

## Daily Programme

### Second part of the high-level segment

The second part of the high-level segment of COP 24/CMP 14/CMA 1.3 will continue hearing national statements on Wednesday, 12 December in Plenary Mazowsze, beginning at 10.00 hrs. No special badges are required for the entry to the plenary.

Parties will have only one opportunity to deliver a national statement during the high-level segment. Those Parties whose Head of State or Government delivered a national statement on Monday, 3 December will not be able to deliver another national statement.

**All speakers are reminded that they should be present in the plenary at least four (4) speakers ahead of their statement. Speaking slots for those who are not in the plenary at the time for delivery of their statements, will be scheduled to speak at the end of all statements of the same category.**

Given the number of Parties who have registered their request to deliver a national statement, and the limited amount of time available, **statements will be on-going without a break.** It will be necessary to limit the duration of each statement. Representatives are reminded that statements made during the resumed high-level segment should not exceed the **three-minute limit**. To be fair to all speakers, time limits will be strictly enforced. This will allow all speakers to deliver their national statements.

Full texts of the official statements will not be circulated in hard copy in plenary during the high-level segment. Statements delivered during the high-level segment will be uploaded and made available on the UNFCCC website. Parties are encouraged to reduce oral statements to the three-minute limit on the understanding that the full version of their statements will be posted on the UNFCCC website.

Statements by intergovernmental organizations, followed by statements from non-governmental organizations are scheduled to be taken up after the completion of national statements. The statements of IGOs will be taken up in alphabetical order by organization's name.

The high-level segment will conclude on Wednesday, 12 December.

Please note that demands of the negotiation process might necessitate changes to this meetings schedule. For real-time information on all meetings, please consult the [live meetings schedule](#) on CCTV.
