Title: MRV system

Question From Party: Norway

Question raised on: 09.09.2026 CEST

Question Category: Mitigation actions, policies and measures supporting NDC implementation

Question: Norway notes in the technical expert review report that an MRV system that will allow for a more precise calculation of emission reductions, is currently under development. Can Cuba share some information on the status for this MRV system?

Answer:

Title: Progress towards the Renewable energy target

Question From Party: European Union

Question raised on: 09.09.2026 CEST

Question Category: Mitigation actions, policies and measures supporting NDC implementation

Question: The European Union notes that Cuba's NDC commits to increasing the share of electricity generated from renewable energy sources in Cuba's electricity mix from 4.1% in the base year (2014) to 24% by 2030 (Table 2.9 of Cuba's BTR). However, the BTR reports limited progress towards this target (Table 2.26 of the BTR), with the share of renewable energy reaching 4.8% in 2021 and 4.1% in 2022. Could Cuba give an update of the deployment of projects supporting the renewable energy 2030 target? Also could Cuba share its experience, limitations and best practices with installing renewable energy in the Caribbean Region? Also, could Cuba provide information on how support received is contributing to the deployment of renewable energy projects?

Answer:

Title: Tracking progress indicators

Question From Party: European Union

Question raised on: 09.09.2026 CEST

Question Category: NDC target (e.g. conditions, assumptions, methodologies)

Question: The European Union commends Cuba for their first Biennial Transparency Report. Cuba's BTR shows that Cuba applied different base year and reference values to the indicators used to track progress

towards Cuba’s NDC (Table 2.9 of Cuba’s BTR)? Could Cuba elaborate on the rationale for selecting different base years for these indicators? Also, Could Cuba share the challenges and lessons learnt with setting these indicators and monitoring their progress?

Answer:
