## ATTACHMENT. Instructions for completing this form

### 1. General instructions

#### 1. Compliance of the verification and certification report with requirements

- 1.1 When completing this form, comply with the “Article 6.4 mechanism validation and verification standard for projects” (A6.4-STAN-AC-003).<sup>1</sup>
- 1.2 Include, if necessarily, additional information other than that indicated in this form in order to support how the designated operational entity (DOE) has arrived at its verification conclusions. This information may include, but not limited to, tables, graphs and annexes such as a validation protocol.
- 1.3 List all the abbreviations used in this validation report in Appendix 1 below.

#### 2. Working language

- 2.1 Complete this form in English;
- 2.2 Prepare all attached documents in English, or provide full translation to English of relevant sections of documents if their originals were prepared in other language;

#### 3. Format and lay-out of the form

- 3.1 Complete this form using the same format without modifying its font, headings or logo, and without any other alteration to the form.
- 3.2 Do not modify or delete tables and their columns in this form. Add rows of the tables and copy/paste tables as needed. Add additional appendices as needed.

#### 4. Sections not applicable

- 4.1 If a section of this form is not applicable, explicitly state that the section is left blank intentionally.

#### 5. Other instructions

- 5.1 Use an internationally recognized format for presentation of values. For example, use digits grouping in thousands and mark a decimal point with a dot (.), not with a comma (,).
- 5.2 Complete this form removing this Attachment.

#### 6. Acronyms and abbreviations

- 6.1 The following acronyms and abbreviations are referred to in this form:
  - (a) PDD: project design document;
  - (b) Activity standard: Article 6.4 mechanism activity standard for projects;
  - (c) Validation and verification standard: Article 6.4 mechanism validation and verification standard for projects.

- Indicate the numbers of CLs, CARs, and FARs raised for each of the items above. Provide the details (description, responses from activity participants and conclusions by the DOE) in Appendix 4.

## SECTION E. Verification of compliance with specific requirements

- Complete sub-sections below to verify the compliance with the relevant project requirements in accordance with the applicable verification requirements in the validation and verification standard by describing:
  - Means of verification: describe how the compliance was verified;
  - Findings: provide a brief description of the findings. Include in **Error! Reference source not found.** details of any CLs, CARs and FARs, if raised;
  - Conclusion: provide a conclusion on the compliance based on the findings.

## E.2. Compliance of the project implementation and operation with the registered project design document

Means of verification	>>
Findings	>>
Conclusions	>>

- Determine whether the project implementation and operation comply with the registered PDD in accordance with the applicable verification requirements related to the compliance of the project implementation with the registered PDD in the validation and verification standard.

## E.3. Post-registration changes

- Fill the sections below by following the instructions provided if there was a post-registration change during the same crediting period; otherwise, indicate that there is no post-registration change during the same crediting period.

### E.3.1. Permanent changes – corrections

Approval status	<input type="checkbox"/> Already approved by the Supervisory Body: Date of approval: DD/MM/YYYY (Ref. number: XXXX) Date of approval: DD/MM/YYYY (Ref. number: XXXX) Date of approval: DD/MM/YYYY (Ref. number: XXXX) (Add rows as needed) <input type="checkbox"/> Not yet approved by the Supervisory Body
Changes to be validated	>>
Means of validation	>>
Findings	>>
Conclusions	>>

- Determine whether there are any corrections to the PDD after the registration or the renewal of the crediting period of the project, tick the relevant check box(es) and provide the information on the status and the date of approval by the Supervisory Body, as appropriate;
- For all corrections to be validated in conjunction with this verification, provide a brief summary of the corrections, and determine whether they comply with the relevant requirements in the activity standard and were assessed in accordance with applicable validation requirements related to the corrections in the validation and verification standard.

### E.3.2. Permanent changes – inclusion of a monitoring plan

Approval status	<input type="checkbox"/> Already approved by the Supervisory Body: <input type="checkbox"/> Monitoring plan was included after the registration of the project but approved by the Supervisory Body prior to this verification: Date of approval: DD/MM/YYYY (Ref. number: XXXX) <input type="checkbox"/> Not yet approved by the Supervisory Body
Means of validation	>>

<b>Findings</b>	>>
<b>Conclusions</b>	>>

- Determine whether there was an inclusion of a monitoring plan to the PDD after the registration of the project, tick the relevant check box(es), and provide the information on the status and the date of approval by the Supervisory Body, as appropriate;
- If the inclusion of a monitoring plan has not yet been approved by the Supervisory Body, determine whether the included monitoring plan complies with the relevant requirements in the activity standard and was assessed in accordance with applicable validation requirements related to the inclusion of a monitoring report in the validation and verification standard.

### E.3.3. Permanent changes – changes to the start date of the crediting period

<b>Approval status</b>	<input type="checkbox"/> There were changes after the registration <div> <input type="checkbox"/> Already approved by the Supervisory Body:            Date of approval: DD/MM/YYYY (Ref. number: XXXX)         </div> <div> <input type="checkbox"/> Not yet approved by the Supervisory Body           <div> <input type="checkbox"/> Already approved by the Host Party            Date of approval: DD/MM/YYYY           </div> </div> <input type="checkbox"/> There was no change after the registration
<b>Means of validation</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- Determine whether there were any changes to the start date of the crediting period after the registration of the project, tick the relevant check box(es), and provide the information on the status and the date of approval by the Supervisory Body and the host Party, as appropriate;
- If the latest change to the start date of the crediting period has not yet been approved by the Supervisory Body, determine whether the change complies with the relevant requirements in the activity standard and were assessed in accordance with applicable validation requirements related to the changes to the start date of the crediting period in the validation and verification standard.

### E.3.4. Permanent changes – permanent changes to the registered monitoring plan, or permanent deviation of monitoring from the applied methodologies, standardized baselines or other methodological regulatory documents

<b>Approval status</b>	<input type="checkbox"/> There were changes after the registration <div> <input type="checkbox"/> Already approved by the Supervisory Body:            Date of approval: DD/MM/YYYY (Ref. number: XXXX)            Date of approval: DD/MM/YYYY (Ref. number: XXXX) (Add rows as needed)         </div> <div> <input type="checkbox"/> Not yet approved by the Supervisory Body         </div> <input type="checkbox"/> There was no change after the registration
<b>Changes to be validated</b>	>>
<b>Means of validation</b>	>>

<b>Findings</b>	>>
<b>Conclusions</b>	>>

- Determine whether there were any permanent changes to the registered monitoring plan, or permanent deviation of monitoring from the applied methodologies, standardized baselines or other methodological regulatory documents after the registration or the renewal of the crediting period of the project, tick the relevant check box(es), and provide the information on the status and the date of approval by the Supervisory Body, as appropriate;
- For all permanent changes to the registered monitoring plan, or permanent deviation of monitoring from the applied methodologies, standardized baselines or other methodological regulatory documents to be validated in conjunction with this verification, provide a brief summary of the changes or permanent deviation, and determine whether they comply with the relevant requirements in the activity standard and were assessed in accordance with applicable validation requirements related to the permanent changes to the registered monitoring plan, or permanent deviation of monitoring from the applied methodologies, standardized baselines or other methodological regulatory documents in the validation and verification standard.

### E.3.5. Permanent changes – changes to project design

<b>Approval status</b>	<input type="checkbox"/> There were changes after the registration <ul style="list-style-type: none"> <li><input type="checkbox"/> Already approved by the Supervisory Body:             <ul style="list-style-type: none"> <li>Date of approval: DD/MM/YYYY (Ref. number: XXXX)</li> <li>Date of approval: DD/MM/YYYY (Ref. number: XXXX) (Add rows as needed)</li> </ul> </li> <li><input type="checkbox"/> Not yet approved by the Supervisory Body             <ul style="list-style-type: none"> <li><input type="checkbox"/> Already approved by the Host Party (if applicable)</li> <li>Date of approval: DD/MM/YYYY</li> </ul> </li> </ul> <input type="checkbox"/> There was no change after the registration
<b>Changes to be validated</b>	>>
<b>Means of validation</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- Determine whether there were any changes to the project design after the registration or the renewal of the crediting period of the project, tick the relevant check box(es), and provide the information on the status and the date of approval by the Supervisory Body and the host Party, as appropriate;
- For all changes to the project design to be validated in conjunction with this verification, provide a brief summary of the changes and determine whether they comply with the relevant requirements in the activity standard and were assessed in accordance with applicable validation requirements related to the changes to project design in the validation and verification standard.

**E.3.6. Registration under or overlap with other crediting scheme**

<b>Approval status</b>	<input type="checkbox"/> Already approved by the Supervisory Body: Date of approval: DD/MM/YYYY (Ref. number: XXXX) Date of approval: DD/MM/YYYY (Ref. number: XXXX) ( <i>Add rows as needed</i> ) <input type="checkbox"/> Not yet approved by the Supervisory Body
<b>Changes to be validated</b>	>>
<b>Means of validation</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- *Determine whether the project, after its registration under the Article 6.4 mechanism, was also registered under, or covered by a programme, under any other international, regional, national, or subnational or sector-wide GHG mitigation crediting scheme, tick the relevant check box(es), and provide the information on the status and the date of approval by the Supervisory Body, as appropriate.*
- *If the project was registered under, or covered by a programme, under any other international, regional, national or subnational or sector-wide GHG mitigation crediting scheme, determine whether the project complies with the relevant requirements in the activity standard and was assessed in accordance with applicable validation requirements related to the overlapping with other crediting scheme in the validation and verification standard.*

**E.4. Compliance of the registered monitoring plan with the methodologies including applicable tools and standardized baselines**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- *Determine whether the monitoring plan complies with the applied methodologies, the applied standardized baselines, and the other applied methodological documents based on the actual implementation of the project, in accordance with the applicable verification requirements related to the compliance of the monitoring plan with the applied methodologies, the applied standardized baselines and the other applied methodological regulatory documents in the validation and verification standard.*

**E.5. Compliance of monitoring activities with the registered monitoring plan**

- *Determine in the tables E.5.1 to E.5.3 below whether the monitoring activities comply with the registered monitoring plan in accordance with the applicable verification requirements related to the compliance of monitoring activities with the registered monitoring plan in the validation and verification standard.*
- *Where the activity participants applied a sampling approach for the determination of data and parameters monitored, determine in section E.5.3 whether the sampling efforts and surveys comply with the validated sampling plan in accordance with the applicable verification requirements related to the compliance of monitoring activities with the registered monitoring plan in the validation and verification standard.*

**E.5.1. Data and parameters fixed ex ante or at renewal of crediting period**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.5.2. Data and parameters monitored**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.5.3. Implementation of sampling plan**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.6. Compliance with monitoring and addressing of reversals**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- *Determine whether the monitoring of reversals complies with the registered monitoring plan and risk mitigation plan and is in accordance with the applicable verification requirements related to the compliance of monitoring activities in the validation and verification standard and the relevant provisions of the “Standard: Requirements for activities involving removals under the Article 6.4 mechanism”.*
- *Determine whether the addressing of reversals, if any, complies with the requirements of the validation and verification standard and respective requirements of the applied methodologies and other applied methodological regulatory documents including the “Standard: Requirements for activities involving removals under the Article 6.4 mechanism”.*
- *Determine whether the risks of reversals were addressed, consistent with the risk mitigation measures as per risk mitigation plan and respective requirements of the “Standard: Requirements for activities involving removals under the Article 6.4 mechanism”.*

**E.7. Compliance with the calibration frequency requirements for measuring instruments**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- *For each item of data and parameter monitored as referred to in table E.5.2 above, determine whether the calibration was conducted at the frequency as specified by the registered monitoring plan, applied methodologies, and applied standardized baselines and the other applied methodological regulatory documents in accordance with the applicable verification requirements related to the compliance with the calibration frequency requirements for measuring instruments in the validation and verification standard.*

**E.8. Assessment of data and calculation of emission reductions or net GHG removals**

- *In sections E.8.1 to E.8.5 below, explain how the data and calculation of GHG emission reductions or net GHG removals were assessed in accordance with the applicable verification requirements related to the assessment of data and calculation of emission reductions or net removals in the validation and verification standard;*
- *In section E.8.6, if applicable, explain how the cause of any increase in the actual GHG emission reductions or net GHG removals in this monitoring period was assessed in accordance with the applicable verification requirements in the validation and verification standard.*

**E.8.1. Calculation of baseline GHG emissions or baseline net GHG removals**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.8.2. Project GHG emissions or actual net GHG removals**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.8.3. Leakage GHG emissions**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.8.4. Summary calculation of GHG emission reductions or net GHG removals**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.8.5. Comparison of actual GHG emission reductions or net GHG removals with estimates in registered PDD**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.8.6. Remarks on difference from estimated value in registered PDD**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

**E.9. Implementation of the monitoring of activity-level environmental and social indicators and activity-level SD indicators**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- *Determine whether the monitoring of environmental impacts, social impacts and sustainable development impacts and planned mitigation measures of negative impacts, if any, was conducted in accordance with the monitoring plan as per section D.1.3. of the PDD, including the Appendix 7 of the PDD (e.g. completed A6.4 Environmental and Social Management Plan Form) and Appendix 8 of the PDD (e.g. completed A6.4 Sustainable Development Impact Form) of these impacts of the project prepared in accordance with the “Article 6.4 sustainable development tool”, and determine whether the reported monitoring results were assessed to correspond to these impacts of the project.*
- *Determine whether the results of the monitoring comply with the requirements of the Article 6.4 sustainable development tool and the verification requirements as per the validation and verification standard.*
- *For registered Article 6.4 projects that successfully transitioned from the CDM, if, as per the respective requirements of the “Standard: Transition of CDM activities to the Article 6.4 mechanism”, the “Sustainable development co-benefits tool” developed under the CDM was applied, determine whether the monitoring of sustainable development co-benefits was conducted in accordance with provisions of the monitoring plan and “Sustainable development co-benefits tool” and determine whether the reported monitoring results were assessed to correspond to these sustainable development co-benefits.*

**E.10. Continuous engagement with stakeholders**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- *Determine whether comments were received, through the continuous engagement process or through the UNFCCC website, by the activity participants on the implementation or operation of the project after its registration from local stakeholders, Parties, other stakeholders and UNFCCC-admitted observer organizations, and determine whether the activity participants have addressed the issues raised in the comments as appropriate.*

**E.11. Avoidance of double issuance**

<b>Means of verification</b>	>>
<b>Findings</b>	>>
<b>Conclusions</b>	>>

- *Determine whether:*
  - The project is registered, or covered by a programme, under any other international, regional, national, or subnational GHG mitigation crediting scheme; and if so*
  - The activity participants have obtained a confirmation from the other crediting scheme that the same GHG emission reductions or net GHG removals being requested for issuance of A6.4ERs have not been or will not be credited under the other crediting scheme.*

**SECTION F. Internal quality control**

&gt;&gt;

- *Provide information on the quality control within the DOE's verification team and in the verification process;*

**SECTION G. Verification opinion**

&gt;&gt;

- *Provide a verification opinion that includes:*
  - A summary of the verification method, the process used and the verification criteria applied;*
  - A summary of the verification conclusions and on the verified amount of GHG emission reductions or net GHG removals achieved.*

**SECTION H. Certification statement**

&gt;&gt;

- *Provide a statement certifying, in writing, that the project achieved the verified amount of GHG emission reductions or net anthropogenic GHG removals during the specified monitoring period that would not have occurred in the absence of the project.*

**APPENDIX 1 – Abbreviations**

Abbreviation	Full text
>>	>>

- *List all the abbreviations used in this report.*

**APPENDIX 2 – Competence of team members and technical reviewers**

&gt;&gt;

- *Provide documentation to substantiate the required competence of the verification team members and the technical reviewers.*

**APPENDIX 3 – Documents reviewed or referenced**

No.	Author	Title	References to the document	Provider
>>	>>	>>	>>	>>

- *List all documents reviewed or referenced during the verification including Article 6.4 mechanism regulatory documents. For each document, indicate the following:*
  - Title: provide the title of the document. Including the version number, if applicable;*
  - Author: provide the name(s) of the author(s). Where the author(s) belong(s) to the organization(s) that issued the document, provide only the name(s) of the organization;*
  - References to the document: where applicable, provide the relevant reference to the document such as the version, dates of completion/publication and URL;*
  - Provider: choose one of the options to indicate who provided the document to the DOE for its review. Select 'Others' for documents that were provided by those other than the activity participants.*
