

CLIMATE NEUTRAL NOW PLEDGE APPENDIX

Thank you for making a pledge to Climate Neutral Now. To validate your pledge, please complete the form below by answering each one of the following questions and send this document to the UNFCCC secretariat at ClimateNeutralNow@unfccc.int

Please refer to the [explanatory document](#) for further information on how to complete this appendix.

STEP 1: MEASURE YOUR GREENHOUSE GAS EMISSIONS

1. What is the reporting period for this appendix? (please indicate the calendar or fiscal year, or another period as applicable)

☒ 06/04/2019 – 05/04/2020

☐ One-off initiative

2. What standard or methodology are you using when quantifying your GHG emissions?

Defra 'Guidance on how to measure and report

[If other, please specify here.](#)

3. Which categories are included in your estimation of emissions?

- ☐ Electricity generation
- ☒ Heat generation
- ☒ Heat consumption
- ☒ Electricity consumption
- ☒ Fuel consumption for purposes other than heat or electricity generation
- ☒ Air travel
- ☒ Transport by car
- ☒ Public transport by bus
- ☒ Public transport by taxi
- ☒ Public transport by train
- ☒ Other modes of public land transport
- ☒ Waste
- ☐ Water consumption

Please use the following space to provide more details as required, or to indicate **other** categories not listed above, such as Scopes 1, 2 and 3 according to the GHG Protocol:

Hotel accommodation

4. Is your GHG data publicly available? If yes, please provide a web link or a copy of the report.

☒ No

☐ Yes

[If yes, please specify here.](#)

Our GHG Data will be publicly reported on our website – www.emsmastery.com later in August 2020

5. Which GHGs are included in your estimation?

☒ Carbon dioxide (CO₂)

☒ Methane (CH₄)

☒ Nitrous oxide (N₂O)

☒ Hydrofluorocarbons (HFCs)

☐ Perfluorocarbons (PFCs)

☐ Sulphur hexafluoride (SF₆)

[Please enter any comments here.](#)

6. What is the amount of total emissions?

35.37

Tons of CO₂ equivalent

STEP 2: REDUCE YOUR EMISSIONS

1. Do you have a greenhouse gas emissions reduction target? If yes, please indicate it.

☐ No

☒ Yes

[Indicate your reduction target here.](#)

Using a 1.5-degree Celsius scenario, onePlanet Solutions are committed to the following science-based emissions reduction targets calculated using the SBTi Tool (Version: 1.1) for the reduction of our carbon emissions covering Scope 1 and 2 & Scope 3 emissions using an Absolute Contraction Approach for our Baseline Year 2018:

1. Reduce our Scope 1 and 2 emissions comprising our business car travel & use of electricity and gas to meet a 29.4 % reduction of emissions to not exceed 6 tCO₂e by the Target Year 2025
2. Reduce our Scope 3 emissions comprising our business air travel, public transport including taxis, hotel accommodation and waste disposal to meet a 29.4 % reduction of emissions to not exceed 105.9 tCO₂e by the Target Year 2025

Our emissions inventory reporting will be undertaken in accordance with The Greenhouse Gas Protocol – A Corporate Accounting and Reporting Standard (World Resources Institute & World Business Council for Sustainable Development, March 2004) using the appropriate UK Government GHG Conversion Factors for Company Reporting for the relevant Reporting Year.

Progress towards our targets will be reported each financial year no later than 31 August following the end of each Reporting Year (5 April).

As a signatory to the United Nation's Climate Neutral Now initiative, our additional commitment is to purchase UN Certified Emission Reductions (CERs) as our action to compensate by carbon offsetting for any emissions, which cannot be avoided.

In keeping with our principles of openness and transparency for the operations of our environmental consultancy, our emissions inventory report and progress towards our targets will be published on our website: www.EMSastery.com

2. Please list your greenhouse gas emissions reduction actions here.

1. **To deliver climate-neutral environmental and sustainability consultancy to our clients through leadership, behavioural change and practical measures to promote their transition towards achieving a low-carbon**
2. **To reduce GHG emissions from short-haul aviation flights through the use of alternative transportation, such as trains and boats, & the use of tele-conferencing**
3. **To minimize GHG emissions from long-haul flights through alternative transportation options, carbon offsetting & the use of tele-conferencing**
4. **To minimise GHG emissions from car use through alternative transportation options**
5. **To substitute diesel and petrol car use with electric vehicle options with 12 – 18 months**

STEP 3: OFFSET YOUR UNAVOIDABLE EMISSIONS

1. Which categories are being compensated with offsets?

- ☒ All measured categories
- ☐ Some of the measured categories, please select from below
- ☐ Electricity consumption
- ☐ Electricity generation
- ☐ Heat generation

- ☐ Fuel consumption for purposes other than heat or electricity generation
- ☐ Air travel
- ☐ Transport by car
- ☐ Public transport by bus
- ☐ Public transport by taxi
- ☐ Public transport by train
- ☐ Other modes of land transport
- ☐ Waste
- ☐ Water consumption

Please use the following space to provide more details as required, or to indicate **other** scopes not listed above, such as Scopes 1, 2 and 3 according to the GHG Protocol::

Hotel accommodation

2. If you are using other offsets in addition to UN Certified Emissions Reductions (CERs), please indicate which ones.

- ☒ No
- ☐ Yes

[If yes, please specify here.](#)

3. How many tons of CO2 equivalent are you offsetting during this period?

35.37

tons of CO2 equivalent

4. How many CERs are you using during this period?

36.00

CERs

5. Which platform did you use to purchase the CERs?

- ☒ United Nations Carbon offset platform
- ☐ Others

[If others, please specify here.](#)

6. Please provide proof of purchase/cancellation of the CERs here or attach it to your e-mail or provide a link to a relevant public registry/website.

UN CER Certificate attached
