

A6.4-SBM015-AA-A03

Information note

Draft workplan of the Methodological Expert Panel 2025

Version 01.0

DRAFT

United Nations
Framework Convention on
Climate Change

1. Introduction

1. The support structure of the Supervisory Body (SBM) of the Article 6.4 mechanism consisting of the Accreditation Expert Panel (AEP) and Methodological Expert Panel (MEP), is established under the Supervisory Body to assist in the performance of its functions related to the accreditation system and methodological issues concerning Article 6.4 mechanism activities.
2. The mandates of the panels are determined by their terms of reference, the rules of procedure of the Supervisory Body, and additional guidance provided by the Supervisory Body.
3. The 2025 workplan of the MEP outlines the expected tasks / products for consideration at each meeting throughout the year in support of the work of the Supervisory Body. It has been developed within the context of the Article 6.4 mechanism's two-year business and resource allocation plan 2024–2025¹ and the "Information note: Further work on the methodological products"² as considered by the Supervisory Body at its 15th meeting (SBM 015). The workplan includes routine operational activities as well as mandates from the Supervisory Body.

DRAFT

¹ Information note: Article 6.4 mechanism two-year business and resource allocation plan 2024–2025 (A6.4-INFO-GOV-007). Available at <https://unfccc.int/sites/default/files/resource/A6.4-INFO-GOV-007.pdf>

² This information note is considered at SBM 015 meeting, as annex 8 to the SBM 015 meeting's annotations, available at <https://unfccc.int/event/Supervisory-Body-15>.

2. Methodological Expert Panel workplan 2025

Table 1. Methodological Expert Panel workplan 2025

Activity	Product	MEP 004	MEP 005	MEP 006	MEP 007	SBM consideration	Comments and mandates
Work related to requirements for methodologies	Standard: Setting the baseline in mechanism methodologies (without the requirements for the standardized baselines)	Recommendation				SBM 015	SBM 010 meeting report paragraph 33 and annex 5 ³ .
	Standard: Setting the baseline in mechanism methodologies (with the requirements for the standardized baselines)		Input	Input + Launch call for public input for the requirements for the standardized baselines	Input / Recommendation	SBM 018	
	Standard: Suppressed demand	Input	Input	Input + Launch call for public input	Input / Recommendation	SBM 018	
	Standard: Demonstration of additionality in mechanism methodologies (without the requirements for investment analysis)	Recommendation				SBM 015	

³ Information note: Further work on the methodological products for the Article 6.4 mechanism (A6.4-INFO-METH-001). Available at <https://unfccc.int/sites/default/files/resource/A6.4-INFO-METH-001.pdf>

Activity	Product	MEP 004	MEP 005	MEP 006	MEP 007	SBM consideration	Comments and mandates
Work related to requirements for methodologies (<i>cont.</i>)	Standard: Demonstration of additionality in mechanism methodologies (with the requirements for investment analysis)	Input	Input+ Launch call for public input on the requirements for investment analysis	Recommendation		SBM 017	
	Standard: Addressing leakage in mechanism methodologies	Input + Launch call for public input	Input / Recommendation	Recommendation		SBM 016 SBM 017	
	Concept note: Large-scale crediting programmes		Input	Input+ Launch call for public input	Recommendation	SBM 018	
	Concept note: Taking account of policies and measures, and relevant circumstances		Input	Input+ Launch call for public input	Recommendation	SBM 018	
	Concept note: Transboundary activities		Input	Input+ Launch call for public input	Recommendation	SBM 018	
Work related to removals	Concept note: Applicability of removal guidance to emission reductions activities and vice versa	Input	Input	Input + Launch call for public input	Recommendation	SBM 017 SBM 018	SBM 010 meeting report paragraph 33 and annex 5 (A6.4-SB-10-A05 ⁴).

⁴ See footnote 3 above.

Activity	Product	MEP 004	MEP 005	MEP 006	MEP 007	SBM consideration	Comments and mandates
Work related to removals (<i>cont.</i>)	Standard: Addressing non-permanence / reversals including: a. Post-crediting period monitoring, reporting, and remediation of reversals, post-reversal action, and Host Party roles; b. Late, incomplete or missing monitoring report submissions and treatment of activities for which a reversal results in removals level that falls below baseline; c. Reversal risk assessment; and d. Avoidable and unavoidable reversals, and reversal compensation	Input	Input+ Launch call for public input	Input / Recommendation	Recommendation	SBM 017 SBM 018	

Activity	Product	MEP 004	MEP 005	MEP 006	MEP 007	SBM consideration	Comments and mandates
Work on revision of CDM methodologies / methodological tools / Standard / Guidelines	ACM0002: Grid connected electricity generation from renewable sources AMS-I.D.: Grid connected renewable electricity generation	Input	Input + Launch call for public input	Recommendation		SBM 017	
	Tool to calculate emission factor for an electricity system	Input	Input + Launch call for public input	Recommendation		SBM 017	
	AMS-I.C.: Thermal energy production with or without electricity		Input	Input + Launch call for public input	Recommendation	SBM 018	
	ACM0001: Flaring or use of landfill gas	Input	Input + Launch call for public input	Recommendation		SBM 017	
	AMS-II.G.: Energy efficiency measures in thermal applications of non-renewable biomass; AMS-I.E: Switch from non-renewable biomass for thermal applications by the user	Input	Input + Launch call for public input	Recommendation		SBM 017	

Activity	Product	MEP 004	MEP 005	MEP 006	MEP 007	SBM consideration	Comments and mandates
Work on revision of CDM methodologies / methodological tools / Standard / Guidelines (cont.)	Tool to calculate project or leakage CO2 emissions from fossil fuel combustion	Input	Input + Launch call for public input	Recommendation		SBM 017	
	Tool for Baseline, project and/or leakage emissions from electricity consumption and monitoring of electricity generation		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Tool for Project and leakage emissions from biomass		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Tool to calculate remaining lifetime of equipment		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Tool on Emissions from solid waste disposal sites		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Tool on Project emissions from flaring		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Tool for Determining the baseline efficiency of thermal or electric energy generation systems		Input	Input + Launch call for public input	Recommendation	SBM 018	

Activity	Product	MEP 004	MEP 005	MEP 006	MEP 007	SBM consideration	Comments and mandates
Work on revision of CDM methodologies / methodological tools / Standard / Guidelines (cont.)	Tool on Project and leakage emissions from transportation of freight		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Tool to determine the mass flow of a greenhouse gas in a gaseous stream		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Tool for calculation of the fraction of non-renewable biomass (building on work conducted by CDM EB to review fNRB values and the calculation method)	Input	Input + Launch call for public input	Recommendation		SBM 017	
	Tool for Default values for common parameters		Input	Input + Launch call for public input	Recommendation	SBM 018	
	Standard: Sampling and Surveys for CDM project activities and programmes of activities and Guidelines: Sampling and Surveys for CDM project activities and programmes of activities	Input	Input + Launch call for public input	Recommendation		SBM 017	

Activity	Product	MEP 004	MEP 005	MEP 006	MEP 007	SBM consideration	Comments and mandates
Inputs to concept note on the development of type-specific safeguard elements and criteria for other types of activities	Tool: Article 6.4 sustainable development tool		Input	Input	Input	SBM 018	SBM 014 meeting report paragraph 23
Possible exceptions to the application of paragraph 43(b) of the methodologies standard	Concept note: Possible exceptions to the application of paragraph 43(b) of the methodologies standard		Input	Input + Launch call for public input	Recommendation	SBM 018	SBM 014 meeting report paragraph 27
Processing of new methodologies/tools, requests for revision, and requests for clarification	Proposed new methodologies/tools, requests for revision, and requests for clarification submitted by proponents		Input / Recommendation	Input / Recommendation	Input / Recommendation	SBM 016 SBM 017 SBM 018	Procedure: Development, revision and clarification of methodologies and methodological tools; and Procedure: Development, revision, clarification and update of standardised baselines
Processing of simplified approaches for additionality	Simplified approaches for additionality		Input / Recommendation	Input / Recommendation	Input / Recommendation	SBM 016 SBM 017 SBM 018	

Table 2. Methodological Expert Panel workplan 2025 number of items ^(a)

Numbers of items	MEP 004	MEP 005	MEP 006	MEP 007
Input	12	30	21	05
Launch call for public input	01	09	17	00
Recommendation	02	03	12	20
Total	15	42	50	25

^(a) Total of items 2025: 132

Table 3. Legend

Legend	
Input	Input by the MEP on the draft documents (concept notes, standards, tools) for the Supervisory Body's consideration prepared by the MEP or by the MEP and the secretariat jointly (based on the mandate from the Supervisory Body)
Launch call for public input	The MEP launches the call for public input as per the procedure ⁵
Recommendation	Recommendation to the Supervisory Body (final recommendation, e.g. approval or rejection of new/revised methodologies, tools, standardized baselines)

Document information

Version	Date	Description
01.0	27 January 2025	Published as an annex to the annotated agenda of SBM 015.
Decision Class: Operational		
Document Type: Information note		
Business Function: Governance		
Keywords: MEP, work organization, work programme		

⁵ Procedure: Development, revision and clarification of methodologies and methodological tools (A6.4-PROC-METH-001). Available at <https://unfccc.int/sites/default/files/resource/A6.4-PROC-METH-001.pdf>
