**[Draft decision -/CP.30**

**Review of the functions of the Climate Technology Centre**

*The Conference of the Parties,*

*Recalling* decisions 1/CP.16, 2/CP.17 and 10/CP.29,

*Recognizing* the efforts of the Climate Technology Centre to fulfil its functions<sup>1</sup>, support developing country Parties in relation to technology transfer and facilitate effective implementation of the Technology Mechanism, and progress in implementing the recommendations from the first and second independent reviews of the effective implementation of the Climate Technology Centre and Network,<sup>2</sup>

1. *Decides* to extend the term of the Climate Technology Centre for [X] years;
2. *Adopts* the revised functions of the Climate Technology Centre, as contained in the annex;
3. *Decides* that the next review of the functions of the Climate Technology Centre will take place at the [X] session of the Conference of the Parties (month and year of session);
4. [Placeholder for the host selection process;]
5. *Requests* the Subsidiary Body for Implementation to initiate at its [X] session (month and year of session) the review of the functions and term of the Climate Technology Centre with a view to recommending a draft decision thereon for consideration and adoption by the Conference of the Parties at its [X] session.

## Annex

### Revised functions of the Climate Technology Centre

In order to maximize the impact and transformational change of its work, the Climate Technology Centre shall facilitate a network of national, regional, sectoral and international technology networks, organizations and initiatives with a view to supporting Parties in fully realising the technology development and transfer in order to improve resilience to climate change and reduce greenhouse gas emissions, by engaging the participants of the Network effectively in the following functions:

- (a) At the request of a developing country Party:
  - (i) Providing advice related to identifying technology needs, developing enabling environments for technology transfer, and support the implementation of environmentally sound technologies, policies, practices and processes;
  - (ii) Facilitating the provision of information, training and support for programmes to build or strengthen the capacity of the developing country Party, including its national designated entity with a view to enabling it to fulfil its roles, to identify technology options, make technology choices and operate, maintain and adapt technologies, including by working with relevant UNFCCC constituted bodies;
  - (iii) Facilitating prompt action on the development, demonstration and deployment of technologies in the developing country Party on the basis of identified needs;
  - (iv) Providing technical and logistical support to the national designated entity, including in collaboration with the public and private sectors;
  - (v) Facilitating the preparation of project proposals for the deployment, use and financing of existing technologies for mitigation and adaptation, including through use of pilot and demonstration projects;
  - (vi) Providing technical assistance, to ensure adequate financing, with a view to enhancing efficiency and maximum impact, through programmatic approaches;
- (b) Stimulating and encouraging, through collaboration with the private sector, philanthropies, international coalitions, public institutions, academia and research institutions, the development and transfer of existing and emerging environmentally sound technologies, as well as opportunities for North–South, South–South and triangular technology cooperation;
- (c) Facilitating a network of national, regional, sectoral and international technology centres, networks, organizations and initiatives with a view to:
  - (i) Enhancing cooperation among national, regional and international technology centres and relevant national institutions;
  - (ii) Facilitating international partnerships among public and private stakeholders to accelerate the innovation and diffusion of environmentally sound technologies in developing country Parties;
  - (iii) Providing, in-country technical assistance and training to support identified technology actions in developing country Parties;
  - (iv) Encouraging North–South, South–South and triangular partnerships with a view to encouraging cooperative research, development and demonstration;
  - (v) Identifying, disseminating and assisting with developing analytical tools, policies and best practices for country-driven planning to support the dissemination of environmentally sound technologies;
  - (vi) Providing matchmaking services, for the purpose of securing funding for the implementation of technologies identified as needed by developing country Parties;

---

(d) Cooperating with the operating entities of the Financial Mechanism and the Adaptation Fund;

(e) [Placeholder for technology implementation programme];

(f) Performing other such activities as may be necessary to carry out its functions.]
