

A6.4-SBM023

Meeting report

Twenty-third meeting of the Article 6.4 mechanism Supervisory Body

Version 01.0

Date of meeting: 5 to 9 October 2026

Place of meeting: Bonn, Germany

United Nations
Framework Convention on
Climate Change

TABLE OF CONTENTS	Page
AGENDA ITEM 1. AGENDA AND MEETING ORGANIZATION	3
Agenda item 1.1. Opening.....	3
Agenda item 1.2. Adoption of the agenda.....	4
AGENDA ITEM 2. GOVERNANCE AND MANAGEMENT MATTERS	4

Agenda item 3.4. Registry	7
Agenda item 3.5. Policy matters.....	9
AGENDA ITEM 4. RULINGS	10
Agenda item 4.1. Accreditation	10
Agenda item 4.2. Registration	10
Agenda item 4.3. Issuance	10
Agenda item 4.4. Other rulings.....	10
AGENDA ITEM 5. RELATION WITH FORUMS AND OTHER STAKEHOLDERS.....	10
AGENDA ITEM 6. OTHER MATTERS	10
AGENDA ITEM 7. CONCLUSION OF THE MEETING	12
ANNEXES TO THE REPORT	13
LIST OF DOCUMENTS THAT HAVE BEEN EDITED OR ISSUED SINCE THE LAST MEETING	13

Agenda item 1. Agenda and meeting organization

Agenda item 1.1. Opening

1. Mr. Mkhuthazi Steleki, Chair of the Supervisory Body of the mechanism established by Article 6, paragraph 4, of the Paris Agreement (Article 6.4 mechanism), opened the meeting and asserted that the quorum requirement was met.
2. The table below shows the attendance of members and alternate members at this meeting.¹

Table. Attendance

Members	Presence	Alternates	Presence
Mr. Michel Ardohain ^b	In-person	Mr. Dexter Lee ^b	In-person
Mr. Eduardo Calvo ^a	In-person	Mr. German Obando Vargas ^a	In-person
Mr. Piotr Dombrowicki ^{a, 1}	In-person	Mr. Imre Bányász ^{a, 1}	Virtual
Mr. Gebru Jember Endalew ^a	In-person	Mr. Olivier Ishimwe ^a	In-person
Ms. Olga Gassan-zade ^{b, 2, 3}	In-person	VACANT ^b	
Ms. Eunhae Jeong ^{b, 4}	Virtual	Mr. Mohammed AlNahas ^{b, 5}	Virtual
Mr. Richard Muyungi ^b	Virtual	Ms. Mominata Elola Compaore ^b	In-person
Mr. Shao Hua Ng ^b	In-person	Ms. Edalmi Pinelo of Belize ^{b, 6}	In-person
Ms. Marina Moreira Costa Pittella ^b	Virtual	Ms. Adriana Gutierrez ^b	In-person
Ms. Jacqui Ruesga ^a	Absent	Mr. Simon Fellermeier ^a	In-person
Mr. Mkhuthazi Steleki ^a	In-person	Mr. Alick Muvundika ^a	In-person
Mr. Arif Goheer ^{a, 7}	Absent	Mr. Kentaro Takahashi ^a	In-person

Members and respective alternate members are listed in alphabetical order by member's surname.

^a Term: 2 years, i.e. ending prior to the first meeting in 2027.

^b Term: 2 years, i.e. ending prior to the first meeting in 2028.

¹ Nomination pending from CMA² 6 (Baku). Current member remains in office until nomination is received.

² Nomination pending from CMA 7 (Belém). Current member remains in office until nomination is received.

³ Nomination pending from CMA 5 (Dubai). Current member remains in office until nomination is received.

⁴ The Chair of the Asia Pacific Group (APG) informed the secretariat on 22 November 2025 that APG has agreed on a seat sharing arrangement for the position of member as follows: Ms. Eunhae Jeong (Republic of Korea) in 2026 and Mr. Mohammed AlNahas (Kingdom of Saudi Arabia) in 2027.

¹ For detailed information on nominations and agreements made within each regional group, please refer to the United Nations Framework Convention on Climate Change (UNFCCC) election and membership page, available at: <https://unfccc.int/process-and-meetings/bodies/election-and-membership>.

² Conference of the Parties serving as the meeting of the Parties to the Paris Agreement.

- ⁵ The APG informed the secretariat on 22 November 2025 that APG has agreed on a seat-sharing arrangement for the position of alternate member as follows: Mr. Mohammed AlNahas (Kingdom of Saudi Arabia) in 2026 and Mr. Ahmed Masoon Hassan (Maldives) in 2027.
- ⁶ Mr. Sumeet Betancourt (Belize) resigned effective from 6 September 2026 and was replaced by Ms. Edalmi Pinelo (Belize) effective from 10 September 2026.
- ⁷ Mr. Zulfiqar Younas (Pakistan), a member nominated under the Asia Pacific States seat, resigned, effective from 16 February 2026, and was replaced by Ms. Khalida Bashir (Pakistan), who subsequently resigned, effective from 18 May 2026, and was replaced by Mr. Arif Goheer (Pakistan), effective from 16 June 2026.

Agenda item 1.2. Adoption of the agenda

3. According to paragraph 46 of the Rules of procedure, the Supervisory Body received two requests for additions to the agenda for its twenty-third meeting. The agenda of the meeting, which was published as document A6.4-SBM023-AA³, was adopted with the following additions:
- (a) Environmental and social impact assessment requirements for transitioning clean development mechanism (CDM) activities to ensure consistency between the transition standard and the Article 6.4 sustainable development tool; and
 - (b) Clarifications from the Accreditation Expert Panel on the issues related to conflict of interest and use of external experts.

Agenda item 2. Governance and management matters

Agenda item 2.1. Membership issues

4. Members and alternate members of the Supervisory Body made available statements of actual, potential or perceived conflicts of interest with respect to the issues on the agenda of this meeting, as reflected on the UNFCCC website.⁴

Agenda item 2.2. Strategic planning and direction

5. The Supervisory Body considered and agreed on its annual report to the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement at its eighth session (CMA 8) and requested the secretariat to finalize the report, in consultation with the Chair and Vice-Chair, incorporating the outcomes of this meeting.
6. The Supervisory Body took note of the update on carbon markets and carbon crediting standards.

Agenda item 2.3. Performance management

7. The Supervisory Body took note of the financial update on the 2026–2027 Business and Resource Allocation Plan, including the projections of income and expenditure for 2027. The Supervisory Body requested the secretariat to continue to monitor income and expenditure and agreed to consider, at every meeting in 2027, the financial outlook for 2027 and any contingency measures that may be required to address a potential funding

³ See <https://unfccc.int/sites/default/files/resource/A6.4-SBM023-AA.pdf>

⁴ Twenty-third meeting of the Article 6.4 Supervisory Body, available at <https://unfccc.int/event/Supervisory-Body-23>

shortfall by the end of the year and in 2028, with a view to informing the preparation of the Business and Resource Allocation Plan 2028–2029 to be adopted at its June meeting in 2027.

8. The Supervisory Body also requested the secretariat to expand fundraising efforts to alternative sources of funding and to provide an update on progress at its next meeting.
9. The Supervisory Body adopted its updated workplan for 2026, as contained in [annex 1](#) to this report.
10. The Supervisory Body agreed to its preliminary workplan for 2027, as contained in [annex 2](#) to this report.
11. The Supervisory Body adopted the updated workplan of the Methodological Expert Panel (MEP) for 2026, as contained in [annex 3](#) to this report.

Agenda item 2.4. Matters related to the Supervisory Body and its support structure

12. The Supervisory Body took note of the report of the ninth meeting of the AEP, held on 2 and 3 September 2026, including its work on matters related to accreditation.
13. The Supervisory Body took note of the report of the sixteenth meeting of the MEP, held from 7 to 11 September 2026, including its work on methodologies, removals and revisions to CDM methodologies and methodological tools.
14. The Supervisory Body further requested the secretariat to provide periodic updates on the status of consideration of proposed mechanism methodologies and improve the public visibility of their latest status information.
15. The Supervisory Body took note of the information on actions implemented by the secretariat in support of the MEP.

Agenda item 2.5. Designated national authorities

16. The Supervisory Body took note that 130 designated national authorities had been established as of 21 September 2026 and that 70 countries had submitted information on the fulfilment of the host Party participation requirements.

Agenda item 3. Regulatory and procedural matters

Agenda item 3.1. Governance

17. The Supervisory Body considered an update on the implementation of the share of proceeds for adaptation and took note that the Adaptation Fund Board is expected to consider the identified complexities and possible solutions at its forty-seventh meeting and to provide feedback thereafter.

Agenda item 3.2. Accreditation

18. The Supervisory Body considered the clarifications provided in the AEP 009 reports and agreed to continue its deliberations in its future meeting taking into account further clarification by the AEP.

Agenda item 3.3. Activity cycle

19. The Supervisory Body adopted the revision to the “Procedure: Transition of CDM activities to the Article 6.4 mechanism”, as contained in [annex 4](#) to this report. The revision extends the deadline for submission of additional documentation for transitioning CDM afforestation and reforestation (A/R) activities to within one year from the adoption by the Supervisory Body of the “Methodological tool: Reversal risk assessment” applicable to A/R activities; the requirements that enable project participants to comply with elements of the “Standard: Requirements for activities involving removals under the Article 6.4 mechanism”; and the revision of the “Tool: Article 6.4 sustainable development tool” so that it is applicable to activities involving removals. The Supervisory Body also requested the MEP to continue its work on the “Methodological tool: Reversal risk assessment” for application to A/R activities and to develop requirements that enable project participants of transitioning CDM A/R activities to comply with elements of the “Standard: Requirements for activities involving removals under the Article 6.4 mechanism”, subject to prioritization of the methodological products in the MEP workplan. The Supervisory Body further requested the secretariat to continue its work on the revision of the Article 6.4 Sustainable Development tool applicable to activities involving removals.
20. The Supervisory Body considered and adopted revisions to the “Procedure: Article 6.4 activity cycle procedure for projects”, “Standard: Article 6.4 activity standard for projects”, and the “Standard: Article 6.4 validation and verification standard for projects”, as contained in [annex 5](#), [annex 6](#) and [annex 7](#) to this report. The revisions incorporate relevant elements of the “Information note: Elements related to non-permanence and reversals for inclusion in relevant regulatory documents” and include elements from the newly adopted methodological standards: “Standard: Addressing non-permanence and reversals in mechanism methodologies” and the “Standard: Addressing leakage in mechanism methodologies”. Furthermore, the revisions introduce an exception for transitioned CDM projects allowing the submission of issuance requests within two years from the renewal of the project’s crediting period.
21. The Supervisory Body agreed that the exemption from the deadline for submission of issuance for transitioned CDM projects referred to in paragraph 19 above is extended to transitioned CDM programmes of activities (PoAs) and that the extension shall take effect immediately. The Supervisory Body requested the secretariat to reflect this decision in the next revision of the relevant PoA activity cycle regulatory documents.
22. The Supervisory Body considered and adopted the revision of the “Standard: Transition of CDM activities to the Article 6.4 mechanism”, as contained in [annex 8](#) to this report. The revision clarifies the mandatory application of the “Tool: Article 6.4 sustainable development tool” for transitioning CDM activities.
23. The Supervisory Body deferred its consideration on the information note “Time limits on post-issuance authorization of mitigation contribution A6.4ERs (Article 6.4 Emissions Reductions)” and agreed to continue its consideration at its next meeting.
24. The Supervisory Body deferred its consideration on the information note “Summary of stakeholder inputs received on the draft version 02.0 of the Article 6.4 sustainable development tool” and of the expected budget cost for the potential development of web-based forms and agreed to continue its consideration at its next meeting, alongside the revision of Article 6.4 Sustainable Development tool.

Agenda item 3.4. Methodologies

25. The Supervisory Body requested the MEP to develop methodological tool(s) for having a common approach to calculating activity, baseline and leakage emissions from hydrogen production, as appropriate.
26. The Supervisory Body requested the MEP to revise the CDM A/R methodologies and related methodological tools to enable the transition of CDM A/R projects and programme of activities to the Article 6.4 mechanism, subject to the prioritization of the methodological products in MEP workplan.
27. The Supervisory Body considered and adopted the “A6.4-AMM-004: Mechanism methodology: Cooking energy transitions”, as contained in annex 9 to this report, and requested the MEP to expand its scope to institutional users.
28. The Supervisory Body considered the concept note on applying methodological standards and tools to programmes of activities and adopted the revision to the following methodological standards and tools, as contained in annexes 10 to 18 to this report:
 - (a) Standard: Demonstration of additionality in mechanism methodologies (A6.4 STAN-METH-003);
 - (b) Standard: Setting the baseline in mechanism methodologies (A6.4 STAN-METH-004);
 - (c) Standard: Addressing leakage in mechanism methodologies (A6.4 STAN-METH-005);
 - (d) Standard: Addressing suppressed demand in mechanism methodologies (A6.4 STAN-METH-006);
 - (e) Standard: Addressing non-permanence and reversals in mechanism methodologies (A6.4 STAN-METH-007);
 - (f) Methodological Tool: Common practice analysis (A6.4-AMT-001);
 - (g) Methodological Tool: Investment analysis (A6.4-AMT-002)
 - (h) Methodological Tool: Emissions from electricity generation and consumption (A6.4-AMT-007); and
 - (i) Methodological Tool: Analysis of lock-in risk (A6.4-AMT-008).
29. The Supervisory Body requested the secretariat to update the “Glossary: Article 6.4 mechanism terms” taking into account the definitions referenced in paragraph 11 of the cover note to the concept note as referred to in paragraph 28 above.
30. Further, the Supervisory Body, while considering the above-mentioned concept note and the revised methodological standards and tools referred to in paragraph 28 above, agreed to request the secretariat to revise the following regulatory documents, as appropriate to incorporate the changes made to the revised methodological standards and tools:
 - (a) “Standard: Article 6.4 activity standard for programmes of activities” (A6.4-STAN-AC-004); and “Procedure: Activity cycle procedure for Article 6.4 programme of activities” (A6.4-PROC-AC-003), and to adapt for Article 6.4 PoAs the elements

of the “Information note: Elements related to non-permanence and reversals for inclusion in relevant regulatory documents” (A6.4-INFO-METH 002) that apply to project-level activity participants; and

- (b) “Standard: Article 6.4 validation and verification standard for programmes of activities” (A6.4-STAN-AC-005).
31. Further, following the mandate from the SBM 021 meeting report⁵, the Supervisory Body took note of the work that the MEP will initiate to revise the following methodologies and methodological tools to make them applicable to PoAs as contained in annex 3 to this report:
- (a) Mechanism methodology: Flaring or use of landfill gas (A6.4-AMM-001);⁶
 - (b) Mechanism methodology: N₂O abatement from nitric acid production (A6.4-AMM-002);⁷
 - (c) Mechanism methodology: Electricity generation from renewable sources connected to an electricity system (A6.4-AMM-003);⁸
 - (d) Methodological tool: Emissions from solid waste disposal site (A6.4-AMT-003);⁹
 - (e) Methodological tool: Project emissions from flaring (A6.4-AMT-004);¹⁰
 - (f) Methodological tool: Mass flow of a greenhouse gas in a gaseous stream (A6.4-AMT-005);¹¹ and
 - (g) Methodological tool: Determination of the technical lifetime of equipment (A6.4-AMT-006).¹²

-
32. The Supervisory Body considered and adopted the “A6.4-AMM-005: Mechanism methodology: Energy efficiency measures in household cooking”, as contained in annex 19 to this report. In adopting the methodology, the Supervisory Body granted an exemption from the downward adjustment in the second and subsequent calendar years.
 33. While considering the two methodologies referred in paragraph 27 and 32, the Supervisory Body requested the MEP to explore under what conditions lower uncertainty ranges can be used where the activity participants wish to use alternative or measured values instead of the proposed default values.
 34. The Supervisory Body also considered the information note “Analysis of matters raised by the Supervisory Body at its 22nd meeting on the “Draft mechanism methodology: Energy efficiency measures in household cooking””, as contained in annex 4 to the MEP 016 meeting report, when considering the recommendation on the “Draft mechanism methodology: Energy efficiency measures in household cooking” and “Draft mechanism methodology: Cooking energy transitions” referred in paragraph 27 and 32 above.
 35. The Supervisory Body considered and adopted the “A6.4-AMT-010: Methodological tool: Sampling and surveys” as contained in annex 20 to this report.
 36. The Supervisory Body agreed on the information note “Sampling and surveys requirements for designated operational entities” as contained in annex 21 to this report. The Supervisory Body requested the secretariat to incorporate the requirements into “Standard: validation and verification standard for projects” (A6.4-STAN-AC-003) and “Standard: Article 6.4 validation and verification standard for programmes of activities” (A6.4-STAN-AC-005).
 37. The Supervisory Body considered and adopted the “A6.4-AMT-011: Methodological tool: Reversal risk assessment”, as contained in annex 22 to this report, and requested the MEP to monitor relevant scientific and technical developments and should credible new evidence arise, recommend a revision to the methodological tool, including the natural reversal risk factors, the human-induced reversal risk factors and the human-induced reversal risk reduction factors, with respect to activities that reduce non-renewable biomass consumption.
 38. The Supervisory Body considered the “Concept note: Reversal Risk Buffer Pool Account contributions of authorized Article 6.4 emission reductions, including potential implications for accounting of nationally determined contributions” and acknowledged the complexity of inconsistent accounting implications of the Reversal Risk Buffer Pool approach to addressing reversals and how this may limit the effective remediation of reversals in respect of different A6.4ER types.
 39. The Supervisory Body requested the secretariat to prepare a concept note containing detailed options to address the issues identified in the concept note referred to in paragraph 38 above, including identifying:
 - (a) Possible amendments to standards and procedures to improve their alignment with the NDC accounting and accounting provisions of the guidance on cooperative approaches referred to in Article 6, paragraph 2;
 - (b) Other appropriate measures and procedures that may provide suitable alternative means to remediate reversals maintaining environmental integrity and, ensuring

consistency with accounting provisions, while providing equitable outcomes for host Parties; and

- (c) Any recommendations to the CMA for guidance, if any, on the implementation of the Reversal Risk Buffer Pool Account or any proposed measures and procedures.
 - (d) Possible options for addressing A6.4ERs remaining in the reversal risk buffer pool account after termination of the post crediting monitoring period, and their respective implications.
40. The Supervisory Body also requested the secretariat to seek inputs on the concept note referred to in paragraph 39 from the MEP.
41. The Supervisory Body further requested the MEP to take into account the complexity of inconsistent accounting implications in its work on the “Concept note: Options for implementing the provisions in paragraph 62 of the “Standard: Requirements for activities involving removals under the Article 6.4 mechanism”, to ensure that options are aligned to the NDC accounting and accounting provisions of the guidance on cooperative approaches referred to in Article 6, paragraph 2.

Agenda item 3.5. Registry

42. The Supervisory Body took note that no regulatory or procedural matters related to the registry were considered at this meeting.

Agenda item 3.6. Policy matters

43. The Supervisory Body took note that no policy matters were considered at this meeting.

Agenda item 4. Rulings

Agenda item 4.1. Accreditation

44. The Supervisory Body noted that no recommendations from the AEP were considered at this meeting.

Agenda item 4.2. Registration

- The Supervisory Body noted that no transition requests were considered at this meeting.

Agenda item 4.3. Issuance

- The Supervisory Body noted that no issuance rulings were considered at this meeting.

Agenda item 4.4. Other rulings

47. The Supervisory Body noted that no other rulings were considered at this meeting.

Agenda item 5. Relation with forums and other stakeholders

48. The Supervisory Body took note of the secretariat’s update on progress in implementing the capacity-building programme for the Article 6.4 mechanism during the period

- May-October 2026, covering knowledge products, training and direct country support, including through the regional collaboration centres. During the reporting period, workshops and other capacity-building activities engaged more than 80 Parties, while more than 15 published knowledge products reached approximately 4,000 unique users.
49. The Supervisory Body also took note of support for the transition of CDM activities, including online clinics and associated guidance to assist project participants in completing the documentation required by 31 December 2026. It further noted ongoing work to expand the Article 6 Academy, make learning materials available in French and Spanish during 2026, and publish additional interactive tools before the 31st meeting of the Conference of the Parties (COP 31) to support understanding and application of the mechanism's requirements.
50. The Supervisory Body took note of preparations for the side event planned for the next session of the Conference of the Parties.
51. The Supervisory Body interacted with registered observers during the meeting. The observers presented views on items on the agenda. The Supervisory Body took note of the inputs and thanked the observers for their interaction. The list of registered observers to this meeting is contained in [annex 23](#) to this report
52. The Supervisory Body interacted with the Chair of the Designated Operational Entities (DOEs) and Applicant Entities (AEs) Coordination Forum, took note of the Forum's input and thanked the Chair for the interaction.
53. The Supervisory Body interacted with the co-chair of Article 6.4 Designated National Authorities (DNA) Forum, took note of the Forum's input and thanked the co-chair for the interaction.
54. The Supervisory Body considered the letters submitted by stakeholders and agreed to respond in accordance with the "Procedure: Direct communication with stakeholders".
55. The Supervisory Body, in response to a letter from a stakeholder, took note with concern of the challenges encountered by some activity participants in obtaining the confirmation from another crediting scheme required under paragraph 56(a)(ii) of the "Procedure: Transition of CDM activities to the Article 6.4 mechanism" that the same GHG emission reductions or net GHG removals being requested for issuance as A6.4ERs have not been credited and have not been requested for crediting under the other crediting scheme, which has delayed or prevented the finalization of requests for issuance.
56. In considering the matter referred to in paragraph 55 above, the Supervisory Body noted secretariat's continuing engagement with the relevant crediting scheme and stressed the importance of timely and effective cooperation in safeguarding the environmental integrity of the mechanism and ensuring the smooth implementation of the transition procedure.
57. The Supervisory Body agreed that, for the purpose described in paragraph 56 above, activity participants may alternatively demonstrate the avoidance of double issuance by submitting a self-declaration. The self-declaration must be duly verified by an Article 6.4 designated operational entity, confirming that the same GHG emission reductions or net GHG removals requested for issuance as A6.4ERs have neither been credited nor requested for crediting under another crediting scheme.

58. For provisional issuance requests, which do not require verification by a designated operational entity, the activity participant shall submit the self-declaration referred to in paragraph 57 above directly to the secretariat. The secretariat shall publish the self-declaration on the UNFCCC website and notify the relevant crediting scheme.
59. The self-declaration referred to in paragraph 57 above shall be considered unchallenged if the relevant crediting scheme does not submit evidence contradicting it within 30 days of receiving the notification referred to in paragraph 58 above. If an objection is received within that period, the submission for finalization of the provisional request for issuance shall be placed on hold and referred to the Supervisory Body for consideration at its next meeting.
60. The Supervisory Body further requested the secretariat to revise and publish the self-declaration form as soon as possible.
61. The Supervisory Body also requested the secretariat to revise the relevant regulatory documents to implement the changes agreed in paragraph 57 and 58 for its consideration and adoption at a future meeting.
62. In relation to the communications considered in paragraph 54 above, the Supervisory Body requested the secretariat to conduct an analysis and assess whether any changes to the relevant regulatory documents are needed in relation to the timing of submitting the PDD for global stakeholder consultation and of conducting the local stakeholder consultation. The Supervisory Body requested the secretariat to report back at a future meeting.
63. The Supervisory Body considered public comments received on the documentation for this meeting, which were made publicly available on the UNFCCC website, and thanked stakeholders for their comments.

Agenda item 6. Other matters

64. The Supervisory Body agreed on its tentative calendar of meetings for 2027 as contained in annex 24 to this meeting report.
65. The Supervisory Body agreed to the provisional agenda for its twenty-fourth meeting, as contained in annex 25 to this meeting report.

Agenda item 7. Conclusion of the meeting

66. The Supervisory Body expressed its appreciation to the outgoing Chair, Mr. Mkhuthazi Steleki and Vice Chair Ms. Jacqui Ruesga, for their leadership and dedication in chairing the meetings this year. The Supervisory Body also thanked all outgoing members and alternate members for their hard work and dedication during their tenure.
67. The Chair summarized the main conclusions.
68. The Supervisory Body adopted the report of its twenty-third meeting.
69. The proceedings of the open sessions of the meeting can be accessed via on-demand broadcast.

Annexes to the report

- Annex 1 - Information note: Workplan of the Supervisory Body 2026 (version 03.0)
- Annex 2 - Information note: Preliminary workplan of the Supervisory Body for 2027 (version 01.0)
- Annex 3 - Information note: Workplan of the Methodological Expert Panel 2026 (version 04.0)
- Annex 4 - Procedure: Transition of CDM activities to the Article 6.4 mechanism (version 08.0)
- Annex 5 - Procedure: Article 6.4 activity cycle procedure for projects (version 04.0)
- Annex 6 - Standard: Article 6.4 activity standard for projects (version 04.0)
- Annex 7 - Standard: Article 6.4 validation and verification standard for projects (version 04.0)
- Annex 8 - Standard: Transition of CDM activities to the Article 6.4 mechanism (version 06.0)
- Annex 9 - A6.4-AMM-004: Mechanism Methodology: Cooking energy transitions (version 01.0)
- Annex 10 - Standard: Demonstration of additionality in mechanism methodologies (version 03.0)
- Annex 11 - Standard: Setting the baseline in mechanism methodologies (version 02.0)
- Annex 12 - Standard: Addressing leakage in mechanism methodologies (version 03.0)
- Annex 13 - Standard: Addressing suppressed demand in mechanism methodologies (version 03.0)
- Annex 14 - Standard: Addressing non-permanence and reversals in mechanism methodologies (version 03.0)
- Annex 15 - A6.4-AMT-001: Methodological Tool: Common practice analysis (version 03.0)
- Annex 16 - A6.4-AMT-002: Methodological Tool: Investment analysis (version 03.0)
- Annex 17 - A6.4-AMT-008: Methodological Tool: Analysis of lock-in risk (version 03.0)
- Annex 18 - A6.4-AMT-007: Methodological Tool: Emissions from electricity generation and consumption (version 03.0)

- Annex 19 - A6.4-AMM-005: Mechanism methodology: Energy efficiency measures in household cooking (version 01.0)
- Annex 20 - A6.4-AMT-010: Methodological tool: Sampling and surveys (version 01.0)
- Annex 21 - Information note: Sampling and surveys requirements for designated operational entities (version 01.0)
- Annex 22 - A6.4-AMT-011: Methodological tool: Reversal risk assessment (version 01.0)
- Annex 23 - Information note: List of registered observers at the twenty-third meeting of the Supervisory Body (version 01.0)
- Annex 24 - Tentative calendar of meetings of the Supervisory Body for 2027 (version 01.0)
- Annex 25 - Provisional agenda: Twenty-fourth meeting of the Supervisory Body (version 01.0)

Annexes to the report List of documents that have been edited or issued since the last meeting

This list sets out the regulatory documents issued or revised since the last meeting (SBM 022), in accordance with the “Decision and Documentation Framework” ([A6.4-INFO-GOV-005](#)), to enhance transparency and facilitate access to regulatory information under the Article 6.4 mechanism.

Users are encouraged to consult the [Article 6.4 rules and regulations](#) webpage to ensure that they are using the most recent versions of the documents, particularly forms required for submission processes. For ease of reference, click on each type of document link below to access these and other regulatory documents.

Regular reports to the Supervisory Body

- Status of Article 6.4 mechanism resource allocation plan 2026 – 2027 implementation (1 January – 30 June 2026) (version 01.0)

Forms

- A6.4-FORM-ACCR-001: Application for accreditation (version 03.1)
- A6.4-FORM-ACCR-008: Desk review form (version 02.2)
- A6.4-FORM-REGS-001: Article 6.4 mechanism registry Party engagement form (version 03.0)
