- Integration into schools and communities

What are the remaining gaps and needs?

01

Financial Resources

- Support **local** initiatives.

02

Capacity

- Train **pre- and in-service teachers**;
- Build capacity of **policymakers**, including for **monitoring and reporting**.

03

Commitment

- Increase **public pressure** and foster **perception change**;
- Translate education into **action** and **mobilization**;
- Strengthen interlinkages with **NDCs, NAPs** and **SDGs**.

04

Engagement

- Participation of every member of society, especially **youth**;
- Mainstream **gender**.

05

International Cooperation

- Between **local** and **international** partners.

Panellist Overview

Policy Coherence

Fairda Malem

Ministry of Natural
Resources and Environment,
Thailand

Tools & Support

Kartikeya Sarabhai

Centre for Environment
Education,
India

Environment,
New Zealand

Role of Non-Party Stakeholders

Susie Ho

Monash University,
Australia

Pasang Dolma Sherpa

Local Communities and
Indigenous Peoples' Platform,
Nepal

International Cooperation

Philip Vaughter

UN University
Institute for the Advanced
Study of Sustainability

What do we want to achieve towards 2030?

Carbon neutrality

Societal transformation

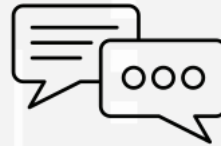

Empowerment of People

“ACE as a tool to achieve climate targets”

Climate Education

Solutions-focused climate education embedded in school curricula and **targets people at all levels.**

Public Awareness and Engagement

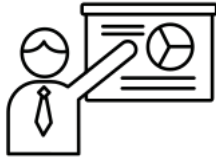

Awareness among majority of people with increased public participation. **Awareness transforms into action.**

Stronger Network

Multi-stakeholder collaboration in place to **work together and share solutions** that are tailored to the context.

What is needed to achieve it ?

Political Commitment

Political will and **funding** to support ACE activities. More active role for **ACE focal points**.

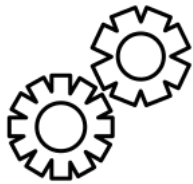

Guidelines and Tools

Flexible guidelines and **tools** to help find pathways to change behaviours of all members of society.

Community Empowerment

Communities taking up **proactive** role and **involved** in climate policies, especially the **youth**.

Capacity-Building & Collaboration

Capacity building for all and **stronger collaboration** at all levels.

Tracking & Reporting

Achievable and measurable **targets** with clear **metrics** on tracking and reporting ACE activities.

Institutional Arrangement

Establishment of a **committee** or a **platform** to foster exchange of expertise and knowledge.
