

2021 CTCN ASIA-PACIFIC Forum on

Accelerating Climate Action through Climate Technology Transfer

7th July 2021

Asia Pacific Climate Week 2021

Background

The Climate Technology Centre and Network (CTCN) is the implementation arm of the Climate Change Convention (UNFCCC) Technology Mechanism. The CTCN promotes the accelerated transfer of environmentally sound technologies for low carbon and climate resilient development at the request of developing countries. More specifically, the CTCN provides technology solutions, capacity building and advice on policy, legal and regulatory frameworks tailored to the needs of individual countries. As a part of its mandate and as one of its activities the CTCN organizes Regional Forum for the National Designated Entities (NDEs) on an annual basis, regularly held during UNFCCC Regional Climate Weeks. This year, CTCN will structure its regional Forums according to the five key themes of the Technology Framework: Innovation, Implementation, Enabling Environment, Collaboration and stakeholder engagement, Support.
