ADDENDUM TO DESIGN DOCUMENT FOR CDM ACTIVITY TRANSITION REQUEST[1] (Version 03.1)

Title and UNFCCC reference number of activity	
Environmental and social impacts[2]	*Provide a summary of the environmental and social impacts and sustainable development benefits of the transitioning clean development mechanism (CDM) activity, and attach to this form a report prepared in accordance with the "Standard: Transition of CDM activities to the Article 6.4 mechanism" (hereinafter referred to as "transition standard"):* 1. Environmental impacts >>
	2. Social impacts >>
	3. Sustainable development benefits >>
Non-permanence risk	☐ **The transitioning activity uses fossil fuel for co-firing or as a backup fuel** *If this box is ticked, describe the monitoring plan to account for emissions from the use of fossil fuel in accordance with the transition standard.* >>
	☐ **The transitioning activity applies one or more of the CDM methodologies listed as having a risk of negative emission reductions in paragraph 35 of the transition standard** *If this box is ticked, describe (i) the outcome of the assessment to determine whether there was any accrual of net negative emission reductions in the past; and (ii) the monitoring plan to take into account such negative emission reductions in emission reductions occurring from 2021 in accordance with the transition standard.* >>

[1] This form is to be filled in, signed and submitted by the person authorized for scope (c) by the project participants of the clean development mechanism (CDM) project activity or programme of activities, as indicated in the modalities of communication submitted in accordance with the "CDM project cycle procedure for project activities" or "CDM project cycle procedure for programmes of activities" to the secretariat within 180 days of the publication of the host Party approval of the transition in accordance with the "Procedure: Transition of CDM activities to the Article 6.4 mechanism" available at: https://unfccc.int/sites/default/files/resource/A6.4-PROC-AC-001.pdf. The secretariat may convert this form into an electronic interface for the submission of this document, in which case the signature will be replaced with electronically secure means.

[2] If the SD tool is applicable at the time of submission of the additional documentation, the PPs shall submit the compulsory forms as attachment to this addendum.

	☐ **The transitioning activity applies one or more of the CDM methodologies listed as having a risk of non-permanence in paragraph 36 of the transition standard** ☐ *The fraction of non-renewable biomass (fNRB) value will be re-evaluated based on the latest available data and information as per the requirements of the transition standard and applied at first issuance.* ☐ *The discount factor for addressing leakage will be re-evaluated based on the on latest available data and information as per the requirements of the transition standard and applied at first issuance.* ☐ **The transitioning activity is none of the above**
Compliance with the registered design document, including the application of the currently applied CDM methodology *Tick the applicable box*	☐ **No post-registration change (PRC) occurred since 2021:** I hereby confirm that the transitioning CDM activity has been implemented and monitored in accordance with the registered project design document (PDD), or programme of activities design document (PoA-DD) and component project activity design documents (CPA-DDs), as displayed on the project ☐ **A PRC occurred since 2021:** I hereby confirm that I will seek approval of the PRC to the transitioning CDM activity under the mechanism established by Article 6, paragraph 4, of the Paris Agreement (Article 6.4 mechanism) after its transition to the Article 6.4 mechanism, noting that the PRC may not be approved by the Supervisory Body for the Article 6.4 mechanism. This may impact the crediting of Article 6, paragraph 4, emission reductions for the activity occurring after the PRC.
Compliance with provisions of the "Standard: Requirements for activities involving removals under the Article 6.4 mechanism" **(Only applicable to A/R CDM project activities and A/R CDM A/R programmes of activities and component project activities therein)**	☐ **Identification of risk of reversals:** (Include the identification and justification of the risks of reversals that may be attributed to the CDM A/R project activity or CDM A/R PoA and CPAs herein, aligned with the provisions of the "Standard: Requirements for activities involving removals under the Article 6.4 mechanism" and other applied methodological regulatory documents approved by the Supervisory Body) ☐ **Reversal risk assessment:** (Provide a reversal risk assessment in accordance with the relevant requirements of the "Standard: Requirements for activities involving removals under the Article 6.4 mechanism" and other applied methodological regulatory documents approved by the Supervisory Body) ☐ **Reversal risk mitigation plan:** (If a risk of non-permanence is identified, develop and implement a risk mitigation plan to address any risks identified through the reversal risk assessment, following the relevant provisions of the "Standard: Requirements for activities involving removals under the Article 6.4mechanism" and other applied methodological regulatory documents approved by the Supervisory Body)

	☐ **Remediation of reversals:** (Describe the measures to be implemented to remediate reversals, including proactively mitigating reversal risks and avoiding reversals as per the requirements of the "Standard: Requirements for activities involving removals under the Article 6.4 mechanism" and other applied methodological regulatory documents approved by the Supervisory Body) ☐ **Post-crediting period monitoring plan:** (Describe the monitoring to be conducted after the end of the last active crediting period of the A/R CDM A/R project activity and CDM A/R PoA and CPAs therein, to assess whether any reversals have occurred, in accordance with the requirements of the "Standard: Requirements for activities involving removals under the Article 6.4 mechanism" and other applied methodological regulatory documents approved by the Supervisory Body)
I confirm that the information provided in this form is correct	Date (DD/MM/YYYY): Names of the entity and the representative of the project participants[3]: Signature:

- - - - -

[3] Please write the name of the focal point entity designated by the project participants of the CDM project activity or PoA for scope (c) and the name of its representative as communicated to the secretariat in the modalities of communication in accordance with the relevant provisions in the "CDM project cycle procedure for project activities" or the "CDM project cycle procedure for programmes of activities", respectively available at: https://cdm.unfccc.int/Reference/Procedures/index.html

Document information

Version	*Date*	*Description*
03.1	23 February 2026	Editorial revision to change cross-references to the Transition Standard.
03.0	21 May 2025	Revision to include updated requirements for activities following CDM methodologies that have a risk of non-permanence of emission reductions.
02.0	26 February 2025	Revision to include additional requirements for A/R CDM project activities and programmes of activities.
01.0	19 August 2024	Initial publication of form template.

Decision Class: Regulatory
Document Type: Form
Business Function: A6.4 activity cycle
Keywords: A6.4 mechanism, A6.4 projects, project design document, transition of CDM activities to A6.4 mechanism
