

Non-Paper: Presidency summary of possible elements put forward by Parties for inclusion in the overarching decisions (without prejudice to placement)

It is understood that the cover decisions will broadly reflect the following:

- **The main outcomes negotiated under the relevant agenda items at this session, such as those on the Global Goal on Adaptation, Loss and Damage, Mitigation Work Programme, and others, as applicable;**
- **Decisions 1/CP.26 and 1/CMA.3 as relevant;**
- **Views put forward by Parties at this session as tentatively reflected below.**

Framing / transition to full implementation / implementation and ambition

- Multilateralism
- Food and energy crises
- Principles of the Convention and the Paris Agreement
- Latest science, findings from IPCC reports
- Urgency of action to keep 1.5C in reach
- Ambition and implementation to close gaps
- Just and equitable transition
- Relevant linkages (biodiversity, SDGs)
- Human rights and human approaches to climate action
- Role of non-Party stakeholders
- ... *(further points as needed)*

Support to facilitate implementation: finance, technology, capacity building

- Need for scaling up finance
- 100 bn goal, status, progress and urgency to meet it
- Doubling adaptation finance
- Finance for addressing loss and damage
- Transparency in delivering on finance commitments
- GEF/GCF/AF replenishment
- Setting post-2025 goal
- Improving access to finance
- Article 2.1(c) of the Paris Agreement
- Call on MDBs and IFIs to align and scale up funding, and ensure simplified access
- Innovative financing options
- ... *(further points as needed)*
- Placeholder for reference to specific outcomes on support...

Mitigation

- Acknowledging mitigation gap
- Relevant findings from IPCC and UNFCCC synthesis reports
- Submissions of enhanced/updated NDCs and long-term strategies
- Call to strengthen ambition to close mitigation gap
- Link between mitigation and means of implementation
- Urgency of energy transition, despite the current energy crisis
- Role/potential/scaling up of renewable energy in energy transition
- ... *(further points as needed)*
- Placeholder for reference to specific outcomes on mitigation...

Adaptation

- Relevance/urgency of adaptation
- Relevant findings from IPCC and UNFCCC synthesis reports
- Early warning systems
- Increasing/doubling adaptation finance, parity with mitigation
- Role of NAPs and AdComs
- Adaptation to be effective and locally-led
- ... *(further points as needed)*
- Placeholder for reference to specific outcomes on adaptation...

Loss and damage

- Relevance/urgency to address loss and damage (L&D)
- Need for funding arrangements to address L&D
- MDBs and Parties to do more to support actions to address L&D
- ... *(further points as needed)*
- Placeholder for reference to specific outcomes on loss and damage...

Transparency / accountability

- Accountability of climate action and support
- Reporting under the enhanced transparency framework
- ... *(further points as needed)*
- Placeholder for reference to specific outcomes on transparency...

Cooperation and cross-cutting action

- Importance of international cooperation in climate action
- Cooperation under Article 6
- Response measures
- Relevant domestic and international efforts
- Relevant work by ICAO and IMO
- Cooperative initiatives from the Glasgow Climate Pact
- Special regional needs and circumstances
- Ocean and climate change
- Nature-based solutions
- ... *(further points as needed)*

Global stocktake

- Status and importance of the GST process
- ... *(further points as needed)*

Action by non-Party stakeholders

- Role of non-Party stakeholders, including youth and children, women and girls, cities and local communities, indigenous peoples
- Engagement of the private sector
- Global climate action in the UNFCCC process (Marrakesh Partnership, etc.)
- Accountability of action by non-Party stakeholders
- ... *(further points as needed)*
