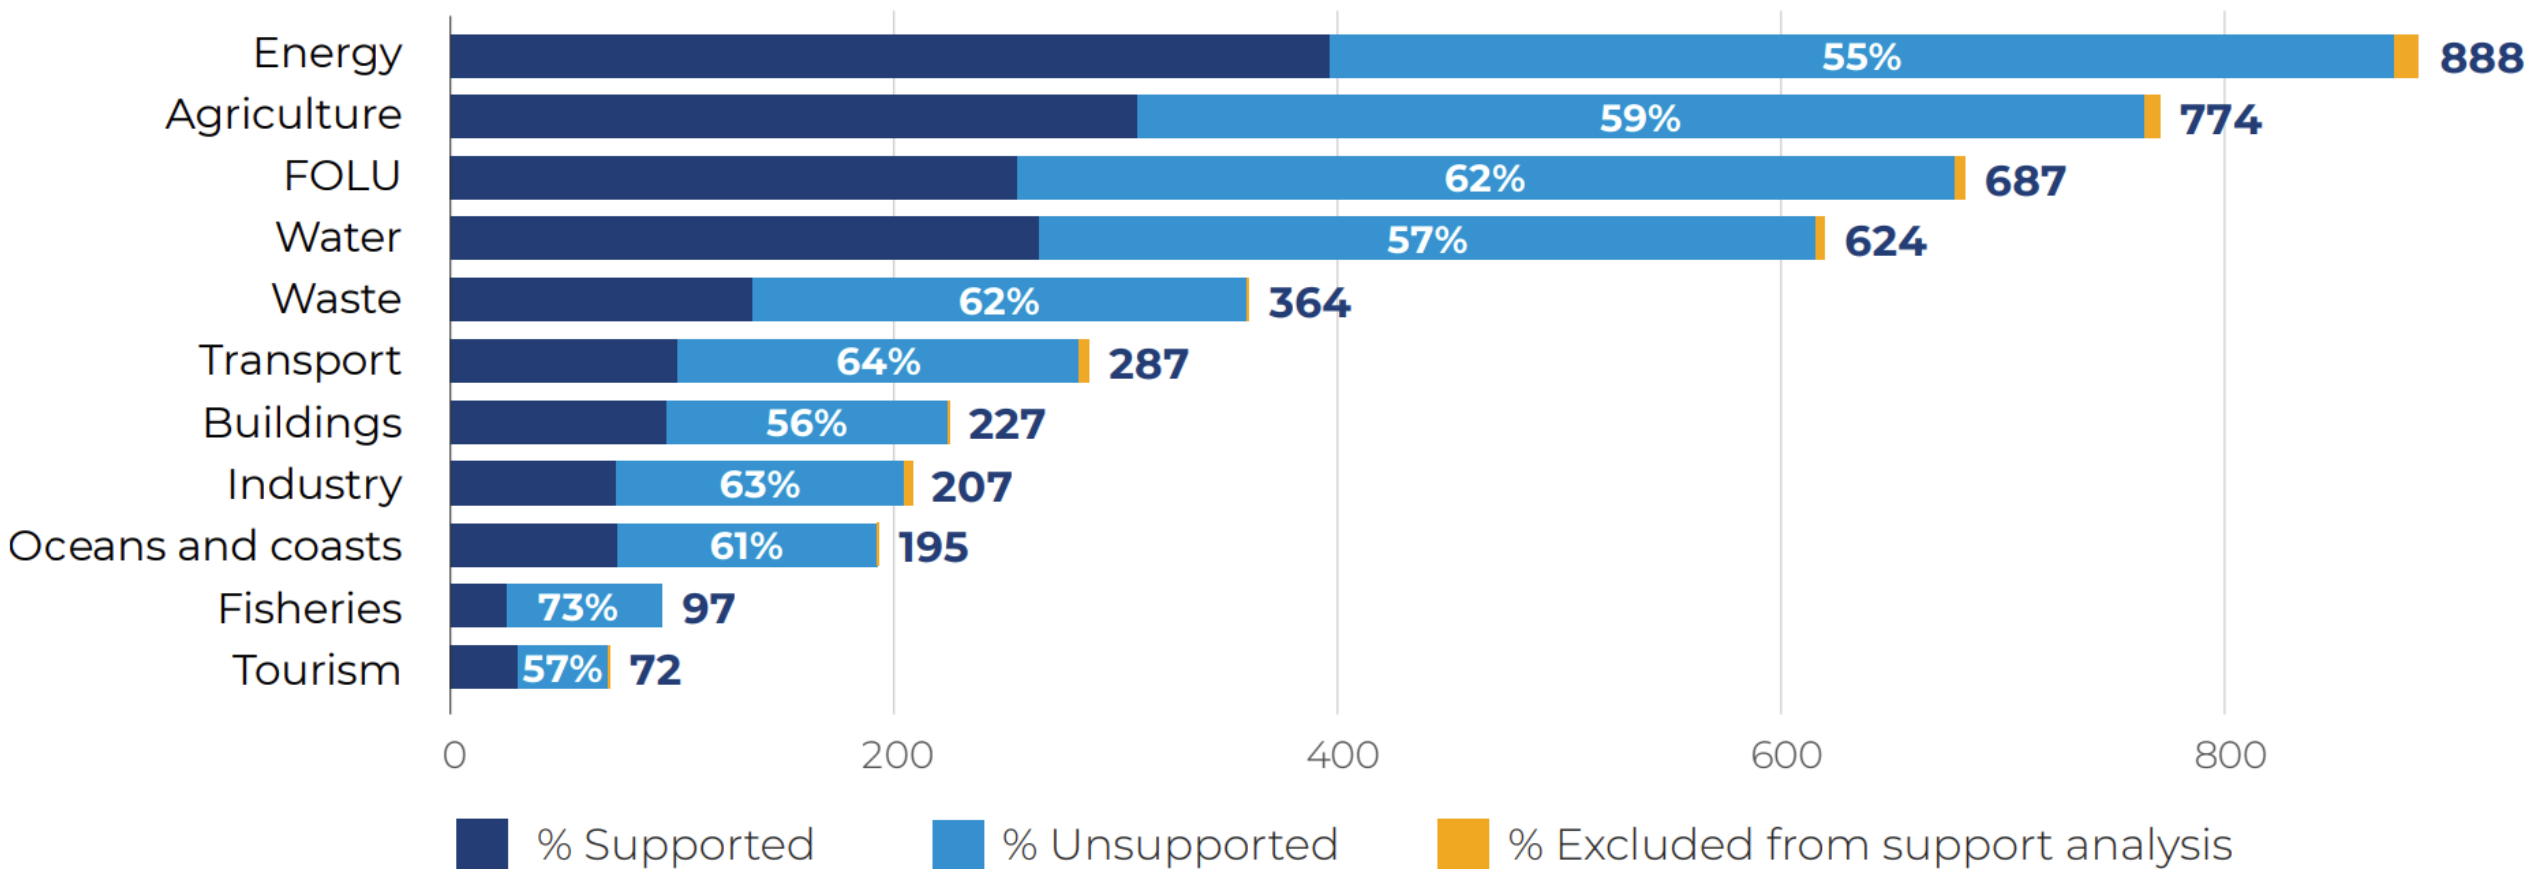

NDC PARTNERSHIP REQUEST & SUPPORT TRENDS

Total Number of Countries Requesting Support through the NDC Partnership by Thematic Axis (out of 103 Countries), by Year (2017–2025)

NDC PARTNERSHIP REQUEST & SUPPORT TRENDS

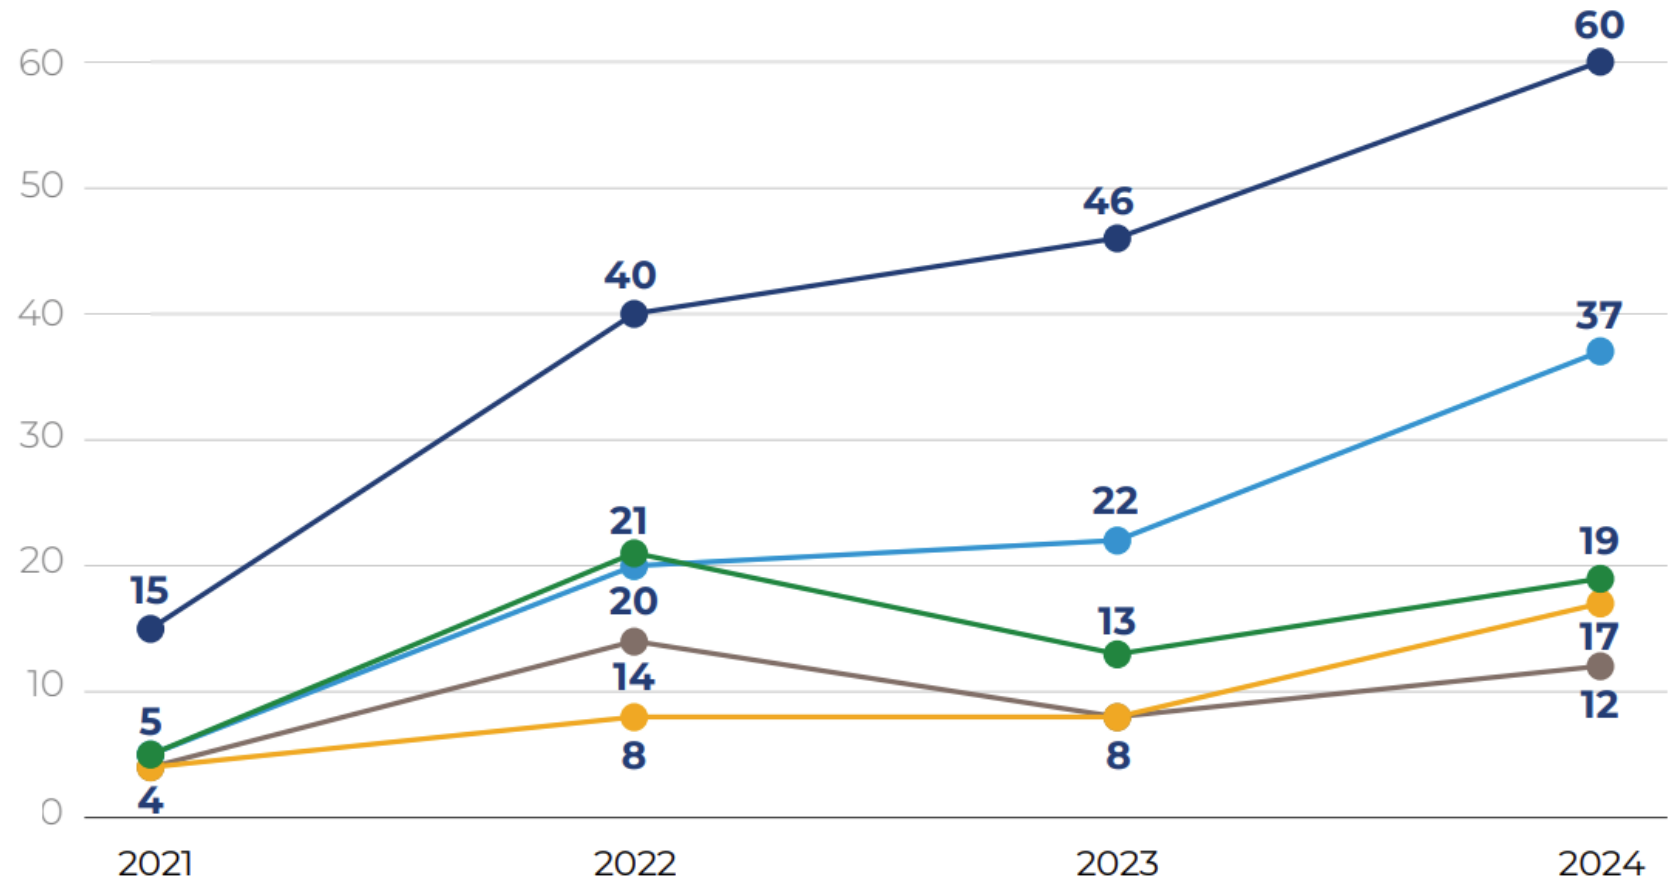

Number of Requests for Support by Sector and Support Status (2021–2025)

NDC PARTNERSHIP REQUEST & SUPPORT TRENDS: FINANCE AND INVESTMENT

Number of Countries Requesting Finance and Investment Support by Sub-Topic and Year (2021–2024)

- Developing climate finance strategies, roadmaps and investment plans
- Finance and investment for climate mainstreaming
- Finance and investment for adaptation
- Integrating NDCs into national planning, economic and fiscal policies, and financial regulation
- Finance and Investment
