

Moving to action - from regional to national roadmaps

UNFCCC Technical Expert Meeting, 14 October 2020

Christiana Hageneder

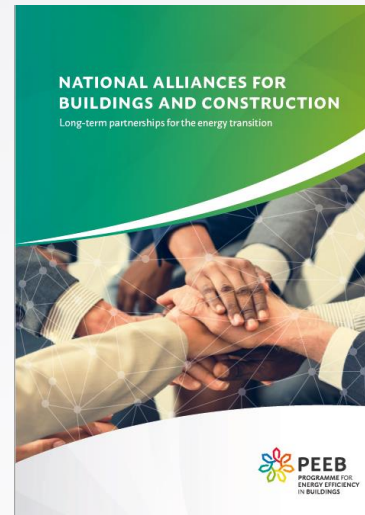

Roadmaps towards decarbonization of the buildings/construction sector

- **Building/Construction sector Roadmaps**
 - define 8 topics
 - Set targets and galvanise (financial) support
 - Link to NDCs

Tunisian National Alliance

1. Urban planning

2. New buildings

3. Building retrofits

4. Building operations

5. Building Systems

6. Materials

7. Resilience

8. Clean energy

PEEB – a global partnership for buildings of the future

5 initial partner countries:

**Marocco, Mexico, Senegal,
Tunisia and Vietnam**

new countries have requested to
join

Long-term experts in
our partner countries

PEEB implementers

PEEB Secretariat in
Paris and Bonn

PEEB donors:

Bundesministerium
für Umwelt, Naturschutz,
Bau und Reaktorsicherheit

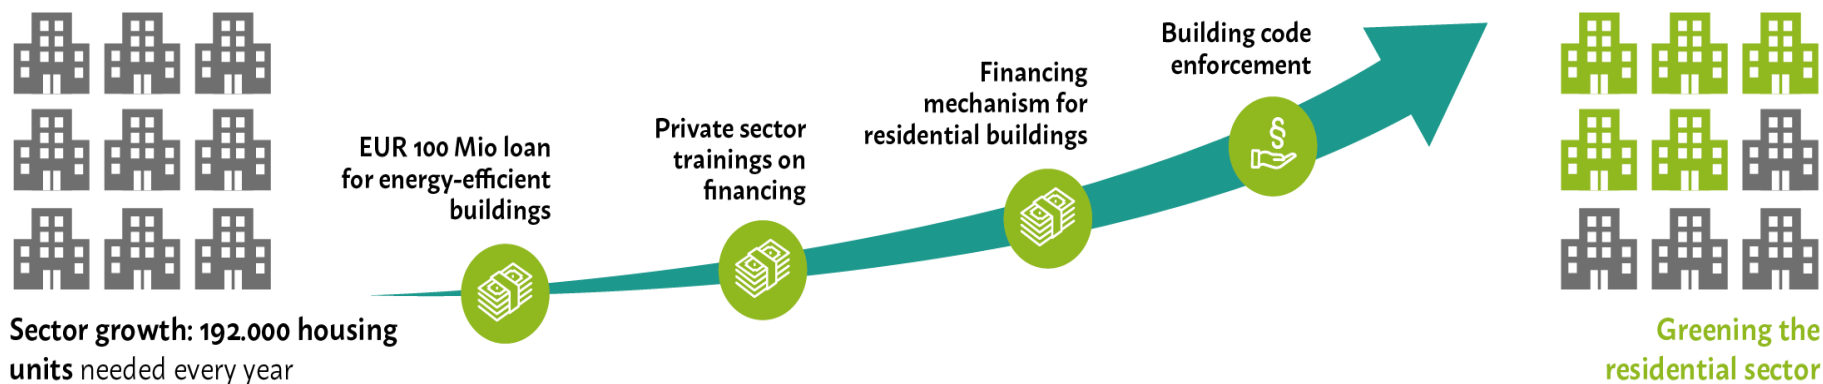

FOND FRANÇAIS POUR
L'ENVIRONNEMENT MONDIAL

PEEB country example:

Morocco: Development of national Green Housing Programme

NAMA for national programme for social and mid-income housing

Investment amount: **180 million EUR**

- Partnership with **Moroccan Ministry of Housing** and national public housing developer Al Omrane

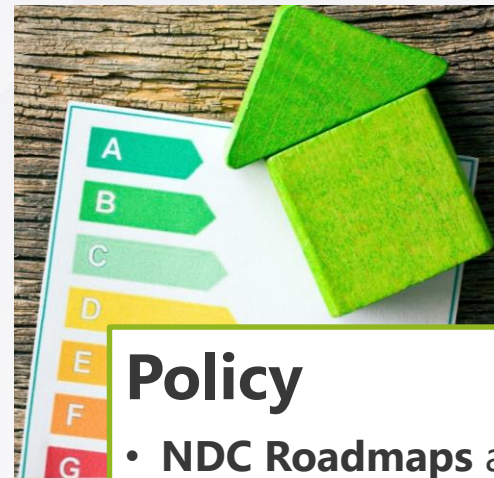

From projects to programmes: PEEB support for sector transformation

PEEB works as a catalyst to support national processes/roadmaps

Financing

- **Project preparation** for large-scale projects (pipeline 2 bln €)
- Preparation of **national incentive programmes**
- **Market stimulation** through grants and loans

Policy

- **NDC Roadmaps** and national alliances
- Development or enforcement of **building codes**
- **Capacity-building** and awareness-raising
