

Framework Convention on
Climate Change

First Workshop in 2025 under the Sharm el-Sheikh Dialogue on Article 2, paragraph 1(c), of the Paris Agreement, and its complementarity with Article 9 of the Paris Agreement

Information about the resource persons

Professor Andrea Santos
Coordinator of the Sustainable Transport Lab
(LabTS), Federal University of Rio de Janeiro

Andrea has sixteen years of significant experience in the environmental area. She has been working with sustainability and climate change issues (Mitigation, Adaptation and Resilience), including public policy on climate change, and the development of studies and projects for national and international institutions. She was the climate change and sustainability coordinator at the Ministry of Environment of Brazil. She is Executive Secretary of the Brazilian Panel on Climate Change and Coordinator of the Sustainable Transport Lab (LabTS) of the Federal University of Rio de Janeiro that coordinates projects on urban sustainability, climate change and cities, renewable energy (Green Hydrogen Power Plant), and sustainable transport. Co-director of the Urban Climate Change Research Network (UCCRN) Latin America Hub and Researcher at the Brazilian Research Network on Global Climate Change - Rede Clima.

Research area: climate change; mitigation; adaptation; climate resilience; sustainable transport.
