^c Parties should report, as appropriate, on project details and the implementing agency.

Annex 6 and 1 Table 8: Examples of Provision of technology development and transfer support

Note that this is not a complete list

Recipient country and/or region	Targeted area	Measures and activities related to technology transfer	Sector	Source of the funding for technology development or transfer (private and/or private)	Activities undertaken by (public and/or private)	Status (Planned; Agreed; Completed)	Additional information
Bangladesh	Adaptation	51060057 Local Government Initiative on Climate Change (LoGIC)	74010 Disaster prevention and prepar	Public	Public and private	Implemented	The LoGIC initiative supports the development of soft technology among vulnerable communities, local government institutions and civil society organisations in Bangladesh for local planning and financing climate change adaptation solutions in selected climate vulnerable areas.
Global	Mitigation and Adaptation	54100042 CGIAR 2013-2017. Example: Scuba Rice	31182 Agricultural research	Public	Public	Implemented	CGIAR is a global research partnership for improved food security. A tangible example of technology development in their work is the story of "Scuba Rice" - a rice variety that survives better in flooded areas than other rice varieties and at the same time has a high nutrition value. Scuba rice was developed by CGIAR's rice research institute from a traditional Indian rice variety. It is today grown by millions of people in Asia, improving food security.
Global	Mitigation	61050183 EnDev 2015-2018	23040 Electrical transmission	Public	Mainly private, and to a lesser extent public	Implemented	The Energising Development Partnership (EnDev) is a joint outcome and impact-oriented global programme with the target to improve access to modern energy services based on renewable energy technologies. The programme is addressing the energy situation of households of people in poverty, social institutions and small and medium enterprises.
Global	Mitigation and Adaptation	61000983 DemoEnvironment III 2015-19	43030 Urban developm. & managem.	Public	Private	Implemented	The DemoEnvironment Fund supports Swedish and other private sector actors to enter into developing country markets with climate-friendly technology and support the exchange of knowledge and business opportunities with the purpose to reduce poverty and tackle environmental challenges.
Mozambique	Mitigation	51140010 Rehabilitation of 2 Hydropow. plants in Mozambique	23065 Hydro-electric power plants	Public	Private	Implemented	Sida supports the rehabilitation of two old hydro-electric power stations a total capacity of about 100 MW along Rio Revuê in the central part of Mozambique, using modern technology, with the purpose to increase access to clean electricity. The rehabilitation contributes to the country's development by securing energy access with continued low greenhouse gas emissions. The repair works have been financed by a development loan supplied as a grant portion and a commercial loan.
Reg Africa	Mitigation	54060092 and 51170062 AECF REACT challenge fund 2013 - 2019. Example: MKOPA	25021 Other business	Public and private	Private	Implemented	Sida supports the Africa Enterprise Challenge Fund (AECF). An interesting result from its renewable energy window is MKOPA, which provides Pay-As-You-Go solutions for renewable energy at the household level. Today MKOPA has more than 500 000 household customers in Kenya, Tanzania and Uganda. Learning from these positive experiences, Sida is currently preparing a 350 MSEK support to continue the work to facilitate SMEs early development in other countries including Burkina Faso, Etiopien, Liberia, Mali, Mocambique, Zimbabwe.
Reg Africa	Mitigation	10680 Private Financing Advisory Network (PFAN)	23010 Energy policy and admin	Public	Private	Implemented	PFAN supports locally based private sector to mobilize private finance for renewable energy and energy efficiency projects in developing countries. Sida provides support for PFAN's work in Sub-saharan Africa, including Uganda, Kenya, Tanzania, Rwanda, Etiopien, Zambia, Mocambique och Zimbabwe. It supports entrepreneurs and companies to develop reliable business plans; lower risks for investors; and facilitate investments in climate projects for a sustainable development. PFAN is a multilateral public-private partnership that emerged from processes under UNFCCC and IEA.
Serbia	Mitigation	55100000 IPPC animal farms and food production	41010 Environment policy & admin	Public and private	Public and private	Implemented	In this initiative Serbian actors are supported in their efforts to reduce emissions from industrial scale animal husbandry. It includes improved techniques for storage and application of manure; increased energy efficiency in heating and ventilation and establishment of biogas production.
Tanzania	Mitigation	51170000 Rural Electrification Tanzania	23040 Electrical transmission	Public	Private	Implemented	Sida supports Tanzania's Rural Energy Agency (REA) during 2015-2019 to scale up modern rural energy access as part of Tanzania's contribution to the SE4All ambition to reach universal energy access by 2030. The objective is poverty alleviation in rural mainland Tanzania through access to modern energy services based on renewable resources. It is achieved through extensive on-grid electrification investments, complemented by private sector led off-grid and mini-grid renewable energy investments.

Annex 6 and 1 Table 9: Examples of Provision of capacity-building support

Note that this is not a complete list

Recipient country	Targeted area	Programme or project title	Description of programme and project	Additional information
Global	Mitigation	Capacity Building Initiative for Transparency (CBIT)	Sweden is one of the donors to the multilateral CBIT fund that was established as part of the Paris Agreement. The goal of the CBIT is to strengthen the institutional and technical capacities of developing countries to meet the enhanced transparency requirements of the agreement. Activities aim to strengthen national institutions for transparency-related activities in line with national priorities; provide relevant tools, training and assistance for meeting the provisions stipulated in Article 13 of the Paris Agreement; and assist in the improvement of transparency over time.	
Bolivia	Adaptation	75000553 BOL Research UMSA 2013-17	Sweden provides support to Bolivia's universities in La Paz and Cochabamba. By supporting the development of the country's own capacity building institutions, sustainable domestic analytical capacity to deal with the countries challenges including climate change is built. Through research by PhD students, scientific results are produced in sustainable energy supply, water purification and management and other climate-related issues.	
Global	Cross-cutting	54040213 ECBI phase 4 2015/16-2019/20	The European Capacity Building Initiative (ECBI) was launched by Oxford Climate Policy (OCP) and International Institute of Environment and Development (IIED) in 2005. The initiative builds and sustains the negotiating capacity of developing countries, and builds trust between developing and developed country climate change negotiators, in support of the UN climate change negotiations.	
Global	Mitigation	61050196 UNFCCC reporting emissions	This is an initiative to support developing countries to increased capacity related to greenhouse gas reporting under the UN climate change convention. The support is channelled through the UNFCCC Secretariat that holds trainings to improve monitoring, reporting and verification of greenhouse gas emissions, targeting non-Annex I countries.	
Global	Mitigation	54000152 ESMAP 2015--2016 Energyfund World Bank Energy Sector Management Assistance Programme	The Energy Sector Management Assistance Program (ESMAP) is a partnership between the World Bank Group and 17 partners to help low and middle-income countries reduce poverty and boost growth, through environmentally sustainable energy solutions. It focuses on SDG 7 and the SE4All goals and has activities in over 130 countries. Situated within the World Bank, ESMAP influences billions in loans for development projects, leverages public and private financing, and shapes global policy.	
Global	Adaptation	61050182 Huairou Commission Global Cooperation 2015-2019	The Huairou Commission is a global membership- and partner coalition working with women on a grassroots level, aiming to make concrete improvements on a local level and to strengthen womens collective power on a global level. The organization works with several issues, one of them is within climate and resilience and disaster risk reduction. This support is to implementation of their strategic plan for 2015-2020.	
Global	Adaptation	54000050 ITP 309 Climate 15,16,17,18,19	This is an international training program for African participants, held by the Swedish Meteorological and Hydrological Institute. The program aims to improve early warning systems and provide climate information with a focus on water and agriculture. The objective is that participating institutions' preparedness for climate change have improved by implementing action plans and increased awareness among small scale farmers, the the public and decision makers.	
Mozambique	Cross-cutting	51140111 Landscape and forests management MDTF	The program addresses the alarming levels of deforestation and forest degradation in Mozambique, which directly affects the rural population's resilience and cause severe economic, social and environmental consequences. The intervention is implemented at two levels – national level, with the aim to strengthen the overall national forest management (including institutional capacity building, law enforcement and review of policy framework) and at local level focusing on climate smart agriculture, sustainable use of wood fuels and sustainable forestry.	
Reg Africa	Adaptation	51000104 Western Indian Ocean Marine Science Association (WIOMSA) 2012-2017	The objective of the continued support to the Western Indian Ocean Marine Science Association (WIOMSA) is to support organisational sustainability, conduct multi-disciplinary/trans-disciplinary and participatory quality research, to strengthen existing and new partnership, to develop and implement an effective communication strategy.	
Reg Asia	Cross-cutting	51020060 Phase 1, Strengthening the Governance of Climate Change Finance to benefit the poor and vulnerable (2012-2016)	This UNDP programme aims to strengthen the capacity of the governments to implement their national and local budgeting reform and planning process to be able to systematically address climate change in their public investments in an integrated manner, and address gender equality, human rights and poverty. More details of the programme can be found at https://www.climatefinance-developmenteffectiveness.org/ .	
Reg Asia	Adaptation	51000071 International Centre for Integrated Mountain Dev. (ICIMOD), 2011-2016	Sida supports two of ICIMODs regional programmes. 1) The Black Carbon Programmes aims at enhancing scientific understanding of black carbon and other short- lived climate forcers. 2) The Himalayan Climate Change Adaptation programme aims at reducing the uncertainties of impact of climate change the development , enhance capcity etc. The support is estimated to 50 MSEK.	
Reg Asia	Cross-cutting	52190017 Mekong River Commission (MRC) 2016-2020	Support to the Mekong River Commission contributes to poverty reduction by contributing to a more sustainable management and use of the Mekong River. The support contributes to an increased capacity to deal with the challenges of managing transboundary water in a changing climate.	

China	Cross-cutting	Long-term environmental and climate cooperation with strategically important countries	In accordance with the Paris Agreement and Montreal Protocol to phase out hydrofluorocarbons (HFCs) the Swedish Environmental Protection Agency organized a workshop in Stockholm to initiate cooperation with China aimed at promoting an elimination of HFCs and energy efficiency through district cooling systems.	Other Official Flow, OOF, from the Swedish EPA. Not included in Tables 7 and 7b.
Brazil	Cross-cutting	Long-term environmental and climate cooperation with strategically important countries	The project is a continuation of a collaboration project with the town Curitiba, which is focusing on the inventory and control of airborne short-lived particles. The project involves developing a method to measure emissions of particles (including black carbon) and its impacts of the environment.	Other Official Flow, OOF, from the Swedish EPA. Not included in Tables 7 and 7b.
India	Cross-cutting	Andaman Microgrid Programme	Feasibility studies to define system design for Microgrid pilot projects aiming to replace dependency on diesel at the Andaman Islands. Three project consortia has proposed 12 different pilot projects that meet the criteria for the programme: 100% renewable energy, up till 1 MW, hybrid systems anticipated, replicability, local resources and enduse, DC a priority.	Other Official Flow, OOF, from the Swedish EPA. Not included in Tables 7 and 7b.
India	Cross-cutting	India-Sweden Innovations' Accelerator	Promotion of business oriented collaborations based on innovative technologies. Some 15 Swedish companies introduced during 2015-2016 out of which about half of them are now working on prototypes and pilots to validate and adapt the Swedish innovations to Indian conditions.	Other Official Flow, OOF, from the Swedish EPA. Not included in Tables 7 and 7b.
Indonesia	Cross-cutting	Indonesia-Sweden Business Accelerator	Promotion of business oriented collaborations for SME:s in renewables and energy efficiency. Approximately 10-15 companies have taken part and a few already signed substantial deals within energy efficiency.	Other Official Flow, OOF, from the Swedish EPA. Not included in Tables 7 and 7b.
Indonesia	Cross-cutting	MoU on Energy Cooperation	The existing MoU on energy cooperation between Swedish Energy Agency and the Government of Indonesia was elaborated during 2016 to be signed between ministries in 2017. It includes cooperation on Renewables, Energy Efficiency, R&D and Capacity building, including climate policy related issues. In 2016 a study on subsidies to the coal industry versus subsidies to the renewables sector was initiated by SEA. Subsidies to coal were deemed significantly higher than those to renewables by the researchers from International Institute of Sustainable Development (IISD).	Other Official Flow, OOF, from the Swedish EPA. Not included in Tables 7 and 7b.

Documentation Box

Provision of information on definitions or methodologies used for reporting information in the following reporting parameters:

1: Core/general	Core funding is pooled and used to meet an organisation's overall running and programme costs. That is, the funding lose its identity and becomes an integral part of the recipient institution's financial assets. The donor does not specify to which budget lines the funding should be directed, but part of it may be allocated to climate interventions.
2: Climate-specific	Funding used specifically to address climate change mitigation and/or adaptation, in accordance with OECD DAC Rio Markers definitions, or as specified by the multilateral development banks in the report 2015 Joint Report on Multilateral Development Banks' Climate Finance (http://www.adb.org/documents/joint-report-mdbs-climate-finance-2015).
3: Status - disbursed and committed	According to OECD DAC terminology. N.B. that Sweden only reports disbursed climate finance, for both multilateral and bilateral flows.
4: Funding source	The majority of Sweden's climate finance is Official Development Assistance, but there are also contributions from Other Official Flows. Substantial amounts of private climate finance are also leveraged, but these figures are not included in the tables / CTF or Sweden's overall figures of total climate finance.
5: Financial instrument	The majority of Sweden's climate finance is provided in the form of grants. Guarantees are also used in order to mobilize private climate finance. These figures are presented in the section about mobilized finance, but have not been included in the tables / CTF or Sweden's overall figures of total climate finance.
6: Type of support	Sweden supports both mitigation and adaptation efforts, but many contributions are cross-cutting and address both/have co-benefits for both.
7: Sector	Sweden uses the OECD DAC sector classification.
