# 1

## INITIAL REPORT

### Challenges on reporting participation requirements

# Before The INTIAL REPORT

## A

Arrangements in place for authorizing the use and tracking of ITMOs

## B

arrangements in place that are consistent with this guidance and relevant decisions of the CMA for tracking ITMOs

## C

It has provided the most recent national inventory report

## D

Its participation contributes to the implementation of its NDC, its LT-LEDS and the long-term goals of the Paris Agreement

# How to report before filling the requirements?

## Challenges

Design of the regulatory framework and authorization decisions

Registries and monitoring processes for tracking ITMOs and transparency

Not installed capacity

What is being align to NDC and LTS means? Additionality? Vs Market attractiveness

Authorizing

Consistency

National Inventory

Real contribution

## Capacity building needs

Financing for design, implement regulation and institutional framework, as well as technical inputs

Identify bottle necks

Support to make the analysis
