## **World Café Round 1:**

How do national policies, frameworks and planning tools support NDC implementation, including locally driven efforts? What are approaches to fostering policy coherence across sectors and ensuring that resources reach subnational levels?

## **World Café Round 2:**

How are cross-government collaboration and ownership from previous NDC cycles being carried into implementation, and what has worked well or required adjustment?

## **World Café Round 3:**

How are civil society, youth, Indigenous Peoples, women and other groups contributing to implementation, and how has their role evolved from the NDC formulation process?

### **Discussion Round 1:**

How does your country determine and sequence priority NDC actions for implementation? What works well and what insights can you share with others?

### **Discussion Round 2:**

What factors, such as co-benefits or access to finance, help guide these prioritization choices?

[Examples for co-benefits: resilience, nature, development, risk reduction, gender equality, social inclusion]

### **Discussion Round 3:**

What tools are used for prioritization, including those that support integrated planning or policy coherence?
