About the Standing Committee on Finance

The SCF assists the COP in exercising its functions with respect to the Financial Mechanism of the Convention through various activities. One of the flagship activities of the SCF is organizing a forum for communication and continued exchange of information among bodies and entities dealing with climate change finance in order to promote linkages and coherence. SCF Forums connect the UNFCCC with public and private actors involved in climate finance issues at global, regional and national levels. [Visit the SCF webpage for more information.](#)
