

Potential Challenges in the Initial Report

Kazuhisa KOAKUTSU
Ministry of the Environment, Japan

JCM Global Partnership Meeting

Date: 13 – 14 February 2023

Participants: JCM partner countries

Inputs received on Article 6 reporting

- **Authorization**

- authorization is required both acquiring and transferring countries.

- **Information disclosure**

- Clarification on whether own website should be developed.
 - If a country wants to promote Article 6 implementation, it is recommended to develop own website.
- Clarification how to address confidentiality related to the authorization.

- **National Inventory**

- Need to clarify what we mean by “most recent national inventory report”.
- Need more support for in country capacity for setting up inventory to address the requirement (many countries lack capacities to develop national inventory report).

- **Registry**

- UNFCCC secretariat and other international organizations are also developing registries.
- To what extent this information need to be included.

- **ITMOs and Corresponding Adjustment**
 - Clarification on the carry over of ITMOs
 - Implication of different corresponding adjustment methods (multi year vs single year, average or trajectory) should be considered.
 - Initial report is an ex-ante report. The actual amount of ITMOs will be reported under the Regular Information and Annual information.
 - Further elaboration on how the Article 6 can contribute to sector-specific policies and targets, apart from NDC target, is needed, if applicable.

- **Information on each cooperative approach**
 - Rules, guidelines, and methodologies for implementing Article 6 should be designed as common as possible while reflecting each country's circumstances
 - Example of illustrative texts would be useful
 - Clarification on local stakeholder consultation
 - Further clarification on the ambition on mitigation and adaptation.
 - Harmonization with 6.4 mechanism are important .

Suggestions on Article 6 reporting

- **Suggestions**
 - Common understanding is necessary between acquiring and transferring countries because of possibilities on the different interpretations of decision texts.
 - Sharing the knowledge and experiences (actual cases) among countries is important.
 - Close communication between participating parties is necessary for preparing the Initial Report to keep consistency.
 - Preparation Process should be coordinated.
