

19th meeting of the Adaptation Committee

Agenda item 8(b)

Technologies for adaptation

Objective, scope and outline of the technical paper on technologies for adaptation. Concept note

16-19 March 2021

I. Background

- ❖ AC workplan
 - Technical paper (2021): Technologies for adaptation
 - Topic & scoping note (second half of 2020)
- ❖ Topic agreed at AC 18:

“Priorities and needs: technologies for adaptation in agriculture, water resources and coastal zones; including experiences in stakeholder engagement and regulatory issues pertaining to the development, transfer and uptake of technologies in those sectors”
- ❖ Objective and scope of the TP
 - Considering work by AC, LEG, TEC and CTCN
 - Adding value: TP to focus on the implementation of adaptation strategies and plans, including NAPs, and the identified measures therein and how an increased uptake of technologies can enhance the implementation of adaptation

II. Annotated outline

1. Introduction

2. Planning of adaptation: overview of priorities and needs identified in the NAPs, TNAs, etc. for technologies for adaptation in agriculture, water resources and coastal zones

3. Implementation of adaptation measures in agriculture, water resources and coastal zones through enhanced uptake of technologies:

a) Engagement of stakeholders

b) Regulatory issues

c) Innovative approaches

d) Good practices, gaps and needs

4. Conclusion

III. Next steps

The AC may wish to:

- Agree on the objective, scope and annotated outline
- Request the secretariat to seek inputs and feedback from the NAP TF when preparing a first draft for consideration at AC 20
