

Thank you for participating in the Climate Neutral Now initiative. As committed in your pledge, you must report annually on your climate actions. To do so, please fill in this Report and send it back to us via email (climateneutralnow@unfccc.int). If you report to CDP, this report is not necessary and in this case, please advise us via email.

GENERAL

1.What is the name of the reporting organization?

GreEnergy Dominicana

2.Please indicate the reporting period correspondent to this Report

Starting date – dd/mm/yyyy

01/01/2021

Ending date – dd/mm/yyyy 31/12/2021

3.What are the challenges and opportunities to climate action that might affect the financial or strategic plans of your business?

Please describe here.

There is a great opportunity to align the growth of our services with the climate action goals and to make our climate pledge as part or our core-business. The challenges are the investment required to calculate, monitor, offset and potential realize the third party verification.

4. Have climate-related risks and opportunities been considered in your organization's strategy and/or financial planning? *Please describe here.*

As an opportunity, we offer a consulting service to structure and/or implement climate action initiatives in the private sector. Harmonize with the national goals in the NDCs.

5.Did your organization's operations substantively change in the reporting period, affecting your GHG emissions?

- O Yes
- No

6.Do you engage with your value chain on climate-related issues? Please advise who with.

Customers

Other partners in the value chain

Do no engage

7.Please indicate any awareness raising or advocacy initiatives that were active within the reporting year. *Note that this can include those in the planning and/or implementation phases.*

We joined the SME Climate Hub and at the National Level we kept our technical assistance to the private - public partnership "Articulación Empresarial para la Acción Climática"

STEP 1. MEASURE

8.What standard or methodology are you using when measuring your GHG inventory

GHG Protocol Corporate Reporting & Accounting Standard
GHG Protocol Product Life Cycle Accounting & Reporting Standard
ISO 14064, International Standard for GHG Emissions Inventories and Verification PAS
2050 - Specification for the assessment of the life cycle greenhouse gas emissions of goods and services
Defra Guidance on how to measure and report
Bilan Carbone
Others

If you chose "Others", please describe below:

9.Is your GHG inventory publicly available?

○ Yes

No

If yes, please provide a web link here:

10.Which GHGs are included in your estimation?

- ✔ Carbon dioxide (CO2)
- Methane (CH4)
- ✓ Nitrous oxide (N2O)
- ✓ Hydrofluorocarbons (HFCs)
 - Perfluorocarbons (PFCs)
 - Sulphur hexafluoride (SF6)
 - Hydrochlorofluorocarbons (HCFCs)
 - Chlorofluorocarbons (CFCs)

11.What were your GHG emissions in the reporting period (metric tons of CO2 equivalent)?

14.81

12. Which scopes are included in your GHG inventory?

Scope 1: includes direct emissions from sources owned or controlled by your organization. Scope 2: includes indirect emissions from the purchase of electricity, steam, heating and cooling consumed by your organization.

Scope 3 - Partially: includes other indirect emissions (excluding scope 2) that occur in your organization's value chain. Scope 3 - Complete: includes all other indirect emissions (excluding scope 2) that occur in your organization's value chain.

	Scope	1
•	Scope	2
	Partial	S

cope 2

artial Scope 3

1 Complete Scope 3

13. Which categories are included in your estimation?

	Fuels		Material use
	Refrigerants	~	Waste
•	Owned vehicles		Flight and/or hotel
	Electricity and heat		Business travel - land and/or sea
	Well to tank fuels		Freighting goods
	Transmissions and distributions losses	~	Employees commuting
	Water		Food

14. How have you developed your GHG inventory?

- Self-declared GHG inventory
- Third-party verified GHG inventory with partial scope 3
- Third-party verified GHG inventory including full scope 3

15. How much of the total emissions (metric tons of CO2 equivalent) correspond to Scope 1?

n/a since we operate in a coworking space and remote work.

16. How much of the total emissions (tons of CO2 equivalent) are corresponding to Scope 2 using the Market Approach?

A market-based method reflects emissions from electricity that companies have purposefully chosen (or their lack of choice).

 $\times \times \times \times \times$ 0

17. How much of the total emissions (tons of CO2 equivalent) are corresponding to Scope 2 using the Location Approach?

A location-based method reflects the average emissions intensity of grids on which energy consumption occurs (using mostly grid-average emission factor data).

14,31	tCO2e
14,51	10026

18. How much of the total emissions (tons of CO2 equivalent) are corresponding to Scope 3?

Scope 3 includes indirect emissions that occur in your organization's value chain. If you are not measuring this scope, answer with "0", please.

0, 49

19.Please select the categories included in your Scope 3, and their status

You can find a detailed description of the categories on the Corporate Value Chain (Scope 3) Accounting and Reporting Standard, p. 34 (https://ghgprotocol.org/standards/scope-3-standard)

	1	I		
	Relevant, calculated	Relevant, not yet calculated	Not relevant, calculated	Not relevant, not calculated
Purchased goods and services	0	0	0	۲
Capital goods	0	0	0	0
Fuel-and-energy-related (non-Scopes 1 or 2)	۲	0	0	0
Upstream transportation and distribution	0	0	0	۲
Waste generated in operations	۲	0	0	0
Business travel	0	0	0	۲
Employee commuting	۲	0	0	0
Upstream leased assets	0	0	0	۲
Downstream transportation and distribution	0	0	0	۲
Use of sold products	0	0	0	۲
End of life treatment of sold products	0	0	0	۲
Downstream leased assets	0	0	0	۲
Franchises	0	0	0	۲
Other (upstream)	0	0	0	۲
Other (downstream)	0	0	0	O

STEP 2. REDUCE

20.Did you have a GHG emissions target that was active in the reporting year?

- O Yes
- O No

21.What was your GHG emissions target in the reporting year?

e.g. 5% reduction in 2021 (target year) compared to 2020 (base year)

22.What were your GHG emissions in the base year (metric tons of CO2 equivalent)?

n/a

23.Are your reductions and progress towards your targets third-party verified? O Yes No

If yes, please provide a link to the verification opinion or report, or send us a copy of it (climateneutralnow@unfccc.int).

24. How developed is your plan to reduce GHG emissions?

- Target established, with incomplete or no reduction plan
- O Reduction plan with intermediate targets to achieve Net Zero by 2050 or earlier
- O Reduction plan with intermediate targets to achieve Net Zero by 2050 or earlier + at least 5% reduction year-on-year

Please provide a link here or send your emissions reduction plan at climateneutralnow@unfccc.int

25.What emission reductions actions did you implement during the reporting period?

Note that this can include actions in the implementation phase.

Energy efficiency in buildings Waste reduction and material circularity Low-carbon energy consumption Low-carbon energy generation Non-energy industrial process emissions reductions 'Green' Company policy or behavioral change Transportation No emissions reductions initiatives in place Other

If you chose other, please specify here:

26.Please give details on the actions that you have implemented during this reporting period to reduce your GHG emissions.

You may want to keep in mind the GHG emissions management hierarchy (avoid, reduce, replace). e.g. for energy efficiency in buildings: change of light bulbs in the whole office

As a fully remote organization, our first step to reduce emissions was to be aware within our personal spaces of the individual emissions that we emitted, reducing our water consumption, electricity usage and waste. We analyzed and selected our providers based on their ecological impact, for example selecting Ecomensajeria for our messaging services due to their electric fleet. We have digitized our entire process, therefore heavily reducing our waste. We highly encourage virtual meetings in order to reduce transportation as much as possible. Additionally, climate action is one of our central services. Thus, there is a strong focus on reducing the GHG emissions of our clients.

27.Has your organization achieved at least 5% reduction in your GHG inventory from the last reporting period to this one?

O No

STEP 3. CONTRIBUTE

28.Are you contributing to encourage more emission reductions, avoidance or capture through the use of carbon credits (offsets)?

If you answer to this question is 'No' skip the last questions and save your Report

• Yes, all my emissions

- O Yes, part of my emissions
- O No contribution

29.Please indicate the types of offsets you are using in your climate strategy

Offsets coming from reduction and avoidance projects (e.g. renewal energy, biomass waste, cookstoves, transport & other projects)

Short-term capture (Nature-based solutions such as forestry, peat land management, mangroves restoration or similar projects)

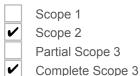

Long-term capture (Carbon Capture & Storage, Biomass with Carbon Capture Storage, or other technologies)

30.Please specify here your offsets according to the each standard

CDM	
VCS	
Gold Standard	
CCBS	
Other	ICONTEC
Total	15

Please provide a link to a relevant public registry/website or send us the certificate to climateneutralnow@unfccc.int

31. Which scopes did you offset?

Thank you for participating in the Climate Neutral Now initiative. We will get back to you in up to one week
