SECTION 2: PARTICIPATION RESPONSIBILITIES

Is your country a Party to the Paris Agreement?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Has your country prepared, communicated, and is it maintaining a Nationally Determined Contribution (NDC) in accordance with Article 4, paragraph 2 of the Paris Agreement?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Has your country designated a Designated National Authority (DNA) for the Article 6.4 mechanism and communicated that designation to the UNFCCC secretariat?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Please describe how your country's participation in the Article 6.4 mechanism contributes to sustainable development, while acknowledging that the consideration of sustainable development is a national prerogative.

Uruguay's NDC confirms the country's ambition on the path towards CO2 neutrality by 2050, and emphasizes the promotion of a just and inclusive transition. In this context, the Article 6.4 mechanism is seen as an effective instrument for enabling the mitigation targets set in our NDC in a sustainable manner, considering social and economic co-benefits such as job creation, poverty reduction, income increase, enhancement of scientific and technical capacities through knowledge sharing with local experts, among others.

Uruguay is firmly committed to ensuring that any activity carried out through Article 6.4 will benefit its social, environmental, and economic objectives. The country is currently establishing its governance and approval procedures, which will assess projects' alignment with national standards, thereby ensuring that they fully support Uruguay's national climate policy.

Moreover, Uruguay believes that the mandatory tool "A6.4-TOOL-AC-001-Article 6.4 sustainable development tool" effectively ensures that all Article 6.4 projects and programs contribute to sustainable development and to the achievement of the 17 Sustainable Development Goals (SDGs).

Please provide detailed information on the types of activities under Article 6, paragraph 4 (A6.4 activities) that your country would consider approving pursuant to chapter V.C (Approval and Authorization) of the Rules, Modalities and Procedures (RMPs).

Additionally, explain how these activities, and any associated emission reductions or removals, would contribute to the achievement of your country's NDC, if applicable, its long-term low GHG emission development strategy, if it has submitted one, and the long-term goals of the Paris Agreement?

Uruguay considers all activities eligible for approval under the Article 6.4 mechanism, provided they align with Uruguay's NDC and comply with the methodological requirements and criteria established by the Article 6.4 Supervisory Body.

While Uruguay may approve activities under Article 6.4, the authorization of A6.4ERs for international transfer as ITMOs, whether for use towards another country's NDC or for other international mitigation purposes, will not occur concurrently. Authorization decisions will be made on a case-by-case basis under Uruguay's national Article 6 framework and reflected in the corresponding letter of authorization. Uruguay reserves the right to authorize such use or transfer of ITMOs at a later stage, in accordance with its national regulatory framework.

Furthermore, all A6.4 activities approved by Uruguay, whose generated units (A6.4ERs) are authorized for international transfer as ITMOs, must demonstrate environmental integrity, avoid double counting, and be carefully selected to ensure complementarity with national mitigation efforts under the NDC and/or the LT-LEDS.

Please provide any additional information that the host Party may deem necessary (optional)¹:	
Baseline approaches and other methodological requirements, including additionality, to be applied for A6.4 activities that it intends to host, in addition and subject to and consistent with the RMPs, under the supervision of the Supervisory Body, and subject to further relevant decisions of the CMA, with an explanation of how those approaches and requirements are compatible with its NDC and, if it has submitted one, its long-term low GHG emission development strategy:	
Crediting periods to be applied for A6.4 activities that it intends to host, including whether the crediting periods may be renewed, subject to the RMPs and under the supervision of the Supervisory Body, and in accordance with further relevant decisions of the CMA, with an explanation of how those crediting periods are compatible with its NDC and, if it has submitted one, its long-term low GHG emission development strategy:	
Definition of first transfer pursuant to decision 2/CMA.3, annex, paragraph 2(b)² as:	
<input checked="" type="checkbox"/> the authorization <input type="checkbox"/> The issuance <input type="checkbox"/> The use or cancellation of the A6.4ERs	
Exemption from the waiver for share of proceeds for adaptation for LDCs and SIDS³	Is the host Party an LDC or SIDS: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	<input type="checkbox"/> The host Party chooses not to exempt all projects or PoAs and CPs from the share of proceeds for adaptation ⁴

¹ The host Party may optionally provide additional information on: i) Baseline approaches and other methodological requirements, including additionality, to be applied for Article 6.4 activities as per decision 3/CMA.3, annex, paragraph 27; ii). Crediting periods to be applied for Article 6.4 activities that it intends to host, including whether the crediting periods may be renewed as per decision 3/CMA.3, annex 3, paragraph 27(b); iii) First transfer in case it intends to authorize A6.4ERs for other international mitigation purposes as per decision 2/CMA.3, annex, paragraph 2(b); iv) statement on exemption from the waiver for share of proceeds for adaptation for LDCs and SIDS of all projects or PoAs and CPs.

² Decision 2/CMA.3, annex, as contained in document FCCC/PA/CMA/2021/10/Add.1. Available at: https://unfccc.int/sites/default/files/resource/cma2021_10a01E.pdf.

³ This provision is only applicable to LDCs and SIDS and is to be checked if the LDC/SIDS hosting the projects or PoAs and CPs therein, chooses not to exempt all project activities or PoAs and CPs from the share of proceeds for adaptation or may be indicated for each project or PoA and CPs at the time of approval of the project or PoA.
