
FG #01: DOMESTIC POLITICAL BUY-IN

This group will, on the basis of experiences, lessons learned and expert judgment, aim to answer the following (but not limited to) questions:

- How does domestic political buy-in affect the national efforts to successfully implement the existing MRV arrangements under the Convention and transition to the ETF under the Paris Agreement?
- What are the root causes of a weaker domestic political buy-in?
- How can these identified root causes be addressed and how are the key actors?
