Environmental Sustainability Unit

Part I: Context and Approach

Caribbean Context: High Climate Risks and Impacts

High Vulnerability Widespread impacts

- Economic performance
- -Productivity
- -Livelihoods
- -Quality of life

Enhancing Climate Change Adaption and Resilience: A Priority of CDB

CDB's Mission

Reducing
Poverty and
Transforming
Lives through
Sustainable,
Resilient and
Inclusive
Development

Strategic Plan Update 2022-2024 Five Pillars of Resilience:

- Social
- Environmental,
- Production/Economic
- Financial
- Institutional

Climate Resilience Strategy 2019-2024

- Integration of Climate and Disaster Risk into planning and decision-making processes
- Mobilization and Scale-up of concessional finance for DRM and Climate Resilience

CDB: Integrated Approach for Climate and Disaster Resilience

Strategic Partnerships for Resource Mobilization

Financing Implementation of Investment Plan

Develop, and
Validate
Investment Plan
with key
Stakeholders

Access to reliable
Caribbean climate
data and
information

Climate and Disaster Resilience

Identify and
Prioritise
Adaptation and
Mitigation Actions

Climate Risk Screening/ CRVA

Assessment of Policies,
Strategies and Plans

Delivering on Climate Adaptation and Resilience Priories

- CDB as a provider of climate adaptation and resilience finance for Caribbean countries.
 - Financing and TA: Project/Programme design and implementation in key economic sectors.
- Strategic Partnerships: Expertise and Concessional Finance
 - Within the Caribbean- e.g. CCCCC, CIMH, CMO, UWI, CDEMA, CCRIF, OECS
 - Around the World: Bilateral and multilateral partners and MDBs
 - E.g. EU, EIB, IDB, WB, AfDB, Global Affairs Canada, FCDO, AFD ...
 - GCF, AF

Part II: Examples of Relevant CDB's Projects and Funding Opportunities for Climate Adaptation in the Caribbean

Caribbean Action for Resilience Enhancement (CARE) Programme

5-year initiative -EUR
14 million by the
European Union
within the ACP-EU
NDRR Programme

Main objectives

Improving governance on disaster risk management and climate change adaptation

Strengthening evidence-based and gender-sensitive decision making

Supporting community infrastructure and livelihood resilience.

Building Resilience for Adaptation to Climate Change and Climate Variability in Agriculture in Saint Lucia (BRACCVAS)

- 4-year initiative –Adaptation Fund USD 9.8 million
- Implementation: CDB
- Execution: Ministry of Agriculture, Fisheries, Food Security and Rural Development, Saint Lucia.
- Main objective: Enhance resilience of farm communities in St. Lucia by:
 - Increasing farm productivity
 - Increasing Water and livelihood security
 - Reducing vulnerability to natural hazards, climate variability and climate change.
- Target beneficiaries: 12,000 individuals

CDB-GCF Pipeline

Full programmes/projects

Title	BMC(s)	Description	Total budget	Status	Developed using
Transforming Finance to	Belize	Private sector financial	Approx. USD35	Full proposal completed.	PPF-033 grant mobilised
Unlock Climate Action in	Jamaica	intermediation programme	million	To be submitted to GCF	from GCF
the Caribbean	Saint Lucia	supporting MSMEs and		once all no-objection	
programme		homeowners to invest in		letters are received and	
		climate-related technologies.		CDB internal

Readiness projects

Title	BMC(s)	Total budget	Status
Strengthening NDA through GCF Readiness and	Suriname	USD317,923	Project fully implemented. Final audit to
Preparatory Support Programme			be completed.
Promoting Climate Resilient Development in	Belize	USD1,002,838	Project fully implemented. Final audit to
Urban Areas Through Complementarity and	Haiti		be completed.
Coherence Among Funding Sources	Jamaica		
	St. Kitts & Nevis		
Institutional Capacity and Coordination and	St. Kitts & Nevis	USD589,530	Project fully implemented. Final audit to
Country Programming			be completed.
Belize DFC Capacity Strengthening for	Belize	USD498,902	Project activities finalized. Final audit
Accreditation to the GCF			underway.
Support for Strengthening Belize Private Sector	Belize	USD297,537	Project fully implemented. Final audit
Access to Climate Finance			done and submitted to UNOPS/GCF.
Mainstreaming Climate Resilience into Water	St. Lucia	USD850,000	Implementation has started. Consultant
Sector Planning, Development and Operations			(firm) procurement/contracting
in Saint Lucia			underway.

Conclusion

CDB and Climate Adaptation in the Caribbean: Key Takeaways

- Climate Change Adaptation: A Regional Priority
- Integrated Approach to CCA
- Strategic Partnerships: Expertise and Finance
