

*This non-paper is prepared by Co-chairs  
Under SBSTA agenda item 10 and SBI agenda item 8 (dated 10 June 2024)*

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
101	Provide capacity-building to the Chairs and members of UNFCCC constituted bodies and technical teams of the secretariat on how to integrate gender considerations into their respective areas of work and on meeting the goal of gender balance (decision 3/CP.23)	Move to decision text as cross cutting element	
102	Consideration of the KCI annual report by the forum on the impact of the implementation of response measures (decision 7/CMA.1, annex, para. 4(j))	Continue as per procedural aspect	
103	Midterm review of this workplan, starting from SB 56 (June 2022) (decision 7/CMA.1, para. 10)	<ul style="list-style-type: none"> <li>• May not be required</li> <li>• Can be considered together with review of the functions, work programme and modalities as one review</li> <li>• Can be replaced with exercise to start developing the next workplan</li> </ul>	
104	Prepare information for the technical assessment component of the global stocktake related to the impacts of the implementation of response measures (decision 19/CMA.1, paras. 8 and 24)	<ul style="list-style-type: none"> <li>• Continue as per procedural aspect</li> </ul>	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
105	Also requests, recalling decisions 19/CMA.1 and 4/CMA.2, the Katowice Committee on Impacts to submit by February 2022, with the assistance of the secretariat, a synthesis report reflecting the relevant work of both the forum and its Katowice Committee on Impacts as an input to the technical assessment component of the first global stocktake, which will start at the fifty-sixth sessions of the subsidiary bodies; (Decision 23/CMA.3).	<ul style="list-style-type: none"> <li>• Can be modified in line with para 1 (g) of updated functions from (annex I of RM decisions at COP 28)</li> </ul>	
106	Review of the functions, work programme and modalities of the forum at SB 59 (decision 7/CMA.1, para. 6)	<ul style="list-style-type: none"> <li>• Continue as per procedural aspect</li> <li>• Can be modified in line with para 6 of RM decisions at COP 28</li> </ul>	
107	Explore approaches to informing the development and implementation of climate change mitigation strategies, plans, policies and programmes, including nationally determined contributions and/or long-term low greenhouse gas emission development strategies, that maximize the positive and minimize the negative impacts of response measures	<ul style="list-style-type: none"> <li>• To be modified to reflect current terminology, new emerging strategies, assess and analyze by KCI, and informing by forum</li> <li>• To be replaced by new activity that reflects best available science</li> </ul>	
108	Identify country-driven strategies and best practices on just transition of the workforce and creation of decent work and quality jobs and on economic diversification and transformation focusing on challenges and opportunities from the implementation of low greenhouse gas emission policies and strategies towards the achievement of sustainable development	<ul style="list-style-type: none"> <li>• Not part of the new workplan</li> <li>• To be modified: Remove just transition element; 2 to be replaced by 22; adjust the language of 2</li> <li>• Continue</li> </ul>	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
109	Enhance the capacity and understanding of Parties, through collaboration and input from stakeholders, on the assessment and analysis of the impacts of the implementation of response measures to facilitate the undertaking of economic diversification and transformation and just transition		
110	Promote the availability and use of guidelines and policy frameworks to assist Parties in promoting just transition of the workforce and the creation of decent work and quality jobs within and across sectors, including training, retooling, retraining and reskilling systems and stakeholder engagement strategies		
111	Requests prioritization of the developing and sharing of case studies by Parties and experts, in particular on developing country Parties, on both just transition and economic diversification and transformation in order to understand the opportunities and challenges faced in their planning and implementation; (Recommendation from activity 4 of the workplan – Decisions 20/CP.27, 7/CMP.17 and 23/CMA.4)		
112	Facilitate the development, enhancement, customization and use of tools and methodologies for modelling and assessing the impacts of the implementation of response measures, including identifying and reviewing existing tools and approaches in data-poor environments, in consultation with technical experts, practitioners and other relevant stakeholders	<ul style="list-style-type: none"> <li>• Continue, with updated modalities</li> <li>• Continue, informed by 23</li> <li>• Not part of the new workplan</li> </ul>	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
113	Also requests facilitation of the development of robust assessment tools and methodologies that can capture a range of multidimensional impacts of the implementation of response measures; (Recommendation from activity 4 of the workplan – Decisions 20/CP.27, 7/CMP.17 and 23/CMA.4)		
114	Build awareness and understanding of Parties and other stakeholders to assess the economic impacts of potential new industries and businesses resulting from the implementation of response measures with a view to maximizing the positive and minimizing the negative impacts of the implementation of response measures	<ul style="list-style-type: none"> <li>• Not part of the new workplan</li> <li>• Continue, without duplication</li> </ul>	
115	Facilitate the development and exchange of regional, country- and/or sector-specific case studies and approaches on (1) economic diversification and transformation and just transition of the workforce and creation of decent work and quality jobs, and (2) assessment and analysis of the impacts of the implementation of response measures with a view to understanding the positive and negative impacts	<ul style="list-style-type: none"> <li>• Continue</li> <li>• Not part of the new workplan</li> </ul>	
116	Organize the exchange and sharing of experience and best practices, to take place at the sixty-second sessions of the subsidiary bodies (SB) (June 2025), in relation to country case studies pertaining to activity 7 of the workplan, in line with the agreed modalities in the workplan, to be implemented by the forum		
117	Develop a case study in each of the five United Nations regions in accordance with activity 7 of the workplan, to be implemented by the KCI by SB 63 (November 2025)		

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
118	Identify and exchange experiences and best practices in engaging the private sector, including small and medium-sized enterprises and public–private partnerships, to facilitate the creation of decent work and quality jobs in low greenhouse gas emission sectors	<ul style="list-style-type: none"> <li>• Not part of the new workplan</li> <li>• Continue, to refocus on economic diversification</li> </ul>	
119	Identify and assess the impacts of the implementation of response measures taking into account intergenerational equity, gender considerations and the needs of local communities, indigenous peoples, youth and other people in vulnerable situations	<ul style="list-style-type: none"> <li>• Not part of the new workplan</li> <li>• Continue, without duplication</li> </ul>	
120	Request the Katowice Committee on Impacts to undertake further research on measuring the potential and actual impacts of response measures on people in vulnerable situations and encourage Parties to consider the results of such research, as appropriate, in the design of response measures and policies to minimize the negative impacts and maximize the positive impacts of response measures on people in vulnerable situations; (Recommendation from activity 9 of the workplan – Decisions 13/CP.28, 4/CMP.18 and 19/CMA.5)		
121	Share experience and best practices in reporting and informing on efforts to assess and analyse the impacts of the implementation of response measures	<ul style="list-style-type: none"> <li>• Not part of the new workplan</li> <li>• Continue, and sharing experience in workshop</li> </ul>	
122	Facilitate, exchange and share experiences and best practices in the assessment of the environmental, social and economic co-benefits of climate change policies and actions informed by the best available science, including the use of existing tools and methodologies	<ul style="list-style-type: none"> <li>• Not part of the new workplan</li> <li>• Continue, without duplication</li> </ul>	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
123	Facilitate the exchange and sharing of experience and best practices in the assessment of the environmental, social and economic co-benefits of climate change policies and actions informed by the best available science, including the use of existing tools and methodologies, to be implemented at SB 62 by the KCI through concrete examples and input from experts, practitioners and relevant organizations, and by the forum through the exchange and sharing of experience, best practices and key findings		
124	Promote the exchange of experience in relation to national and subnational legislation, action plans, frameworks and other structural factors for just transition and economic diversification and transformation, to be implemented at SB 62 by the forum through the exchange of best practices		
125	Build awareness about the positive and negative impacts associated with low- and zero-emission transport technologies, to be implemented at SB 60 (June 2024) by the forum through the exchange and sharing of experience, best practices and key findings	<ul style="list-style-type: none"> <li>• Continue, as follow up activity</li> <li>• Not part of the new workplan</li> </ul>	
126	Request the Katowice Committee on Impacts to enhance the understanding of Parties of policies for just transitions and their impacts on various sectors en route to achieving the goals of the Paris Agreement; (Recommendation from activity 2 of the workplan – Decisions 13/CP.28, 4/CMP.18 and 19/CMA.5)	<ul style="list-style-type: none"> <li>• To be informed by the updated work programme areas from COP 28</li> </ul>	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
127	<p>Requests the forum and its Katowice Committee on Impacts to:</p> <p>(a) Facilitate the enhancement of the capacity of Parties, in particular developing country Parties, to develop and use impact assessment methodologies and tools for conducting their own assessments and analyses of the impacts of response measures, including on decent work and quality jobs, and economic, social, environmental, domestic, cross-border, positive and negative impacts; this includes facilitating the development of case studies as appropriate and the organization of targeted regional hands-on training workshops;</p> <p>(b) Develop and maintain a web-based user interface for selecting tools and methodologies and promote its use among Parties and stakeholders, as appropriate; a user manual for the interface could also be developed; (Recommendation from activity 3 of the workplan – Decisions 20/CP.27, 7/CMP.17 and 23/CMA.4)</p>		
128	<p>Requests the Katowice Committee on Impacts to enhance the capacity of Parties, in particular developing country Parties, to develop and use country-specific tools and methodologies for assessing the environmental, social and economic co-benefits of climate change policies and actions. (Recommendation from activity 11 of the workplan – Decisions 20/CP.27, 7/CMP.17 and 23/CMA.4)</p>		
<b>Economic diversification and transformation</b>			

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
129	Build awareness about the impacts of robust domestic enabling environments in facilitating economic diversification and transformation	(29)	
130	Enhancing the understanding of Parties on evaluating the implications of implementing economic diversification and transformation strategies	(30)	
	<b>Just transition of the workforce and the creation of decent work and quality jobs</b>	Some Parties are of the view that the activities under just transition can be considered elsewhere	
131	Follow up on the first Just Transition Work Programme Dialogue to assess progress on just transition, including participatory and inclusive approaches taken, in the development and implementation of NDCs, NAPs, and LT-LEDS	(31)  Some Parties are of the view this activity is out of the scope	
132	Build awareness of the trends and data related to the workforce transition through the implementation of response measures toward net-zero	(32)	
133	Identify and exchange experiences on ways to enhance the capacity of the workforce in emerging industries, including through technological transfers, education, retooling workforce, training and retraining, skilling and re-skilling, in low-emission development, and access to funds for transition	(Streamlining of 33 and 34)	
134	Promote the availability and use of guidelines and policy frameworks to assist Parties in promoting just transition of the workforce and the creation of decent work and quality jobs, including the development of indicators and criteria for assessing the transition of the workforce, just transition finance taxonomy and indicators to assess flow of finance to developing countries	(Streamlining of 35 and 36)	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
135	Exchange experiences and best practices of Parties in engaging international organizations and enhancing public-private partnerships in the implementation of response measures and sustainable development, taking into account national circumstances	(Streamlining of 37 and 38)	
	<b>Assessment and analysis of impacts of the implementation of response measures, with some elements of capacity-building through awareness creation and exchange of experience</b>		
136	Identify, assess, analyze, and build awareness of the positive and negative social, economic, environmental impacts of transitioning towards alternative energy sources , particularly on health, biodiversity and pollution	(Streamlining of 39 to 43, 72 to 74)	
137	Build awareness and exchange experience and best practices on maximizing positive impacts on intergenerational equity, gender considerations and the needs of Indigenous Peoples and local communities, youth, children and other people in vulnerable situations, with a view to identifying and analyzing the impacts of response measures	(Streamlining of 44 to 47)	
138	Assess global socio-economics impact of the implementation of article 2.1c of the Paris agreement, for developing countries	(48)  Some Parties are of the view this activity is out of the scope	
139	Assess the positive and negative socioeconomic, environmental, health impacts arising from the mitigation policies in CMA.7, 8, 9, 10, 11.	(55)	
140	Understand the positive and negative impacts of measures contained in decision 1/CMA.5, including paragraphs 28, 33, 35 and 154.	(Streamlining of 49 to 54, 56, 57, 64, 65)	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
141	Assess global socio-economic impact of different net-zero scenarios and pathways	(Streamlining of 58 and 59)	
142	Country case-studies on social and economic impacts of economy-wide NDCs on developing countries	(Streamlining of 60 and 61)	
143	Assess and analyze the environmental, economic, and social implications of accelerating zero- and low-emission technologies, including, inter alia, renewables, nuclear, low-carbon hydrogen production, and abatement and removal technologies such as carbon capture and utilization and storage, particularly in hard-to-abate sectors	(Streamlining of 62 and 63)	
144	<p>Analyze, assess, report on addressing the negative impacts of unilateral measures, including on the just transition of the workforce, creation of decent work, quality jobs, in achieving economic diversification and transformation.</p> <p>Alt. Identify country driven strategies and best practices on addressing the impacts of unilateral measures, including on the just transition of the workforce, creation of decent work, quality jobs, in achieving economic diversification and transformation.</p> <p>Alt. Identify tools, and methodologies to address impacts of implementation of response measures, including unilateral measures to help the development of strategies and pathways for JT in developing countries</p>	<p>(66)</p> <p>Some Parties are of the view this activity is out the scope</p>	

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
145	Analyze, assess, report on addressing the negative and maximizing the positive impacts of mitigation policies, measures and instrument, including on the just transition of the workforce, creation of decent work, quality jobs, in achieving economic diversification and transformation	(Based on an activity read in room)	
146	Assessing and analyzing the impacts of carbon pricing policies, including multilateral coordination initiatives, on social and economic development, with a view to minimizing the negative and maximizing the positive impacts	(Streamlining of 67 and 68)  Some Parties are of the view this activity is out the scope	
147	Identify, assess, analyze, and build awareness of the impacts of implementation of response measures on human rights	(Streamlining of 69 to71)	
	<b>Facilitating and building capacity on the identification, development, customization and use of tools and methodologies to assess the impacts of the implementation of response measures</b>		
148	Institute a systematic process for reporting, assessing and analyzing of measures taken by developed countries to minimize the impact of the implementation of response measures, on Parties with economies affected by the impacts of response measures, particularly developing country Parties, in line with article 4.15 of Paris Agreement	(75)	
149	Develop a toolbox, including standardized methodologies and reporting tool, to facilitate enhanced capacity of Parties to conduct their own assessments, analyses and reporting of impact of implementation of response measures	(Streamlining of 76 to 80)	
	<b>Others - Process</b>		

No	Activities	Comment (numbers in bracket refer to activity number in non-paper dated 8 June 2024)	Actors, modalities and timeline
150	Organizing an annual high-level ministerial roundtable on impacts of implementation of response measures	(81)	
155	Assessment of the ways in which KCI products have been used by Parties and other workstreams, including in relation to national and subnational policies and in 2035 NDC development	(82)	
	<b>Others – Further clarity</b>		
156	Mapping the negative impacts of innovative sources of finance, including taxation measures, on developing countries	(83)	
157	Identify negative impacts of response measures that do not contribute to keeping a limit of 1.5C within reach	(84)	
158	Activities that address the question of how social acceptance of climate policy can be increased in order to accelerate the energy transition	(85)	
159	Assessment of positive impacts of transitional fuels' usage on reducing GHG emissions while ensuring energy security of Parties, especially, developing country Parties	(86)	
160	Share information about the negative impacts of industrial policies that contribute to oversupply of renewable energy technologies	(87)	
161	Identify the climate and stranded asset consequences of continued expansion of coal fired power plants in light of global commitments from the GST, and the long term economic implications of replacing planned CFPPs with zero or low carbon energy sources	(88)
