## Possible topic for 2020

---

❖ AC 15 proposed topics:

- The 2°C and 1.5°C temperature limit at multiple levels (i.e., local, national and regional)
- **Education and training, public participation and youth to enhance adaptation action (highest votes in poll)**
- A summary of the TEM-A 2016-2019

## Proposed format for the 2020 TEP-A

- ❖ Shortening the meeting -> make it more interactive and engaging
  - Hosting a policy case competition (designed in a variety of ways) and/or a session that invites attendees to collectively design recommendations for policymakers.
    - ✓ The competition can be adapted to accommodate interdisciplinary teams with members drawn from various backgrounds and locations.
  - AC could reach out to and partner with UNFCCC constituencies, Universities, research institutes, and other actors as appropriate

## Next Steps

---

### **The AC may wish to:**

- Consider and agree on recommendations based on the key findings from the 2019 TEP-A for inclusion into the annual report of the Adaptation Committee to the COP
- Agree on a theme and approach for the 2020 TEP-A, including the format for the event
- Invite expert organizations, through the secretariat, to volunteer to support the 2020 TEP-A
- Invite the TEP-A working group and volunteer expert organizations to begin preparing for the 2020 TEP-A, including by preparing a draft concept note and identifying contributors, while bearing in mind the assessment of the 2019 TEM-A articulated above
