NDC & LTS support in Asia-Pacific under NDC Advance Technical Assistance Platform

NDC Advance is a dedicated technical assistance platform established by the ADB to support DMCs to mobilize finance, build capacity, and provide knowledge and other support needed to implement their NDCs

Four strategically-linked streams:

1. Translating NDCs into climate investment plans and projects.
2. Improving access to climate finance and linking to private sector.
3. Developing methods and tools to measure, monitor and report on commitments made under NDCs.
4. Identifying climate adaptation investment priorities.

LTS Support

Joint MDB LTS Programme

- **Launched at COP28** with initial funding from Germany
- The program serves as a platform for MDBs to effectively coordinate efforts in supporting countries to **formulate and operationalize LTSs**
- MDBs have a **target of \$250 Million** to support all phases of LTS

Kiribati LTS Support

- LTS Action Plan
- Full LTS

Planned Support

- **Knowledge Product** under development that focuses on: *Analysis of current NDC design across subregions and learnings to take forward to next NDC update (Q2 / Q3 2024)*
- **Developing Subnational Investment Planning Supplement** for the *Climate Investment Planning and Mobilization Framework* of the NDCP and GCF
- ADB is internally exploring opportunities to mobilize additional resources to further support NDC and LTS development
