You don't often get email from euan.mcdougall@delagua.org. [Learn why this is important](#)

Dear SB Team,

We would like to submit two pieces of feedback regarding the recently release consultation response to the clean cooking methodologies being proposed and that of permanence. These two points are below:

1. There is no need to rush these methodologies through
 - a. Speed of the consultation and volume of documents to be considered means that we are unable to engage appropriately. The same can almost certainly be said for other stakeholders including PDs and government agencies. We ask the SB to delay making drastic changes hastily and send this back to the MEP otherwise this will not be an inclusive consulatory process
1. Given the time constraints, we fully endorse the positions taken by the PD Forum and IETA

Regards,

Euan
