Adaptation Fund at a Glance

Only global UN fund created to fund concrete adaptation projects, in most climate-vulnerable developing countries

One of 1st fully functioning climate funds, operating since '07; pioneered innovative 'Direct Access' climate finance modality

As urgency of climate change has risen, it has grown rapidly to almost **\$1B funding today incl. 20% to DRR/EWS**

Tangible results

IMPACT 1:

Reduction in vulnerability of communities and increased adaptive capacity of communities to respond to the impacts of climate change

10.04 million

DIRECT BENEFICIARIES

21.17 million

INDIRECT BENEFICIARIES

Number of direct beneficiaries is a conservative estimate, as it is not consistently reported (i.e. some projects report as no. of households)

414

EARLY WARNING SYSTEMS

Includes projects targeting several small scale EWS at the local level as well as those targeting one large regional system

IMPACT 2:

Strengthened policies that integrate climate resilience strategies into local and national plans
