

**HOST PARTY PARTICIPATION REQUIREMENTS
FOR ARTICLE 6.4 MECHANISM
(Version 01.0)**

SECTION 1: GENERAL INFORMATION

Country:	Chile
Institution name:	Ministry of Environment
Institution address:	San Martín 73, Santiago, Chile
Representative of the institution:	Cristina Figueroa
E-mail address of the representative:	cfigueroa@mma.gob.cl
Phone number of the representative:	+5622573 5746

ADDITIONAL REPRESENTATIVE (OPTIONAL)

Additional representative of the institution:	
E-mail address of the additional representative:	
Phone number of the additional representative:	

SECTION 2: PARTICIPATION RESPONSIBILITIES

Is your country a Party to the Paris Agreement?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Has your country prepared, communicated, and is it maintaining a Nationally Determined Contribution (NDC) in accordance with Article 4, paragraph 2 of the Paris Agreement?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Has your country designated a Designated National Authority (DNA) for the Article 6.4 mechanism and communicated that designation to the UNFCCC secretariat?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Please describe how your country's participation in the Article 6.4 mechanism contributes to sustainable development, while acknowledging that the consideration of sustainable development is a national prerogative.

Chile considers that the mandatory tool "A6.4-TOOL-AC-001-Article 6.4 sustainable development tool", ensures that Article 6.4 projects and/or Article 6.4 program of activities promote sustainable development (SD) and contribute to the 17 Sustainable Development Goals (SDGs). Corroborating that each Article 6.4 project and program of activities implemented in Chile, as a host country, contributes to our sustainable development objectives.

Please provide detailed information on the types of activities under Article 6, paragraph 4 (A6.4 activities) that your country would consider approving pursuant to chapter V.C (Approval and Authorization) of the Rules, Modalities and Procedures (RMPs).

Additionally, explain how these activities, and any associated emission reductions or removals, would contribute to the achievement of your country's NDC, if applicable, its long-term low GHG emission development strategy, if it has submitted one, and the long-term goals of the Paris Agreement?

Chile considers all activities eligible for approval under the Article 6.4 mechanism based on the methodological requirements and criteria established by the Supervisory Body in Article 6.4. However, for the authorization Chile will regulate this decision through its article 6 national framework that will generate a list of prioritized and contraindicated activities, which could be updated, so this decision will not be expressed in this form but would be reflected in the statements of authorization or non-authorization.

Based on the above, Chile will have published an article 6 national regulation that will allow us not to authorize activities that will be in our NDC encouraging the national carbon market development to achieve our plan, strategies and NDC, and avoiding overselling the activities with ITMOs authorization leaving the least cost effective activities for these cases or activities that present high entry barriers ensuring complying with our NDC.

Please provide any additional information that the host Party may deem necessary.

Chile will provide non-authorization statements and the moment of approval of a project or PoA, giving certainty to the private that those projects are not eligible for ITMO authorization.
