

HOST PARTY PARTICIPATION REQUIREMENTS FOR ARTICLE 6.4 MECHANISM (Version 01.0)

SECTION 1: GENERAL INFORMATION

Country:	TOGO
Institution name:	MINISTRY OF ENVIRONMENT AND FORESTRY RESOURCES/ENVIRONMENTAL OFFICE
Institution address:	<i>B.P. : 4825 - Tél : (228) 22 21 33 21 / 22 21 51 97 - Fax (228) 22 21 03 33 / 22 21 51 97 247, Rue des Nimes - E-mail : denv_togo@yahoo.fr</i>
Representative of the institution:	EDOU KOMLAN
E-mail address of the representative:	komlanedouk@gmail.com
Phone number of the representative:	+228 90 92 40 80

ADDITIONAL REPRESENTATIVE (OPTIONAL)

Additional representative of the institution:	YAWOU MERY
E-mail address of the additional representative:	ymary69@yahoo.fr
Phone number of the additional representative:	+228 90 14 87 44

SECTION 2: PARTICIPATION RESPONSIBILITIES

Is your country a Party to the Paris Agreement?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Has your country prepared, communicated, and is it maintaining a Nationally Determined Contribution (NDC) in accordance with Article 4, paragraph 2 of the Paris Agreement?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Has your country designated a Designated National Authority (DNA) for the Article 6.4 mechanism and communicated that designation to the UNFCCC secretariat?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Please describe how your country's participation in the Article 6.4 mechanism contributes to sustainable development, while acknowledging that the consideration of sustainable development is a national prerogative.

Togo is among the countries that stand out in the implementation of the Sustainable Development Goals (SDGs). Of the 17 Goals, 06 received a real boost between 2015 and 2017. The SDGs cover the full range of development challenges linked to climate, biodiversity, energy, water, poverty and more.

Togo has made inroads in implementing goals 7, 9, 12; 13, 15. Thus, sustainable development criteria for carbon credit projects will be defined on the basis of development indicators at national level.

Please provide detailed information on the types of activities under Article 6, paragraph 4 (A6.4 activities) that your country would consider approving pursuant to chapter V.C (Approval and Authorization) of the Rules, Modalities and Procedures (RMPs).

Additionally, explain how these activities, and any associated emission reductions or removals, would contribute to the achievement of your country's NDC, if applicable, its long-term low GHG emission development strategy, if it has submitted one, and the long-term goals of the Paris Agreement?

The activities to be covered by article 6.4 concern the socio-economic development sectors identified in the nationally determined contributions

Forestry and other land uses

- restoration of degraded land ;
- restoration of degraded forest landscapes ;
- sustainable management of agroforestry parks ;
- restoration of agroforests;
- sustainable management of community and sacred forests;
- protection and conservation of biodiversity, forests and protected areas;
- urban and peri-urban forestry ;
- rehabilitation and reforestation of mining sites and other road infrastructure rights-of-way;
- establishment of forest plantations.

Waste

- waste-to-energy conversion;
- biological treatment of waste ;
- composting of urban waste;
- innovative waste-to-energy technologies.

Agriculture

- promotion of sustainable agricultural production methods;
- development of agricultural growth poles integrating the REDD+ dimension;
- efficient management of livestock and transhumance;
- development of lowlands for climate-resilient rice cultivation;

- development of forage areas.

Energy

- promotion of electrification by photovoltaic solar systems ;
- promotion of gas and liquefied petroleum in urban and rural areas;
- promotion of photovoltaic solar power plants;
- promotion of improved biomass and liquefied petroleum gas stoves;
- hydroelectric development;
- improving the efficiency of traditional energy processing and combustion;
- sustainable wood energy production.

Transport

- promotion of green mobility ;
- promotion of electric mobility;
- improving and promoting low-carbon modes of transport;
- promoting the use of new vehicles;
- promotion of intermodal transport;
- promotion of public transport (train and metro).

Industrial processes and product use

- promotion of fluorinated gas recovery equipment;
- promoting the use of approved refrigerants;
- promoting fluorinated gas treatment and recycling processes;
- development of carbon dioxide capture and storage technologies for industrial units

Please provide any additional information that the host Party may deem necessary.

As part of the implementation of the NDCs, Togo intends to use the ITMOs to help achieve its objectives. Therefore, article 6.4
