

This guide is intended to support you in filling in your Climate Neutral Now Pledge. Please input the information according to the instructions found in this guide. In case of further questions, please contact us via email at ClimateNeutralNow@unfccc.int.

The Pledge

The process of joining Climate Neutral Now begins by signing the Climate Neutral Now Pledge. This is a statement of your commitment to:

- 1- Estimate your greenhouse gas emissions,
- 2- Act to reduce them with the goal of achieving net zero emissions by 2050 or earlier,
- 3- Consider an additional contribution to reduction of emissions by providing support to projects that reduce, avoid or capture emissions beyond your value chain and bring additional sustainable development benefits (offsetting), and
- 4- Report annually.

The Pledge is completed and signed only once.

Step by step

To prepare your Pledge, you should input your organization's information in the blue fields. After that, the document should be signed by an official who has the power to commit the organization to this pledge.

1. Add the official name of your organization.

A screenshot of a portion of the pledge form. It shows a text input field with a light blue background. The text "I am pleased to confirm that" is followed by the input field. Below the input field, the text "(name of organization)" is written in small, light blue font. Below the input field, the text "will contribute to accelerating the transformative change needed to reach global net-zero greenhouse gas (GHG) emissions by 2050 or earlier through its commitment to the Climate Neutral Now initiative," is written in black font.
