

KORONIVIA WORKSHOP

Sustainable land and Water Management,
Including Integrated Watershed Management
Strategies, to Ensure Food Security

GREEN
CLIMATE
FUND

10 June 2021

Shahid Parwez

Senior Agriculture and Food Security Specialist a.i.

Marc Dumas Johansen

Agriculture and Food Security Specialist

GCF's Areas of Action

Sustainable Land and Water Management – Cuts Across the Result Areas – e.g. Food-Water-Energy Nexus

Three Complementary Investment Pathways

Promoting Resilient Agriculture

Facilitating Climate Informed Advisory and
Risk Management Services

Reconfiguring Food Systems

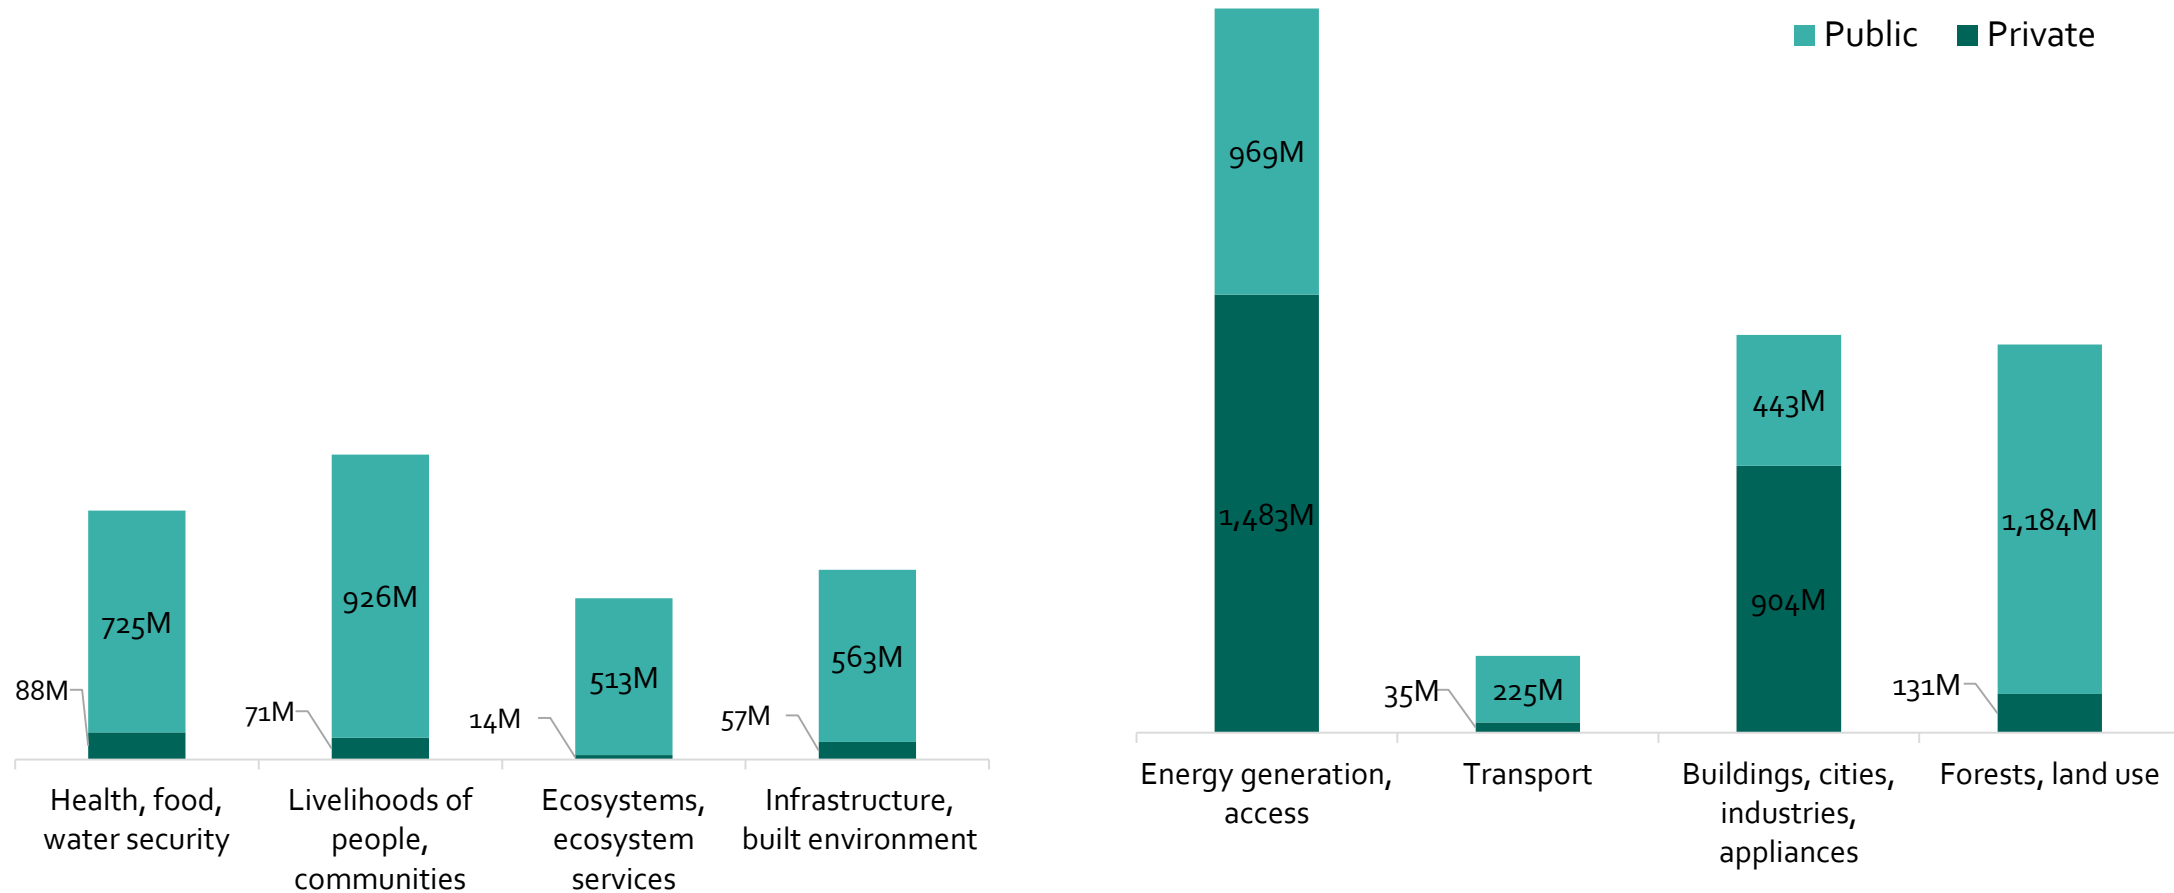

Current GCF Pipeline and Portfolio in Agriculture and Natural Resources

Result Area: GCF financing world map

GCF Funding by Result area and Sector (in USD)

CURRENT STATUS OF APPROVED PROJECTS IN THE LAND AND WATER SECTORS

	Ecosystems and ecosystem services	Forests and land use	Health, food, and water security
Number of projects approved	55	50	74
Total GCF funding by results area*	528.07M	1,317.81M	818.8M
Total GCF funding	1,805.59M	2,899.33M	2,749.68M
Total co-financing	2,627.29M	8,266.03M	6,004.37M
Total tCO₂eq reduced	350.74M	907.63M	407.7M
Direct Beneficiaries	17.97M	25.82M	79.74M
Indirect Beneficiaries	89.32M	119.72M	195.9M

CURRENT PIPELINE OF PROJECTS IN THE LAND AND WATER SECTORS

	Total financing - USD	LifeTime tCO ₂	Total Beneficiaries
Natural resources result areas	5 billion	2 billion	1 billion
Forest and Land Use	1.5 billion	1.8 billion	191 million
Health, food, and water security	1.8 billion	850 million	850 million
Ecosystems and ecosystem services	1.6 billion	1.5 billion	321 million

Examples of GCF Agriculture and Food Security Projects with Innovative Financing Approaches

Region and Focus	Sectors	Project Amount	Partners and Rolls	Finance Instrument
Africa (Uganda, Nigeria, Ghana, Kenya) Adaptation	Agricultural productivity and income for smallholder farmers	USD 56 million	Acumen Fund (Fund Manager), GCF, Other limited liability partnerships (LLPs)	Equity Debt with extended tenor Grant for Technical Assistance Facility
Africa (Zimbabwe) adaptation	Agricultural productivity and risk management for smallholder farmers	USD 9.8 million	World Food Program (WFP), GCF	Grant for improved access to finance and insurance products
Africa (Zambia)	Agricultural productivity and resilience for smallholder farmers	USD 137.3 million	UNDP, GCF	Grant for improved access to finance and insurance products
Asia-Pacific (Cambodia) Adaptation and Mitigation	Agricultural production and agribusiness	USD 141.4 million	Asian Development Bank, GCF	Senior long tenor debt (32 year; GCF) Long tenor debt (32 year; ADB) Grants (GCF)

KEY TAKE AWAY

- The Koronivia Joint Work should lead to identification of more innovative ideas and transformative projects
- Methods and approaches for assessing adaptation, adaptation co-benefits and resilience are still evolving – need for common ground
- Adoption of concrete mechanisms to share good practices and ensure their uptake in addressing the food security dimensions of climate change
- Immense opportunity to transform the outcomes of Koronivia Joint Work into paradigm shifting solutions that GCF could support

THANK YOU!
