NDC & LTS support in the Asia-Pacific under NDC Advance Technical Assistance Platform

NDC Advance is a dedicated technical assistance platform established by the ADB to support DMCs to mobilize finance, build capacity, and provide knowledge and other support needed to implement their NDCs

Four strategically-linked streams:

1. Translating NDCs into climate investment plans and projects.
2. Improving access to climate finance and linking to private sector.
3. Developing methods and tools to measure, monitor and report on commitments made under NDCs.
4. Identifying climate adaptation investment priorities.

The NDC and LTS need to be coherent, where the NDC can be seen as a roadmap towards the LTS

- ADB plans to support the **updated NDC**

- ADB mobilized 1 mio. USD to support the development of the **Long-Term Climate and Development Strategy (Q2 2026)**

Assessment for the Preparation of the Philippines Updated NDC and the Long-Term Climate and Development Strategy

Comprehensive review of climate change policies, institutions, and capacities

Joint MDB LTS Programme

- **Launched at COP28** with initial funding from Germany
- The program serves as a platform for MDBs to effectively coordinate efforts in supporting countries to **formulate and operationalize LTSs**
- MDBs have a **target of \$250 Million** to support all phases of LTS

- **Knowledge Product** under development that focuses on: *Analysis of current NDC design across subregions and learnings to take forward to next NDC update (Q2 / Q3 2024)*
- **Developing Subnational Investment Planning Supplement** for the *Climate Investment Planning and Mobilization Framework* of the NDCP and GCF
- ADB is internally exploring opportunities to mobilize additional resources to further support NDC and LTS development

How can countries reach out for support?
