

In-session Action for Climate Empowerment (ACE) Dialogue 2026

MER Indicators

11 June 2026

- what constitutes specific ACE elements and common understanding of them
 - ↳ INDICATORS
- what are the challenges of getting dis- data? at the national level
- data available but in silos and not connected to CC
- context level studies (topography, language) essential for appropriate results
- build ^(enhance) reporting on participation at UNFCCC events
- inter-ministerial collaboration (how much, too much?)
- capacity imbalances

Enhance reporting on participation at UNFCCC events

Enhance reporting on participation at UNFCCC events

COMPILATION of existing indicators and data to meet ACE requirements

• existing indicators, national and international situation is also calling for indicators including age, gender, and disability

Enhancing synergies in preparation for the Global Stocktake regarding gender-, age- and disability-disaggregated data

ENHANCE C-3 FOR WGS AND OTHER RELEVANT STAKEHOLDERS

COLLECTING, ANALYSING AND REPORTING INTERSECTIONAL DISAGGREGATED DATA, INCLUDING AGE-, DISABILITY-, AND GENDER- DATA, WHILE INTEGRATING FACTORS OF CLIMATE, GEOGRAPHY, AND VULNERABILITY TO HELP SHAPE EFFECTIVE CLIMATE POLICIES.

- JAW (CE)
